Owner's Manual

Introduction

Yellow Fall is a compact delay pedal specially designed for guitar and bass. This all-analog stompbox reproduces the warm and natural classic vintage analog delay sound.

Precautions

READ CAREFULLY BEFORE PROCEEDING

Please keep this manual in a convenient place for future reference.

Power Supply

Always use a DC 9V center negative AC adapter. Use of an adapter other than that specified could damage the unit or cause malfunction and pose a safety hazard.

Always connect the AC adapter to an AC outlet that supplies the rated voltage required by the adapter.

Disconnect the AC adapter from the AC outlet when during lightning storms or not using the unit for an extended period.

Connections

Always turn off the power before connecting or disconnecting. Make sure to disconnect all cables and AC adapter before moving the unit. This will help prevent malfunction and damages.

Environment Considerations

Avoid using the unit in any of the following conditions that could cause malfunction:

- Extremely hot or cold places
- Under direct sunlight
- Magnetic fields
- Near heaters and other heat sources
- Sandy or dusty places
- Places that are extremely humid or exposed to splashing water

- Places with lots of vibrations

Electrical Interference

Devices that are very susceptible to interference or that emits powerful electromagnetic waves (e.g. radios and TVs) should not be placed near this unit, as interference could occur.

Electromagnetic interference could cause malfunction and could corrupt or destroy data.

Always operate this unit at a suitable distance from these devices.

Handling

Do not apply excessive force to the switches and other controls, exposing the unit to strong impacts, which could cause it to break.

Do not put foreign objects or liquids into the unit.

Never open the case or attempt to modify the product in any way since this can result in damage to the unit.

Clean only with a soft, dry cloth.

Overview

● Classic delay sound

Featuring a pure analog design, the Yellow Fall pedal delivers the smooth, warm delay tones found on all the best jazz, rock, and pop albums created.

● Easy, flexible controls

Yellow Fall offers easy in/out and a big TIME knob to adjust your echo time on the fly.

● Carefully selected components

The Yellow Fall pedal was designed and manufactured with quality components to ensure exceptional sound and sturdy performance. The aluminum alloy casing ensures touring reliability, and the True Bypass circuitry gives you a transparent tone.

Features

- Convenient compact size
- True Bypass
- Rich, clear, natural analog delay
- Three knob configuration for flexible sound character
- Reliable aluminum alloy casing

Specifications

Power Requirement: 9V DC center negative

Current Consumption: 36mA

Dimensions: 42x93.5x52mm

Weight: 230g

Connections & Controls

A DC 9V Jack:

For power supply, use a 9-volt DC regulated by AC adapter, 500mA (plug polarity is positive on the barrel and negative in the center).

B ECHO Knob:

Adjusts the delay level.

C F.BACK Knob:

Adjusts the amount of feedback (number of repeats).

D TIME Knob:

Adjusts the delay time from 20ms to 620ms.

E INPUT Jack:

1/4" mono audio jack, for connecting guitar.

F OUTPUT Jack:

1/4" mono audio jack, for connecting to an amplifier.

G Footswitch And The LED:

Tap to switch the unit on/off. The LED will lit up when the effect is on.
