

# TRIMINATOR® BUCKMASTER PRO

## MACHINE SPECS

**HEIGHT** 57 INCHES  
**WIDTH** 50.5 INCHES  
**LENGTH** 36.75 INCHES  
**WEIGHT** 240 POUNDS

**AC VOLTAGE** 120 V  
**POWER** 1/2HP MOTOR  
**NOMINAL CURRENT** 7 A  
**POUNDS/HOUR** UP TO 300 LBS/HR  
**WARRANTY** 2 YEAR

## KEY FEATURES

### 2X PRODUCTION

Two operator stations double the production of traditional buckers.

### WET AND DRY CONFIGURATIONS

Quickly change bucking profiles as strains and conditions demand.

### FEEL THE POWER

The 1/2 HP USA Made LENZE motor delivers massive torque for non-stop bucking.

### 100% PRESSURE-WASHABLE

IP-65 rated components make pressure washing fast and easy.

### GMP COMPLIANT

Stainless steel touchpoints and an easy to clean design make GMP compliance easy.

### BUILT FOR BIG AG

Robust design and USA made components are built for years of reliable service.

## MORE ABOUT

Lorem ipsum dolor sit amet,

The Triminitor® Buckmaster Pro is built for commercial ag with an innovative design that doubles the production of traditional buckers. Designed with two operator stations, the Buckmaster Pro is built for speed, with twice the bucking power of the standard Buckmaster. The stainless steel and aluminum construction is built to last, and wash-down grade components make cleaning fast and easy. Finally, customizable height, ergonomic material holders, and an emergency stop keep operators safe and productive.
