

Introduction

MOD Square Evolution+ is a 7-mode mini digital modulation pedal suitable for any music style. 7 selected modulation effects and onboard controls offers you a wide tonal range, and Tap Tempo function is very convenient for instant effect speed control.

Precautions

READ CAREFULLY BEFORE PROCEEDING

Please keep this manual in a convenient place for future reference.

Power Supply

Always use a DC 9V center negative AC adapter. Use of an adapter other than that specified could damage the unit or cause malfunction and pose a safety hazard.

Always connect the AC adapter to an AC outlet that supplies the rated voltage required by the adapter.

Disconnect the AC adapter from the AC outlet when during lightning storms or not using the unit for an extended period.

Connections

Always turn off the power before connecting or disconnecting. Make sure to disconnect all cables and AC adapter before moving the unit. This will help prevent malfunction and damages.

Environment Considerations

Avoid using the unit in any of the following conditions that could cause malfunction:

- Extremely hot or cold places
- Under direct sunlight
- Magnetic fields
- Near heaters and other heat sources
- Sandy or dusty places
- Places that are extremely humid or exposed to splashing water
- Places with lots of vibrations

Electrical Interference

Devices that are very susceptible to interference or that emits powerful electromagnetic waves (e.g. radios and TVs) should not be placed near this

unit, as interference could occur.

Electromagnetic interference could cause malfunction and could corrupt or destroy data.

Always operate this unit at a suitable distance from these devices.

Handling

Do not apply excessive force to the switches and other controls, exposing the unit to strong impacts, which could cause it to break.

Do not put foreign objects or liquids into the unit.

Never open the case or attempt to modify the product in any way since this can result in damage to the unit.

Clean only with a soft, dry cloth.

Overview

● 7 In 1 Modulation Pedal

The MOD Square Evolution+ comes with 7 carefully selected modulation effects, allowing you to easily add sound dimensions to your tone. The light weight, compact-sized housing helps you keep your pedalboard tiny and easy to carry.

● Wide-Range Effect Controls

The MOD Square Evolution+ features an effect type selector and three effect parameter control knobs, gives you fully access to effect details, which makes it suitable for every music genre.

● Tap Tempo

Hold the footswitch to engage Tap Tempo function. When engaged, you

折起朝外

can set effect speed instantly by tapping the footswitch, and LED above the footswitch will indicate the current effect speed you set. This will help you a lot during live performances.

● Carefully Selected Components

The MOD Square Evolution+ is designed and built with carefully selected components to ensure best sound quality and road performance. The solid Aluminum-alloy chassis ensures touring reliability.

Features

- Convenient compact size
- Buffer bypass
- 7 modulation effects in one pedal with wide tonal range
- Tap Tempo function for instant effect speed control
- LED indicator shows working state
- Suitable for any music style

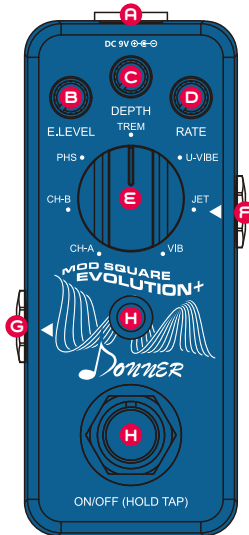

Specifications

Power Requirement: 9V DC center negative
Current Consumption: 100mA
Dimensions: 42x93.5x52mm
Weight: g

Connections & Controls

● E.LEVEL Knob:

Controls the effect level.

● C DEPTH Knob:

Controls the effect depth.

● D RATE Knob:

Controls the effect speed.

● E Mode Selector:

For selecting from 7 effect types:

Mode	Description
CH-A	Produces a warm classic chorus effect
CH-B	Produces a lush, sharp chorus effect
PHS	Produces a bright, sharp phasing tone
TREM	Produces a deep optical tremolo effect
U-VIBE	Simulates the legendary 4-stage phasing/rotary vibe effect
JET	Produces a massive flanger tone with plenty of feedback
VIB	Produces a natural, warm vibrato sound

● F Input Jack:

1/4" mono audio jack, for connecting instruments or other pedals.

● G Output Jack:

1/4" mono audio jack, for connecting to an amplifier or other pedals.

● H Footswitch And LED:

TAP: Turn the pedal on/off, the LED will lit up when the pedal is on.

HOLD: Engage/disengage tap tempo function, the led will pulse to indicate current effect speed when tap tempo is on.

● DC 9V Jack:

For power supply, use a 9-volt DC regulated by AC adapter, 500mA (plug polarity is positive on the barrel and negative in the center).
