RONDA startech – Movement cal. Z60 & Z50
User’s Manual English

You have decided to buy a watch, which was assembled by a watchmaker using a Ronda movement. Please note that no watches are produced or distributed under the Ronda brand.

In case of repairs, guarantee claims and questions concerning the functioning of a watch, purchasers and consumers should contact their retailer or the watch manufacturer, for which the relevant information can be found in the sales or guarantee documentation provided with the watch.

**Description of the display and control buttons**

**Setting the time**

1. Pull out the crown to position III (the watch stops).
2. Turn the crown until you reach the correct time B–B.
3. Push the crown back into position I.

**Please note:**
- In order to set the time to the exact second, the crown must be pulled out when the second hand is in position «60».
- Once the hour and minute hands have been set, B must be pushed back into position I at the exact second.

**Setting the date (quick mode)**

1. Pull out the crown to position B (the watch continues to run).
2. Turn the crown anticlockwise until the correct date appears.
3. Push the crown back into position I.

**Please note:**
- During the date changing phases between approx. 03:00 PM and 12:00 PM, the date must be set to the date of the following day.

**Setting the day, day of the week (Z60) and time**

Example:
- Date / time on the watch: 01:25:59 MON
- Present date / time: 02:05:19 TUE

1. Pull out the crown to position III (the watch stops).
2. Turn the crown anticlockwise until yesterday’s day of the week WED appears.
3. Push the crown to position III.
4. Turn the crown until yesterday’s date appears.

**Please note:**
- To set your watch to the exact second, please refer to this chapter entitled “Setting the time”.
- Please observe the AM/PM clock rhythm.

**Chronograph: Basic function**

Example:
- Start: Press push-button A.
- Stop: to stop the timing, press push-button A once more and read the chronograph counters: 00:00:00.
- Reset: The chronograph counters return to zero.
- Zero positioning: Press push-button B.

**Chronograph: Accumulated timing**

Example:
- Start: (start timing).
- Stop: (e.g. 15 min 38 sec following I).
- Reset: (timing is resumed).
- Stop: (e.g. 9 min 12 sec following II).

**Please note:**
- Following I, the accumulation of the timing can be continued by pressing push-button A.
- Reset: The chronograph hands are returned to their zero positions.

**Chronograph: Intermediate or interval timing**

Example:
- Start: (start timing).
- Display interval: e.g. 20 minutes 17 seconds (timing continues in the background).
- Making up the measured time: (the chronograph hands are quickly advanced to the ongoing measured time).
- Stop: (Final time is displayed).

**Please note:**
- Following III, further intervals or intermediate times can be displayed by pressing push-button A (display interval / make-up measured time).

**Adjusting the chronograph hands to zero position**

Example:
- One or several chronograph hands are not in their correct zero positions and have to be adjusted (e.g. following a battery change).

1. Pull out the crown to position III (all chronograph hands are in their correct or incorrect zero position).
2. Keep push-buttons A and B depressed simultaneously for at least 2 seconds (the second counter hand rotates by 360° — corrective mode is activated).

**Battery type:** 395 (diameter 5.5 mm x 2.6 mm) / 5R 927 SW

Accuracy: ±0.1 / ±0.2 seconds per month

03/2015
