NORMAL CARE INSTRUCTIONS:

GENERAL CLEANING: Ordinary dirt, smudges and water-soluble stains such as coffee, tea, juice, soft drinks, milk, beer, and wine can be removed with mild soap and water. Use a clean cloth or soft sponge to gently wipe the stain with soapy water. Don't stop there – it's really important to remove any remaining soap solution by wiping the area with a cloth and clean water, and finally to dry the surface with a soft lint-free cloth or towel. Avoid cleaners containing abrasives, as these can damage the product's coating. A 10:1 ratio of water to bleach solution may be used as a disinfectant. Rinse the surface with clean water after disinfecting. Dry with a soft, lint-free cloth or towel.

LebaTex recommends the end use of a product as specified on the spec sheet only. It is the customer's responsibility to determine code compliance if a product is to be used in a way other than its recommended end use. If a product is ultimately selected and installed in an application that it was not intended for, all liability falls to the customer.
