Component Information

Please describe issue with component. If upgrade or any add-ons are desired, please list here.

Disclaimer and Signature

By signing this form, the customer whose name appears above authorizes Turn One, Inc. to perform the rebuilding service required to meet the customer's needs as described above on the power steering component(s) included with this form. To properly rebuild the power steering component(s) some internal components may need to be repaired or replaced. If repairing or replacing is required, the customer authorizes Turn One, Inc. to make the necessary repairs up to \$50 above the starting price of the rebuild. Any amount above this point, Turn One, Inc. will contact the customer to get prior approval before proceeding. Turn One, Inc. accepts no responsibility for items attached to the power steering component(s) included with this form (i.e. pulleys, brackets, hoses, pitman arms, etc.) If said items, or anything of the like, are included with the component(s) Turn One, Inc. will assess a fee of \$25 per item to remove. Turn One, Inc. is not responsible for reinstallation of said items. Turn One, Inc. accepts no responsibility if an item is damaged during removal. Once rebuild is completed, Turn One, Inc. will contact customer for payment and return shipping information.
