# DISCOVER A BETTER WAY TO CONNECT

## Solid Dynamics

Is an Australian owned & operated company based in Sydney, NSW. We specialize in the manufacture and distribution of circular tubing and slip-on structural fittings throughout Australia, Asia Pacific & Oceanic Region.

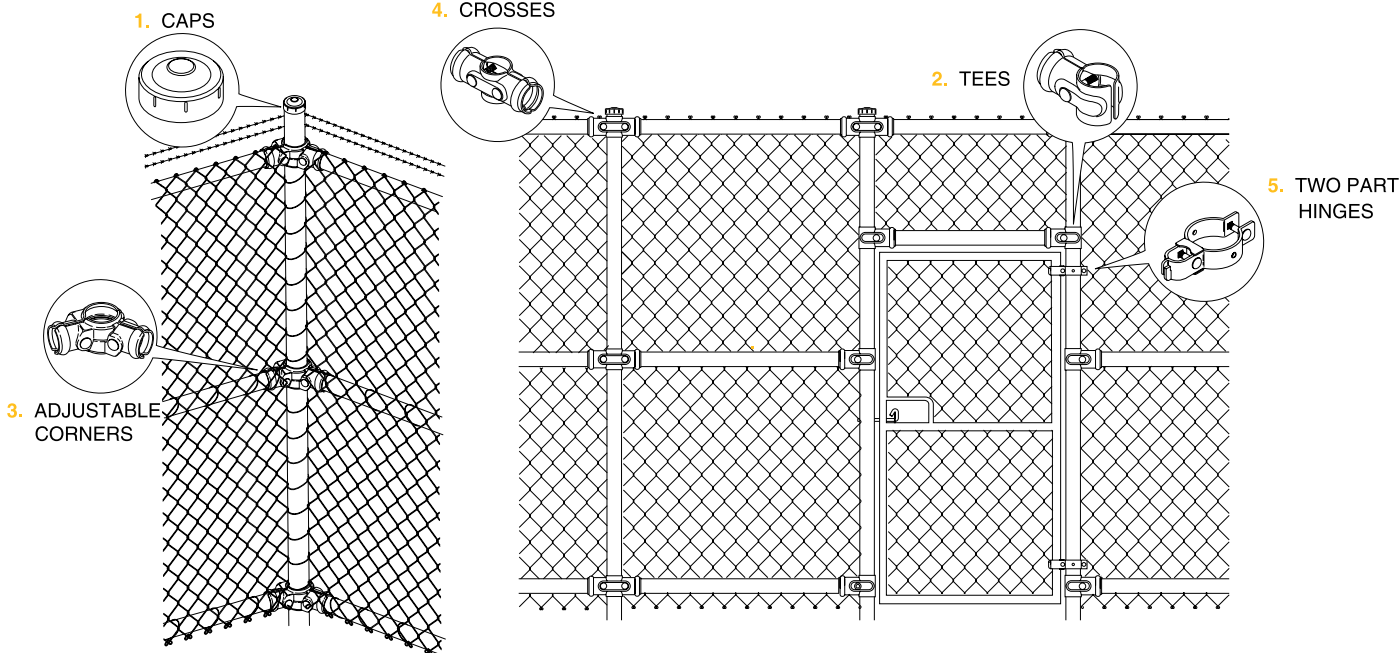

Our premium product, Tube clamp fittings, offers many benefits over traditional welding & fabrication techniques. Designed for ease of use, our Tubeclamp fittings are created for the modern construction environment. It combines the benefits of strength and durability of conventional welding, with the added advantages of simplicity and flexibility.

Our innovative and cost-effective design system, enables any individual to connect & build structurally secure objects and frames, without the need for time & labor intensive alternatives. Simply slide the fittings along the tubes, & secure the connection into position by tightening the set screws with a hex key.

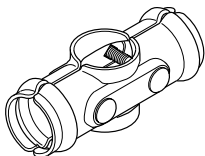

## It's that easy

So contact us today & discover a better way to connect.
