## Owner's Manual

### Introduction

Inspired by the legendary high gain stack amps, while combining wide dynamic range, high definition and flexible onboard controls, the Morpher delivers you a huge modern high gain distortion sound suitable for both shredding and riffing.

### Precautions

#### READ CAREFULLY BEFORE PROCEEDING

Please keep this manual in a convenient place for future reference.

#### Power Supply

Always use a DC 9V center negative AC adapter. Use of an adapter other than that specified could damage the unit or cause malfunction and pose a safety hazard.

Always connect the AC adapter to an AC outlet that supplies the rated voltage required by the adapter. Disconnect the AC adapter from the AC outlet when during lightning storms or not using the unit for an extended period.

#### Connections

Always turn off the power before connecting or disconnecting. Make sure to disconnect all cables and AC adapter before moving the unit. This will help prevent malfunction and damages.

#### Environment Considerations

Avoid using the unit in any of the following conditions that could cause malfunction:

- Extremely hot or cold places
- Under direct sunlight
- Magnetic fields
- Near heaters and other heat sources
- Sandy or dusty places
- Places that are extremely humid or exposed to splashing water
- Places with lots of vibrations

#### Electrical Interference

Devices that are very susceptible to interference or that emits powerful electromagnetic waves (e.g. radios and TVs) should not be placed near this unit, as interference could occur. Electromagnetic interference could cause malfunction and could corrupt or destroy data.

Always operate this unit at a suitable distance from these devices.

#### Handling

Do not apply excessive force to the switches and other controls, exposing the unit to strong impacts, which could cause it to break. Do not put foreign objects or liquids into the unit. Never open the case or attempt to modify the product in any way since this can result in damage to the unit. Clean only with a soft, dry cloth.

### Overview

#### ● Mini High Gain Monster

The Morpher is a mini modern high gain distortion pedal inspired by the huge high gain stack amp sound. By switching it on, the Morpher can transform any gentle clean amp into a high gain monster!

#### ● Easy Controls, Wide Flexibilities

The Morpher features an easy-to-use three-knob tone control: LEVEL (output volume), TONE (brightness) and GAIN (distortion amount) for using in different scenarios. Each knob gives you a wide control range.

#### ● 3-way Tone Switch

The Morpher offers a the 3-way selector for choosing from three sound types for satisfying different musicians:

**Natural:** Neutral mode that delivers an organic, natural tone

**Tight:** A more aggressive tone with enhanced bottoms and edges

**Classic:** Provides a classic UK-style high gain sound with warm mids

### ● Carefully Selected Components

The Morpher is designed and built with carefully selected components to ensure best sound quality and road performance. The solid Aluminum-alloy chassis ensures touring reliability, and True Bypass design gives you a transparent tone.

### Features

- Modern high gain distortion pedal with great dynamic range and clarity
- Sound inspired by high gain stack amps
- Wide range tone controls suitable for both vintage and modern players
- True bypass provides transparent tone
- LED indicator shows the working state
- Enduring, light-weighted Aluminum-alloy chassis

### Specifications

Power Requirement: 9V DC center negative  
Current Consumption: 20mA  
Dimensions: 42x93.5x52mm  
Weight: 230g

### Connections & Controls

- A DC 9V Jack:** For power supply, use a 9-volt DC regulated by AC adapter, 500mA (plug polarity is positive on the barrel and negative in the center).
- B Input Jack:** 1/4" mono audio jack, for connecting guitar.
- C Output Jack:** 1/4" mono audio jack, for connecting to an amplifier.
- D LEVEL Knob:** Controls the output volume.
- E TONE Knob:** Controls the effect tone.
- F GAIN Knob:** Controls the distortion amount.
- G Tone Selector:** Selects from three modes:
  - Natural:** Neutral mode suitable for most music styles
  - Tight:** Provides a more aggressive sound with more low ends and high ends
  - Classic:** Provides a classic UK-style high gain sound
- H Footswitch and LED:** Tap to switch the unit on/off. The LED will lit up when the effect is on.
