2010 Honda CRF250R

Stainless Steel Full Exhaust System with M-7 Canister
Part # 005-2660106V / 005-2660107V

Parts List

Qty.	Description	Part Number
1	Muffler Canister M-7 Aluminum	Varies
1	Header	005-26601H
1	Stainless Steel Slip On Tube	005-26604S
1	HARDWARE KIT	005-266-3
2	X-Ring (half)	005-7-2-3
4	M6 Split Lock Washer	005-VL6
4	6x20mm Socket Head Cap Screw	005-SH620
1	5mm Long Handle Ball end hex key	005-9-18610
1	T20Torx Screw hex key	005-9-15820
1	TBR Sticker Kit	005-10212

IMPORTANT - PLEASE READ CAREFULLY

We recommend that this performance part be installed by a qualified motorcycle technician. If you have any doubts as to your ability to install this performance part, please consult with your local motorcycle dealer. Read all instructions first before starting installation. Be sure to save all stock components for possible use later.

This product was designed for use with no aftermarket or O.E.M. accessories installed. Any modifications or installation of aftermarket accessories may cause excessive heat and could result in the damage of the vehicle. Two Brothers Racing will not be responsible for damaged parts due to heat related issues.

Installation Instructions

1. Make sure the bike is completely cool before starting the installation. Make sure the bike is secure on a centerstand or ideally a service lift.

2. Remove right side panel.

3. Remove lower OEM muffler mounting bolt. Retain for use.

4. Remove upper OEM muffler mounting bolt. Retain for use.

5. Remove OEM muffler assembly. Remove OEM header, save header nuts for later use.

6. Use the 4 (four) 6x20mm Socket Head Cap Screws and split lock washers to loosely join the slip-tube to the muffler canister. Do not tighten yet.

7. Install TBR header using OEM nuts.

8. Insert slip tube of V.A.L.E.™ muffler assembly into TBR head pipe. Loosely install hanger bracket OEM bolt and OEM slip-tube bolt.

9. Securely tighten the 4 (four) 6x20mm hex head bolts of the V.A.L.E.™ assembly.

10. Using the OEM bolts, secure muffler assembly mid-pipe and hanger bracket bolts. Tighten securely.

11. Reinstall side panel with original hardware.

12. Double check to make sure that all hardware is tightened

13. Before you run the bike, clean off all fingerprints and dirt, as any oily residue will etch the metal and become somewhat permanent when the system gets hot. Also, remove any plastic film from the name badge(s). Run the bike and enjoy. It is normal for some white smoke to appear the first time you start the bike. This is packing/manufacturing oil from inside the pipe burning off. Check for gaps or leaks. If you find a leak, a little high temperature silicon sealant should fix it. After 50 to 100 miles, recheck all fasteners for tightness.

Care & Cleaning / Warranty

Care & Cleaning

Keep system free of dirt and moisture. Store in a cool, dry place. For cleaning use a mild spray cleaner. Always apply cleaner or polish with a soft, clean cloth.

Stainless Header System: Polished stainless steel pipes will turn a light golden hue after a few heat cycles, this is a normal characteristic of high quality stainless steel.

Carbon Fiber Mufflers: Always make sure the fiberglass packing inside is in good condition and not burned out, as exhaust heat inside an empty canister will deteriorate the Carbon Fiber sleeve. TBR sells repack kits (TBR part # 005-10038) that include new rivets and repack material as well as a drill bit (#30), making it easy to do yourself. Also, NEVER dyno test your bike with carbon fiber mufflers installed - the intense heat and lack of cooling air can quickly cause the CF material to burn. Two Brothers Racing does not provide a warranty for burned carbon fiber.

Aluminum Mufflers: Use an aluminum or mag wheel polish such as Mother's to restore the bright finish to factory spec.

Warranty

Two Brothers Racing products are intended for closed course competition purposes only, and therefore are sold "as is" without warranty. Two Brothers Racing specifically disclaims any warranties of merchantability or fitness for a particular purpose and disclaims all responsibility for consequential and incidental damages or any other losses arising from the use of these products or parts.
