CHLORHEXIDINE MOUTHWASH (270ML)

🌐 www.beaconshealth.com
✉ beaconshealth@beacons.com.sg

Keeps bad breath away

What Does This Product Contain?

Chlorhexidine Gluconate 0.2% w/v,
Glycerin 2.5% w/w,
Peppermint Oil 0.05% w/w.

What Is This Product For?

Chlorhexidine mouthwash helps to soothe and relieve painful mouth and throat conditions such as ulcer, sore gums, sore throat and fight against bacteria that cause tooth decay. The refreshing mint formula keeps bad breath away.

How Should I Use This Product?

Use 15ml of the mouthwash to gargle or rinse mouth for about 30 seconds. Spit out the solution after use; do not swallow the mouthwash. Use every morning and night after meals or as directed by your doctor.

What Should I Avoid When Using This Product?

Do not dilute or swallow. Prolonged use of Chlorhexidine Mouthwash may cause teeth staining. These stains can be removed by visiting your dentist.

When Should I Stop This Product And Consult A Doctor?

It is recommended to visit your dentist every six months to maintain your oral hygiene.

How Should I Store This Product?

Store in a cool, dry place away from direct sunlight.
