4	8MM X 20MM ALUMINUM BOLTS (GOLD)	N/A

IMPORTANT - PLEASE READ CAREFULLY

We recommend that this performance part be installed by a qualified motorcycle technician. If you have any doubts as to your ability to install this performance part, please consult with your local motorcycle dealer. Read all instructions first before starting installation. Make sure the motorcycle and exhaust system are completely cool before starting the installation. Also, make sure the bike is secure on the sidestand or ideally a rear service stand during installation. Be sure to save all stock components for possible use later.

Warranty

Two Brothers Racing products are intended for closed course competition purposes only, and therefore are sold "as is" without warranty. Two Brothers Racing specifically disclaims any warranties of merchantability or fitness for a particular purpose and disclaims all responsibility for consequential and incidental damages or any other losses arising from the use of these products or parts.

Installation Instructions

1. Make sure the bike is completely cool before starting the installation. Make sure the bike is secure on the sidestand or ideally a rear service stand.
2. Remove the 2 bolts holding the upper tappet cover onto the engine. Remove stock tappet cover from engine. Remove o-ring from stock tappet cover, wipe clean and install into new tappet cover.
3. Repeat step 2 for lower tappet cover. Please note that some oil will drip from the engine when the lower tappet cover is removed.
4. Wipe the o-ring seating area on the engine clean. Reinstall the tappet covers (upper and lower). Grease the threads of the bolts and torque to 84 in-lbs.
