

# MEET THE TWISTER T-ZERO

## Record-Breaking Throughput

T-ZERO trims wet and dry, generating 56,000 cuts per minute for a total wet throughput of 600+ lbs per hour.

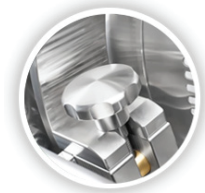

## Commercial Grade Automation

Siemens PLC automation with touchscreen interface enable custom presets and data collection for maximum efficiency and product consistency.

## Industry Leading Performance

Industry leading power allows continuous duty operation and ultimate reliability in the most demanding harvests.

## Complete Control Over Quality

Full speed control on all inputs including the tumblers, blades, vacuum and conveyors gives you complete customization to match your trimming needs.

## T-ZERO FEATURES

- Throughput 600lbs wet \ 120 lbs dry per hour
- Variable speed control and angle adjustments
- Lean workflow using single piece flow
- Water mist system for high throughput
- Programmable set points and data collection
- 2-Stage HEPA filtration
- Self-cleaning filters with HEPA filtration
- Compliant with health and safety authorities
- Monitored safety systems with LED illumination
- Optional SCADA integration
- Optional connectivity for remote diagnostics
- 5000 CFM trim collection

## T-ZERO SPECS

Blade Drive Motor:	20HP
Tumbler Motor:	1HP
Tumbler Volume:	6.5 cubic foot
Power:	480/600V 3 phase
Weight	~3000lbs
