RETENTION CABLE INSTALLATION

This view is to orient yourself to the vehicle, the DECKED System installed using the installation procedures that came with your system, and how the van cables should appear when the cable installation process is complete.
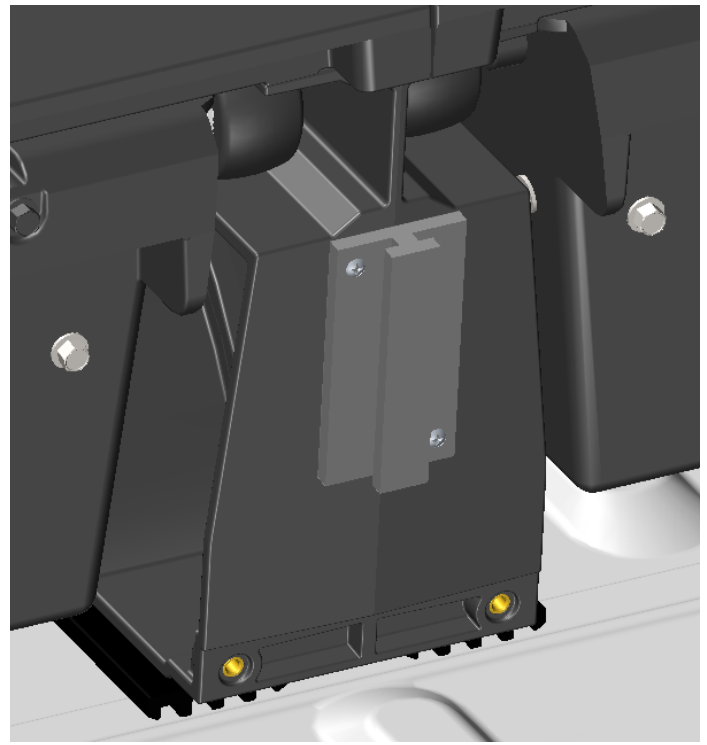

RETENTION CABLE INSTALLATION

See cable installation step #1

See cable installation step #2

See cable installation step #3

RETENTION CABLE INSTALLATION

Cable Installation – Step #1 –

- Center cable standoff to center vert and align top edge of standoff to bottom of drawer wheel channel.
- Run two #8 self-tapping screws, diagonally oriented as shown in image below, thru cable standoff and into center vert; BAG **VAN CABLE KIT**.

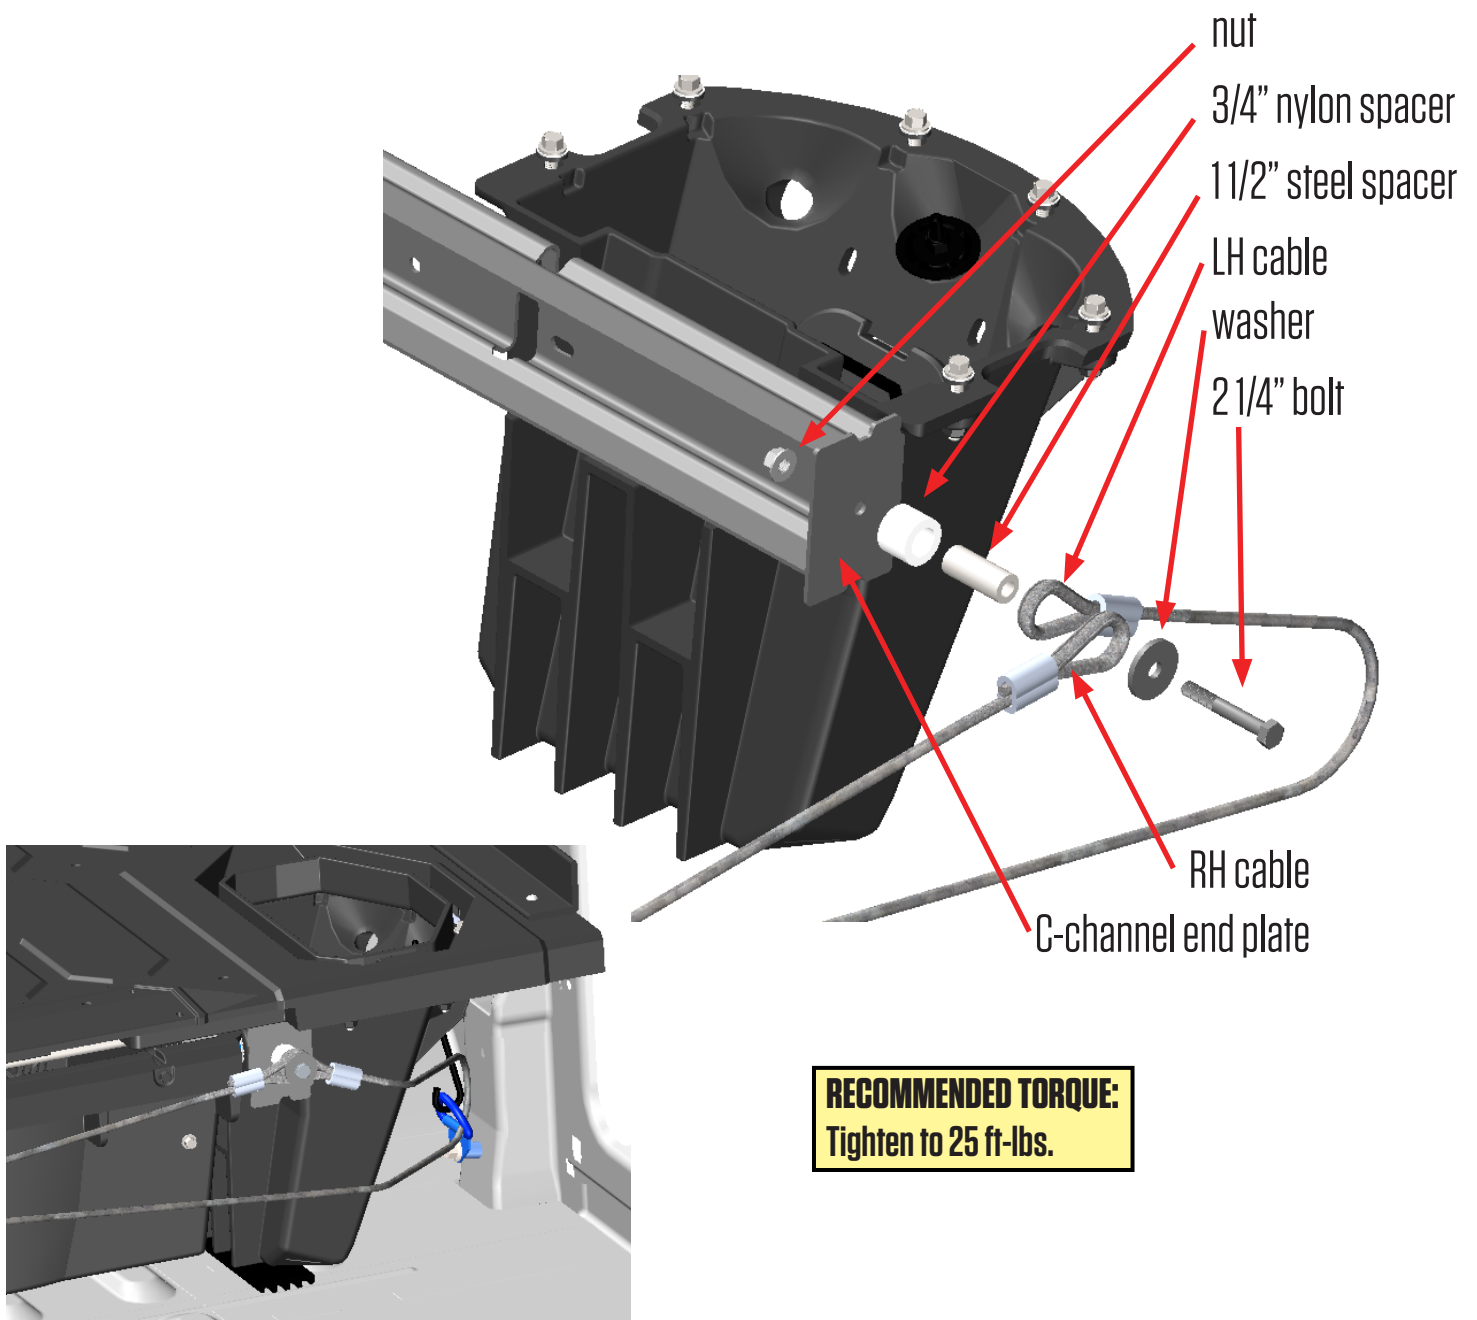

cable standoff

#8 self tapping screws
RETENTION CABLE INSTALLATION

Cable Installation – Step #2 –

- Starting on the driver side of the vehicle, loop LH cable eye thru cargo tie down ring (shown in blue in assembled view) on the cabside of the J-hook; BAG **VAN CABLE KIT**.
- Assemble LH and RH cable ends in the order depicted in the exploded view image, i.e. bolt thru washer, then thru RH cable eye and then LH cable eye, then thru 1 1/2" steel spacer and the thru 3/4" nylon spacer, thru hole in C-channel end plate and into nut; BAG **VAN CABLE KIT**.

nut

3/4" nylon spacer

1 1/2" steel spacer

LH cable

washer

2 1/4" bolt

RH cable

C-channel end plate

RECOMMENDED TORQUE:
Tighten to 25 ft-lbs.
RETENTION CABLE INSTALLATION

Enlargement of LH cable assembly attachment to cargo tie down loop.

RETENTION CABLE INSTALLATION

Cable Installation – Step #3 –

- On the passenger side of the vehicle, loop RH cable eye thru cargo tie down ring (shown in blue in assembled view) on the cabside of the J-hook; BAG **VAN CABLE KIT**.
- Assemble LH and RH cable ends in the order depicted in the exploded view image, i.e. bolt thru washer, then thru LH cable eye and then RH cable eye, then thru 11/2" steel spacer, thru nylon spacer, thru hole in C-channel end plate and into nut; BAG **VAN CABLE KIT**.

nut

3/4" nylon spacer

11/2" steel spacer

RH cable

washer

2 1/4" bolt

LH cable

C-channel end plate

RECOMMENDED TORQUE:
Tighten to 25 ft-lbs.
