

# VP® X4 1000 Four Stroke Engine Oil

## Full Synthetic Off-Road Formula

### DESCRIPTION

**X4 1000 Full Synthetic Motorcycle Engine Oil** is formulated using the highest quality ester based synthetics combined with the most advanced additive technology available. This combination offers the highest available protection for your machine while equally optimizing performance output.

Our X4 line has been specifically formulated to meet the unique demands of off-road motorcycles and sport ATVs. These products provide optimal engine protection and performance with an emphasis on oil durability, shear stability, and film strength.

### PERFORMANCE BENEFITS

- Superior wear protection to protect critical engine components
- Special friction optimized chemistry delivers optimum performance output and protection without sacrificing clutch performance
- Enhanced detergency protects engines from harmful deposits
- Maintains maximum engine protection under severe operating conditions
- Balanced frictional properties, shear stability, and film strength for enhanced transmission protection
- Superior thermal stability and oxidation resistance
- Ester based synthetics offer maximum protection and peak performance
- Backwards compatible and may be used in vehicles requiring previous API service categories (SG, SH, SJ, SL, SM and SN,)
- All VP Powersports engine oils meet the highest available API and JASO performance standards

### PRODUCT APPLICATION

Specifically formulated for single cylinder air and water-cooled four stroke engines, with or without a wet clutch.

Meets or exceeds the following performance requirements;

**API – SN**

**JASO – MA2**

Typical Physical Properties			
Property	Method		
SAE Grade		10W-40	10W-50
Item Number		VP7190400	VP7190500
Viscosity, cSt @ 100°C	D-445	14.6	20.3
Viscosity Index	D-2270	185	180
CCS, cP @ -25°C	D-5293	<7000 @-25°C	<7000 @-25°C
Specific Gravity, 60/60°F	D-1250	0.8570	0.8594
Color	D-1500	<3.5	<3.5
Zinc, wt. %		0.092	0.092
Minor variations in physical test results may occur through normal manufacturing			

**Always consult original equipment manufacturer's lubricant recommendation for proper fluid application.**
