# HELMET FITTING GUIDE

**Riddell**  
PROTECT AND PERFORM

- Wrap a cloth measuring tape around the circumference of head
- Measure with tape approximately 1" above the player's eyebrows
- Record measurement
- Use the Riddell® circumference chart below to select proper helmet size
  - If measurement falls between helmet sizes, choose the smaller size

- |   |   |
|---|---|
| <b>PUTTING ON HELMET:</b>   | <b>TAKING OFF HELMET:</b>   |
| <ul style="list-style-type: none"> <li>• Hold helmet with thumbs over bottom of jaw pads</li> <li>• Place index fingers into ear holes</li> <li>• Place index fingers into ear holes</li> <li>• Pull helmet down into position</li> </ul> | <ul style="list-style-type: none"> <li>• Loosen lower chin straps</li> <li>• Place index fingers into ear holes</li> <li>• Press thumbs into bottom of jaw pads</li> <li>• Lift helmet up and off the head</li> </ul> |

- Adjust inflatable pads using a Riddell inflation bulb and a well-lubricated Riddell inflation needle
  - Insert needle
  - Pump Riddell inflation bulb to achieve proper height
  - Remove needle
  - Front of helmet should be approximately 1" above the player's eyebrows (see **HELMET POSITION** diagram below for reference)
- \* Use glycerin to lubricate needle

- Inflate for snug, comfortable fit front-to-back and side-to-side

\* Use glycerin to lubricate needle

- Jaw pads should feel firm against the face
- Insert needle into valve at exterior jaw flap
- Inflate jaw pad
- If non-inflatable jaw pads feel loose, change to a thicker size
- If non-inflatable jaw pads feel tight, change to a thinner size

\* Use glycerin to lubricate needle

- The skin of the forehead should move with the front pad
  - There should be no room for twisting
- If helmet slides easily over the forehead, inflate helmet liners or try a smaller helmet
- Ensure a proper fit:
  - Interlock hands on top of helmet and press down
  - Player should feel pressure on crown of head, not brow
  - Pressure on brow indicates improper fit
  - Front of helmet should be approximately 1" above the eyebrows
- To avoid injury or discomfort, never wear a helmet positioned too high or too low

### TO ADJUST CHIN STRAPS:

- The player should hold the chin cup in place against the chin
  - Cup should be centered and snug over chin
  - Adjust chin straps until cup is firmly pressed against chin
- When secured, helmet should feel comfortable and snug
