INSTRUCTION
HANDLING
PRECAUTIONS**

If the microphone head is covered by hand or the microphone is approached to the speaker, a howling sound maybe generated this phenomenon of howling is caused by the microphone picking up the sound output from the speaker. To prevent this, first decrease the volume, then place the microphone so that it is not pointed to the speaker and that there is a sufficient distance between the microphone and speaker.

The microphone is a sensitive equipment, do not drop, hit it or apply shock to it;

Do not store the microphone in a place with high temperature or humidity.

**POINT FOR
PROPER USE OF
MICROPHONE**

The optimum distance between the microphone and mouth is from 5 to 10 centimeter. If the microphone is too close to the mouth, the sound may be unclear with too-much enhanced bass (proximity effect) or may be uncomfortable to ears with pop noise generated every time the singer breathes in and out.

**PLUGGING THE
CONNECTOR
IN/OUT**

To plug in : align the hollow part of the output connector on the microphone body with the projected part of the connector on the cord, and push in until a click sound is heard.

To plug out : while holding the tab on the cord connector depressed, pull it out of the connector on the microphone.

Basic qualification

This product meet the quantity request through the examinations. Grant to out factory.
