

CARB restricted Items

Notice to all California Dealers:

The California Air Resource Board (CARB) has restricted Custom Chrome and its Vendors from sales and shipping of the following items to California residents. In efforts to keep our Dealers educated and in compliance this list will be updated regularly. Manufacturers have worked to increase the offerings of CARB compliant products for CA Dealers and they are available in 2015 catalog.

This document will also list any item that cannot ship or sell to the state of California, non CARB related. Web Orders: The CCI-Dealer website does not allow restrictions of this matter. Web orders containing these items being shipped to CA, will be removed by Custom Chrome before shipping. Free freight levels are applied to shippable orders only.
