

# S2 PRO REARSTAND

## S2 REARSTAND

The premium construction of CNC machined aluminum remains untouched as the solid base of the stand. The arm of the stand has been adjusted to allow increased clearance to the wheel, while the pivot point has been moved to ensure easy use. The wheel size has also been updated, yet the S2 Pro Stand remains lightweight and compact for easy transport and storage. The stand is available in black/silver, a color combination that puts all focus on the fierce machine it's holding.

- » CNC machined aluminum frame construction
- » Lightweight and compact for easy transport and storage
- » CNC mandrel bent stainless steel handle
- » Engineered fulcrum point for easy lift
- » Polyurethane wheels with precision roller bearings
- » Solid stance under weight
- » Fits most spool type motorcycles
- » Made in the USA
