

VAUGHAN 9732-0-VAU

COLORWAYS

Base Cloth for print

DESCRIPTION

A smooth vinyl

END USE

Upholstery

WIDTH

54" Wide

REPEAT

N/A

WEIGHT

18.9 ounces per square yard

CONTENT

Surface: 100% PVC ; Backing: 100% Polyester

FLAME RESISTANCE

PASSES: NFPA 260, Cal 117-2013, ASTM E-84 Class C

FINISH

ArmorFlex®

ABRASION

ASTM D4157 Wyzenbeek - 50,000 Double Rubs

COLORFASTNESS TO CROCKING

AATCC 8 - Wet: Class 5 / Dry: Class 5

ENVIRONMENTAL

Phthalate Free

COUNTRY OF ORIGIN

USA

NORMAL CARE INSTRUCTIONS

Be certain to clean up spills as soon as possible. Routine cleaning with a clean cloth rag or a damp sponge using mild soap and water will safely wipe away water-soluble spills. If wiping with a wet solution, finish with a dry cloth to remove any residual soap residue that may dull the surface. To disinfect and sanitize, use a 10% bleach/water solution. Other popular disinfectants, including wipes and sprays such as Clorox® wipes, Lysol® wipes, or sprays such as 409 may be used, but these chemicals should be rinsed with water and a moist cloth to remove residue left from these products. These cleaning products may degrade the life of any upholstery material and may void any warranty. For longer life, sanitizing with the bleach/water mixture is the recommended method.

INK AND STAIN ISSUES

Stubborn stains, such as ballpoint pen ink, may be cleaned by wiping the area as soon as possible with isopropyl alcohol. We cannot guarantee that ArmorFlex® will resist intentional damage, including contact with indelible inks. In addition, lighter-colored materials may be subjected to the transfer of dyes from clothing rubbing on seating surfaces. Controlling this dye transfer may be more common under certain temperature and humidity environments and could be problematic. The resulting transfer damage may be permanent.

All fabric subject to dye lot variations

LebaTex recommends the end use of a product as specified on the spec sheet only. It is the customer's responsibility to determine code compliance if a product is to be used in a way other than its recommended end use. If a product is ultimately selected and installed in an application that it was not intended for, all liability falls to the customer.
