Dot & Lil

A NOTE FROM OUR FOUNDER ANNE

Dot & Lil started in 2008 as a project with my sister. We started by making soaps and lip balms and selling them at local events. My sister soon left to pursue adventures in California, but I was obsessed with the world of fragrances and decided to take the leap of building our little project into something bigger.

Dot & Lil line has always been inspired by the beauty of tradition and the special world of flowers. Now celebrating our 15th year, our products are still made by hand, now by our Dot & Lil team of 15 people in our Montréal atelier. Our line is now successfully carried by over 500 fine retailers across North America. We love making beautiful things for you and we can't wait to see what the future will hold for our little team!

xoxo, Anne + the Dot & Lil team

Fragrance Glossary

Peony & Olive Leaf

The classic queen of all flowers! A blend of soft pink petals and elegant musk with lush fruit top notes. A clean and feminine spring scent with a hint of fresh green olive leaves carried on a warm breeze.

Lavender & Hibiscus

This classic essential oil scent is fresh and herbal, straight from a garden flower bed! Soothing and relaxing.

White Tea & Ginger

A comforting blend of fresh ginger heart notes with a warm tea base. A soft, almost woody scent with a touch of sparkling fresh ginger.

Eucalyptus & Lime

A breath of fresh air. Fresh and clean with citrus notes and a twist of crisp rind. The deep camphorous and menthol notes of eucalyptus are balanced by the lightness of the fresh lime.

Honeysuckle

A walk in the garden on a hot summer day, with sweet flower nectar notes and warm leaves and grass underfoot. Our Honeysuckle is a fresh, sweet ozone smell with lots of green stem undertones.

Rice Flower

Sweet, fresh and soft with a hint of ozone. Light and delicate, with a base of subtle, creamy vanilla and coconut. What are rice flowers? Small perfumed buds that grow on the Aglaia Odorata, or Chinese Perfume Tree.

Mimosa Blossom & Nectarine

The dreamy warm scent of mimosa flowers in bloom, mixed with luscious nectarine. Delicate notes of honey and fresh water underly this elegant fruity fragrance that transports you to springtime in the south of France.

Lilac Flower

True to a real lilac, not overpowering or powdery but fresh and crisp. Smells exactly like the flower that blooms for all too brief a time each spring!

Bergamot

A very special scent that combines herbal base notes with spicy citrus top notes. Bergamot is best known as the main flavouring of Earl Grey tea. Smells like a hot cup of lemony tea on a rainy day.

Fresh Fir

A perfect cozy holiday fragrance or a fresh, green and woody scent for the rest of the year. Smells exactly like a Christmas tree or a mountain forest!
