"Our growth will have a significant impact on Liftow's presence in the forklift market. We plan on taking advantage of the respective strengths that exist to create overall improvement."

- Roger Sutton, President & CEO

2018 continued to be another year of growth for Liftow. After many years, our Head office/Toronto branch and our Brampton branch, now located in Vaughan, moved into new and larger homes to accommodate our growth. It was a challenging move, but with the efforts of the whole team it was a great success.

Also, Liftow's Instructional Services department, which has been providing material handling training to our customers for over 20 years, joined forces with LIFT Training. As a result, LIFT Training, previously a division of Lift Temp, is now a significant member of the Liftow Group of Companies. This partnership will reinforce our team and strengthen our commitment to provide exemplary training to our customers. As a result of this merger, several new exciting online and blended safety training programs will now be offered.

When Liftow first started in 1960, there were only a few working together as one team to best serve our customers. Over the years we have attempted to retain this entrepreneurial spirit by providing a consistent local quality of service through multiple branches and small local teams.

Our team, now in the neighbourhood of 700, operating out of 22 branches, remains committed to this original endeavour!

There's a reason we're #1

- Over 58 years servicing the material handling industry and supporting customers like you!
- We sell the #1 selling lift truck in the world – TOYOTA INDUSTRIAL EQUIPMENT
- Quality Used Toyota lift trucks – originally owned and maintained by Liftow
- Lift truck rentals – online rental request
- 24/7 service – ensures you peace of mind to keep you productive and profitable
- Toyota Quality OEM and aftermarket parts – online parts request
- Industry leaders in industrial safety training – wide range of training programs offered
- Comprehensive safety product catalogue – purchase online and shipped direct
- Racking system solutions
- All sales personnel carry mobile phones – fully accessible with voice mail and texting options, keeping you connected!
- Great service and quality at a fair market price
- We strive to meet and exceed the expectations of those we serve
- Full online access to all of our product offerings – www.liftow.com

Liftow Limited

Why choose Toyota?

As the manufacturer of the #1 selling lift truck in the world, Toyota has built a reputation of excellence on quality, reliability and durability. We offer a full line of high quality lift trucks that are designed to increase productivity and safety with a commitment to environment responsibility.

Toyota has been honoured numerous times for its dedication to continuous improvement and its commitment to safety and the environment. Whether it be Toyota's industry leading technology of the SAS (System of Active Stability) system, or Toyota's commitment to reducing its carbon footprint by reducing emissions on LPG, gasoline or CNG lift trucks by 70% of current standards or supporting a zero-landfill manufacturing facility, Toyota is a true leader in the material handling industry.

Here are some of Toyota's achievements:

- Ranked #1 for lowest cost of ownership (Independent study by Peerless Media Research Group)
- #1 in Quality and Value (Modern Materials Handling magazine)
- #1 Safest Lift Truck (Independent study by Peerless Media Research Group)
- #1 for Fewest Safety Related Incidents (Independent study by Peerless Media Research Group)
- Top 25 Green Supply Chain Partners (Inbound Logistics)
- Toyota is the first and only manufacturer to offer UL-listed, EPA and CARB certified Compressed Natural Gas (CNG) powered lift trucks
- SAS leading technology

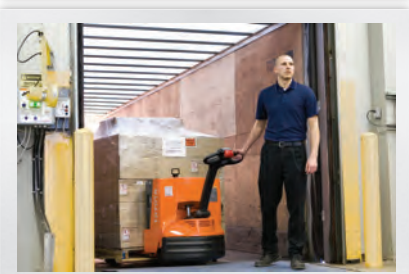

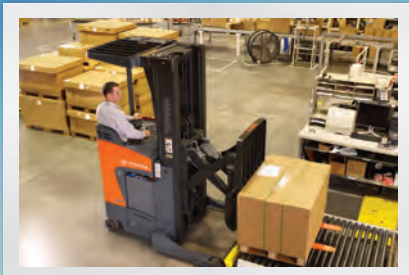

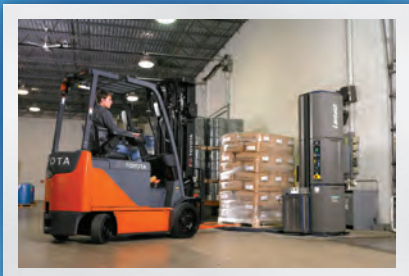

TOYOTA 8FBEU

3-Wheel Electric Lift Truck

8FBEU 3-Wheel Lift Truck
• 3,000 - 4,000 lbs. capacity

9BRU Single & Double Reach Truck
• 3,000 - 4,500 lbs. capacity

8HBW23 Walkie Pallet Truck
• 4,500 lbs. capacity

Toyota's Electric Lineup

Programmable drive systems and step-less acceleration make precision control a key advantage of Toyota lift trucks. Advanced transistors and heavy-gauge steel construction extend longevity.

8FBCU 4-Wheel Lift Truck
• 4,000 - 6,500 lbs. capacity

8BNCU Stand-Up Rider Truck
• 3,000 - 4,000 lbs. capacity

80V Core Electric Forklift
• 4,000 - 11,000 lbs. capacity

8BW Walkie Straddle Stacker
• 2,000 - 2,500 lbs. capacity

7BPUE15 Order Picker Truck
• 3,000 lbs. capacity

8HBW Electric Pallet Truck
• 6,000 and 8,000 lbs. capacity

8HBE End-Control Walkie/Rider
• 6,000 and 8,000 lbs. capacity

8HBC Center-Control Rider
• 6,000 and 8,000 lbs. capacity

8TB50 Tow Tractor
• 10,000 lbs. tow capacity

For more information, visit: www.liftow.com/toyota

Toyota Internal Combustion

Warehouse, distribution, manufacturing,

Cushion Tire Indoor Trucks

8FGCU Series

• 3,000 - 6,500 lbs. capacity

8FGCU-BCS Boxcar Special

• 8,000 - 12,000 lbs. capacity

8FGCU Large Capacity

• 8,000 - 15,500 lbs. capacity

Leading the industry in safety technology, no other lift truck offers a system comparable to Toyota's System of Active Stability.

Toyota's SAS electronically monitors and controls the lift truck's operations through patented technology to help reduce the risk of tip-overs.

SAS is composed of three systems:

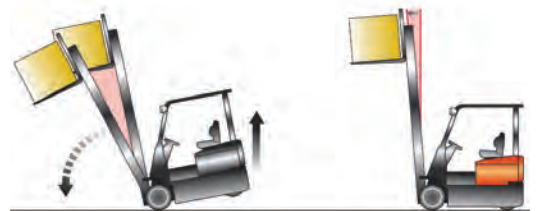

Active Control Rear Stabilizer:

When instability is detected, SAS instantly locks a hydraulic cylinder on the rear axle, changing the truck's stability footprint from triangular in shape to rectangular. This increases stability and reduces the likelihood of a lateral turnover.

Active Mast Function Controller:

Forward Tilt Angle Control limits forward tilt and Rear Tilt Speed Control governs rear tilt speed; both features decrease the risk of spilling a load and reduce the chances of forward or rearward tip-over.

Automatic Fork Levelling:

Positions the forks horizontally to the floor with the push of a button on the tilt lever, allowing safer and easier load handling.

Engine Lift Trucks

lumber and brickyard.

Pneumatic Tire Outdoor Trucks

8FGU/8FDU Series
• 3,000 - 6,500 lbs. capacity

8FGU/8FDU Series
• 8,000 - 11,000 lbs. capacity

8FGU/8FDU Large Capacity
• 13,500 - 17,500 lbs. capacity

THD Series - Heavy Duty
• 15,000 to 250,000 lbs. capacity

Plug it in or fuel it up?

It's a question that all lift truck buyers face when choosing between an electric lift truck or internal combustion engine truck. It's true that each one performs the same function (moving or lifting materials) but remember, the way each lift truck does this and what they are capable of doing depends upon the power source.

Contact your local Liftow Forklift Specialist to help answer any questions you may have!

WHAT IS T-MATICS?

T-Matics is a fleet management tool that utilizes a Vehicle Management System (VMS) to track and report operating behavior of a forklift and/or a forklift operator.

WHAT IS A VMS?

A VMS is a system that facilitates the transfer of operating data from a forklift to individuals via standard or customized reports.

WHAT MAKES TOYOTA T-MATICS DIFFERENT?

T-Matics MOBILE is the only individual forklift-based cellular telematics solution currently on the market with a full-featured set of monitoring and analytic capabilities. T-Matics MOBILE is capable of generating reports on individual forklifts or entire fleets. T-Matics COMMAND is powered by I.D. Systems, Inc. which, for more than 15 years, has successfully deployed wireless asset management technology to the world's leading manufacturers, distributors, retailers, airlines, and government agencies.

TOYOTA 80V

TOYOTA 80 Volt Indoor/Outdoor Electric Pneumatic Forklift

- 4,000-11,000 lb. lifting capacity
- Tough enough for construction sites - brick, block and pipe, concrete, oil and gas

▶ **SYSTEM OF ACTIVE STABILITY**

acts automatically in uncertain situations to protect operator, and reduce product and forklift damage

▶ **EXCELLENT OVERHEAD GUARD**

VISIBILITY even with optional cab; wide-view mast options available

▶ **SUPERIOR OPERATOR COMFORT**

thanks to large entry/exit with six cab options

▶ **TWICE THE RUN TIME** of 36V or 48V competitors

▶ **EXTREME VERSATILITY**

for a broad spectrum of applications, with capacity and power of IC plus clean emissions of an electric

▶ **MULTIPLE MAST OPTIONS**

available to suit your application

▶ **WIDE RANGE OF OPTIONS**

gives you more than 65 options and countless configurations to build the perfect forklift for your application

▶ **EXTRA DURABLE**

IC-strength, tough truck body with no plastic parts

▶ **EASILY PROGRAMMABLE**

to fit user preferences and aid serviceability

▶ **LIFT/LOWER SPEED CONTROL**

automatically slows mast as it comes into free lift and dramatically slows forks near ground to reduce damage and wear

Toyota's large capacity forklifts. Big jobs. Big trucks. Big results.

THDE Sit Down Electric
30,000 - 80,000 lb. lifting capacity

THDC Sit Down Cushion
18,000 - 110,000 lb. lifting capacity

THD Sit Down Pneumatic
15,000 to 250,000 lb. lifting capacity

THD Sit Down Container Handlers
80,000 to 90,000 lb. lifting capacity

Toyota quality, reliability and safety... certified!

Components we inspect and repair:

- Mast assembly
- Powertrain
- Hydraulic system
- Steering column and steer axle
- Brakes and tires
- Overall physical condition

Why choose Liftow Certified Used Forklifts?

- All-inclusive lifting device inspection and emissions certification*
- Complete inspection and repair program on reconditioned units
- All work completed by Toyota factory trained technicians
- Industry leading comprehensive warranties
- Financing and leasing options available
- 18 full service locations
- Genuine Toyota parts

* where applicable by law

How to select a good used lift truck:

Liftow

- Dealer's reputation
- Check its mechanical condition
- Check for safety requirements
- Check the serial number
- Check references

Most units have been maintained by Liftow their entire service life.

Check out our used truck inventory!

Purchase Original Toyota Parts for your Toyota Forklift to Maintain Ultimate Performance!

Why choose Liftow's Parts Department?

- We are the largest Toyota forklift dealer in North America
- Experienced and qualified parts staff
- Quick and accurate parts identification via electronics parts catalogue
- Overnight emergency air orders upon request
- Toyota orders processed at two order points daily
- Parts and attachments available for all major brands of forklifts and other material handling equipment
- Wide range of allied products such as dock boards, rolling ladders, pallet trucks and four-wheel carts
- Mobile tire service - supply and install tires at customer location
- ***Parts for ALL makes and models!***

Order your forklift parts online! www.liftow.com/parts

2017 Toyota Master Technician Platinum Winner,
Richard Ghisyawan of our Toronto branch.

Who Better to Service Your Toyota Equipment Than Your Local Toyota Dealer!

- Toyota Factory Trained & Certified Technicians
- **200+** Technicians on staff
- **150+** Fleet of Service Vans, Fully Stock with Parts
- **16** Local Service Branches across Ontario, Quebec and Atlantic Canada
- 24 Hour Emergency Service
- Repairs to All Makes and Models

PROGRAMMED MAINTENANCE AND INSPECTIONS

Reduce downtime and increase productivity by utilizing one of our Programmed Maintenance plans. Regular professional dealer supplied maintenance will enhance your equipment's reliability, reduce your overall cost of ownership and maximize its residual value.

- Lifting Device Inspections and Certifications
- Emissions Testing
- Fixed Rate Maintenance plans (customer owned, leased or rented trucks)
- On-site service and major shop facilities available
- Battery/Charger maintenance and repairs
- Customized maintenance plans based on customer's unique needs and environment
- The only Toyota Factory authorized warranty provider in the area
- Authorized warranty provider for most forklift attachment manufacturers

Visit us online! www.liftow.com/service

For 30 years Liftow has been servicing batteries for our customers in Ontario.

Today's battery powered forklifts run faster, harder and hotter. Battery manufacturers mandate that warranty coverage is dependent on proof of quarterly PM's and interface module downloads for opportunity and fast charge applications. Regular inspections of watering system components, analysis of charging compliance and cleaning of battery surfaces are imperative to long term trouble free battery and charger life.

- Factory trained and ESA certified battery technicians
- Fleet Watering
- Programmed Maintenance
- Cable/Cell Replacement,
- Acid Balancing
- Battery Rebuilding

Liftow provides our customers with another one stop service offering!

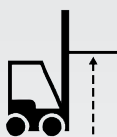

Your perfect warehouse is one with the functionality to meet your current needs and the adaptability to accommodate your future needs.

Let Liftow help you design it! Here are some things to consider:

📍 LOCATION - This is your first big decision. And here's the key consideration in making it: What's the objective of your warehouse? It might be to facilitate the shortest leadtimes possible. To improve your current logistics. Or another objective altogether. Whatever your objective, it should inform your decision.

📏 SPACE PLANNING - Measure first. Build to fit!

▶ Ceiling Height

The clear ceiling height determines how high

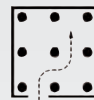

your materials can be lifted. This measurement should take into account the lowest ceiling-mounted components - sprinklers, lighting, HVAC system, etc. Forklifts should also be reviewed for lifting height to ensure they can safely reach the highest racking when loading or unloading materials. Many localities regulate ceiling and racking height. Check local regulations before proceeding.

▶ Aisle Width

Determine aisle width based on the type of

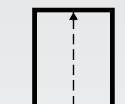

forklifts you plan to use in your warehouse. A forklift should pass easily through the aisle without making contact with racking or stored materials. Aisle dimensions are measured load to load to accommodate pallet overhang, but should also consider the forklift's right angle stacking position. A 10' rack-to-rack space may really be 9.5' when measured load-to-load. Overhang is approximately 3" for each side of the pallet.

▶ Column Spacing

Structural columns in your warehouse - if you have

them - will dictate your racking design and aisle widths. In some instances, storage is lost if pallet positions are blocked by columns. Designing around columns and the flow of materials requires you to reconsider your warehouse layout, even if the setup has been in place for years. Flipping the racking (e.g., vertical to horizontal) can hide columns within the racking, exposing more of the warehouse floor. If you use electric forklifts, you'll need to factor in where to house chargers. They're commonly found within racking, along a wall or in a separate battery charger room.

▶ Easy Access

Don't overlook building details that require easy

access. This includes electrical panels and water shut-off valves. Lowest-door height is also a major consideration. To ensure your building is up to code, work with a local contractor to review regulations.

Toyota Commercial Finance is a leading provider of financial services offering an extensive line of financing plans with competitive terms to Canadian Toyota customers through participating Toyota Dealers. Since 2003 we have offered simple, proactive financing solutions to make it easy for customers to acquire Toyota industrial Equipment and easy for Dealers to market the products. Through our North American Dealer network we develop programs that let our customers focus on operations rather than financing. Our offerings include:

- Trac lease
- Long term rental and operating lease
- Master lease
- Credit lines
- Full service maintenance
- Flex term or seasonal lease

As part of the Toyota family of companies, Toyota Commercial Finance offers our customers a clear advantage in understanding the asset they are using to grow and sustain their business and in understanding the need for flexibility throughout the customer's business lifecycle. We do this by providing fast, efficient and competitive financing to obtain the material handling equipment they need.

Save time, money and increase productivity

Carton Clamp

Designed for the warehousing, beverage, appliance and electronics industries. Carton clamps allow palletless handling.

Paper Roll Clamp

Cascade offers a full line of paper roll clamps and roll clamp damage reduction options to handle paper rolls regardless of diameter, weight or type of paper.

Push/Pull

Allow you to ship, receive and warehouse unit loads on inexpensive slip sheets rather than pallets.

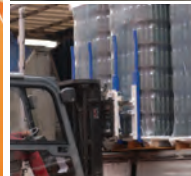

Bale Clamp

Palletless handling of nearly any type of baled product such as cotton, wool, synthetic textiles bales, corrugated boards or newsprint.

Fork Positioner

The ability to position the forks from the driver's seat, rather than getting off the truck, saves time and reduces product and pallet damage.

Single-Double Pallet handler

Designed for the bottling, brewing, production or warehouse/shipping industries. You can handle a single pallet, or spread the forks hydraulically to lift, carry and sideload multiple pallets side by side.

Layer Picker

Beverage warehouses and distribution facilities can benefit from the speed and versatility the Layer Picker offers. Replace costly manual labor with the versatile Cascade Layer Picker.

Rotator

Rotators add 360° revolving motion, in both directions, to truck forks. Used in food processing and manufacturing for inverting and dumping loads.

These machines are engineered to be durable and easy to use. They are loaded with features to tackle your unique tasks and keep your people and equipment working harder, longer. Their thoughtful engineering and versatility make these scissor lifts dependable solutions for access challenges in your facilities.

AC DRIVE MOTOR

- ▶ **ZERO DEGREE INSIDE TURNING RADIUS**
Tight turning makes operating the scissor lift intuitive and easy.
- ▶ **PLATFORM EXTENSION**
Additional platform length allows operators to reach across fixed objects for greater accessibility and flexibility in completion of work.
- ▶ **TILT ALARM**
Alarm alerts operators to unsafe working conditions and limits platform movement until proper operation is restored.

ANTI-ROLLBACK FUNCTION

- ▶ **FOLD-DOWN GUARDRAILS**
Folding guardrails allow larger scissor lifts to pass through doorways and other low obstacles. Easy to use function utilizes snap-lock polls for simple manipulation by operators. (Option on SV1930E model)
- ▶ **DUAL OPERATIONAL MODES**
Available on the SV2632 and SV3246 models, high capacity mode provides increased platform capacity at lower heights for flexible use of the scissor lift in multiple work settings.
- ▶ **UPPER CONTROL BOX**
Upper platform control box offers two mounting positions or remote use when operator is off of the scissor lift. Horn, battery discharge, tilt alarm indicators ensure easy operator use.

UNIQUE SOLUTIONS FOR UNIQUE CHALLENGES.

With five models offering working height from 25 feet up to 38 feet.

A DIVISION OF LIFTOW

Welcome to the new era of forklift training

LIFT Training is reinventing the forklift training industry. By making it more accountable, accessible, effective and efficient. By refusing to compromise on quality for the sake of convenience. And by introducing a consistent standard of excellence that guarantees all operators receive the training they need to ensure a safe workplace.

We understand how important it is to do this job right. Anything less could risk the health and safety of operators and employees all over Canada and the world.

That's why we don't take shortcuts and we don't cut corners. If it takes longer or requires more effort to do the right thing, then that's what we do. We climb the walls others go around.

It takes a lot of work, unrelenting passion and bull-headed determination to change an industry. We have that. That's why we are the knowledge leaders, technological pioneers, and recognized authorities throughout the business. And that's why we are, and will remain, so many miles ahead of everyone in the business.

ONLINE COURSES

WHAT'S INCLUDED

- Access your courses anytime, anywhere, with a computer, tablet or smartphone
- Videos, quizzes and interactive content designed for a proven learning experience
- Unlimited access. Take your courses at your time and pace

Forklift Theory

Get certified in just a few hours on all types of forklifts with our easy to use Forklift Theory program. Then you can complete the practical evaluation at your workplace or one of our training centres. Get certified on Counterbalance, Narrow Aisle Reach, Order pickers and Walkie-Rider pallet trucks.

WHMIS 2015

This course introduces you to Canada's Workplace Hazardous Materials Information System, or WHMIS. WHMIS was created in 1988 to help protect workers by educating them about the hazardous materials they may use in their workplace. This program covers the WHMIS program from its beginning in 1988 to its most recent version – WHMIS 2015.

eVALUATOR Program

eVALUATOR is an entirely **NEW** approach to in house forklift and safety training. It ensures the highest quality training delivered with absolute consistency every time. This innovative new online program is professional, comprehensive and teaches anyone to become an effective evaluator in less than a day.

Find out how we can make anyone at your company a certified eVALUATOR in just one day.

Fall Protection

This fall protection / fall arrest program will provide your employees with the knowledge and training they need to safely work at heights in an industrial environment.

Other Courses

- Supervisor Safety Awareness
- Pedestrian Safety Awareness
- Supervisor & Pedestrian
- Transportation of Dangerous Goods

FORKLIFT (Counterbalance, Reach Truck, Order Picker and Walkie Pallet)

NEW OPERATOR TRAINING: 2-DAY - 7-DAY

IN-CLASS

AT YOUR FACILITY

ONLINE

This is a fully comprehensive course designed for an individual with little or no lift truck experience. This course is comprised of intensive classroom instruction, including discussion and a written test, as well as hands-on practical training and evaluation. Upon successful completion of the course, the operator will be presented with a lift truck certificate as proof of training.

eVALUATOR - A revolutionary new approach to in house training!

ONLINE

Our eVALUATOR program offers everything your Train the Trainer program should, but doesn't. It's an entirely new level of forklift training, ensuring the highest quality delivered in a consistent, innovative new way. This professional, comprehensive online course can be taken at home or workplace, on mobile phones, tablets or computers, providing increased safety and ultimate convenience.

TRAIN-THE-TRAINER FORKLIFT: 3-DAY

IN-CLASS

AT YOUR FACILITY

This three-day course is geared towards your company's dedicated trainer or an experienced presenter who has had exposure to the equipment. It is designed to provide your company with trainers who will have both factual knowledge as well as the ability to present the material to your operators. There is an explanation of mandatory training topics, liability, documentation, evaluation and practical hands on training, to ensure that the trainers understand relevant evaluation points. This class includes a reference manual, a workbook for trainers, sample documentation forms, and a certificate. This course can either be held on-site at your location, or at one of our Liftow Lift Truck Training Centres.

** Includes a USB with PowerPoint presentation covering a wide range of required course elements. Operator Pre-requisite required*

OPERATOR REFRESHER

IN-CLASS

AT YOUR FACILITY

ONLINE

This course is designed for the operator who has previous certification, but requires updated training and legislation. Ministry guidelines and safe driving practices will be covered, and the program will be specifically geared to your application and equipment. This course will provide the attendee with a Lift Truck Certificate upon successful completion of the theoretical component.

CRANE (Bridge, Gantry, Semi-Gantry, Jib and Monorail)

RIGGING AND HOISTING TRAINING

IN-CLASS

A course to train operators on the principles of rigging and hoisting. Some of the topics included are:

- Occupational Health & Safety Act
- Inspection of Hoists and Slings
- Basic Principles of Hoisting
- Hitches and Sling Angles
- Lifting Hardware & Attachments
- Hoisting Safety
- Hand Signals

OVERHEAD CRANE TRAINING

IN-CLASS

A program designed specifically for the novice crane operator. Topics covered include:

- CSA B167-16
- Occupational Health & Safety Act
- Inspection of Cranes and Slings
- Basic Principles
- Hitches and Sling Angles
- Lifting Hardware & Attachments
- Crane Safety
- Hand Signals
- Turning Loads
- Crane Operation on Actual Site

CRANE TRAIN-THE-TRAINER: 3-DAY OVERHEAD CRANE AND RIGGING COURSE IS ALSO AVAILABLE.

AERIAL WORK PLATFORM (Scissor Lift, Boom and Portable Lift)

AERIAL WORK PLATFORM

IN-CLASS

This well-balanced program is ideal for the operator who has no experience but would like to learn to operate an aerial work platform.

AT YOUR FACILITY

ONLINE (COMING SOON)

FALL ARREST TRAINING

- Emergency evacuation procedures
- Fall protection legislation
- Employer, supervisor, worker responsibility
- Regulations for fall protection
- Standards for fall protection
- Fall protection system
- Talk about how to remove the hazard
- Explain what fall protection system involves
- Explain passive vs active systems
- Primary and secondary systems
- Fall protection considerations
- Swing fall and total fall distance
- Fall protection components: body support, connectors, anchorage, and rescue

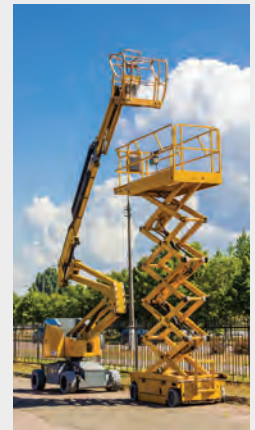

TRAIN-THE-TRAINER: 2-DAY AERIAL WORK PLATFORM

IN-CLASS

Liftow's Aerial Work Platform Training is designed for both new and

experienced operators. This course will discuss topics relating to the safe use and operation of aerial work platforms including: OSHA legislations, pre-operational inspections, battery care and maintenance.

** Includes a USB with PowerPoint presentation covering a wide range of required course elements. Operator Pre-requisite required.*

WORKING AT HEIGHTS

NEW! WORKING AT HEIGHTS

IN-CLASS

Our Working at Heights program is approved by the Chief Prevention Officer and is

AT YOUR FACILITY

ONLINE (COMING SOON)

designed for any Ontario workers who may work at heights as part of their job. Anyone working at heights requires fall protection training (Ontario Regulation 213/91).

MATERIAL HANDLING EQUIPMENT

SKID STEER/LOADER TRAINING

IN-CLASS

Some of the topics included are:

AT YOUR FACILITY

- Occupational Health & Safety Act
- Pedestrian Awareness
- Basic Principles & Operation
- Parts of a Loader/Bobcat
- Pre-Shift Operation
- General Safety Rules
- Hoisting Safety
- Hand Signals

OTHER COURSES

- BATTERY MAINTENANCE
- INDUSTRIAL UTILITY VEHICLE (TOW TRACTOR)
- TRANSPORTATION OF DANGEROUS GOODS (GROUND)

WHMIS 2015 for Workers: Self-paced Program

As part of your job, you may have to handle, use, store and/ or have to dispose of hazardous chemicals. It is important to know what types of hazardous materials are in your workplace because they contain chemicals that can be dangerous to your health and safety and that of your co-workers and customers. This DVD training program contains the generic WHMIS 2015 information you need to help you work safely with hazardous products. It presents WHMIS 2015 from the worker's point of view so that you can identify and work safely with hazardous materials back on the job.

The WHMIS 2015 system will help you identify hazardous material in your workplace, recognize the hazards of the materials you work with and determine how you can protect yourself from injury and illness.

Everyone who works with or near chemicals is required by law to receive WHMIS 2015 training.

WHMIS 2015 Kit includes:

- Training DVD or USB
- 5 x Participant's Guides with Wall and Wallet Certificates
- Administrator's Guide
- Pictogram Poster

FALLDVD-E (English) ... **\$350⁰⁰**

Magnetic Stability Training Model

Educating forklift operators on stability principals can sometimes be challenging. The Magnetic Stability Training Model provides a simple way to demonstrate various forklift situations. It easily demonstrates the concept of the center of gravity, various load shapes, steering and top & side views of the forklift stability triangle. Trainers can educate and test thousands of different stability scenarios. Works on any magnetic white or black board.

STABMAG-E **\$39⁹⁵**

Wire Lift Truck

Teach your operators about the center of gravity with this clever training tool. Ideal for lift truck trainers. Galvanized steel 4" W x 5" H.

BATTERY SAFETY

The Dissipater Replacement Battery Cap

Battery maintenance has never been this easy. The Dissipater is a revolutionary battery maintenance cap that offers you five time saving advantages.

- Reduce Watering Intervals
- Instant Electrolyte Level Indication
- Prevent Acid Overflow
- Ergonomic Easy On/Off Switching
- Filters Harmful Battery Emissions

Quantity discounts available!

The Dissipater **\$8⁵⁰**

DISSA-C (BBI, C&D, Crown, GNB batteries) DISSB-C (EXIDE, and General batteries)

Frotek Aqua Low Profile Battery Watering System

Save time and increase safety with the Aqua Low Profile Battery Watering System. The low profile battery caps are specially engineered to fit most of the forklift battery brands on the market. This simple and reliable design allows the battery watering system to operate with only two moving parts. The Fluid Level Indicator shows the watering requirements for each cell at a glance and the single point delivery reduces battery watering time dramatically. Note: A Pressure Regulator is required to use the battery watering systems.

- Quick and easy one point connection
- Prevents over-filling of battery cells
- Prevents missed watered battery cells
- Ensures correct water level
- Increases safety
- Polycarbonate construction

ITEM	DESCRIPTION	PRICE
AQLP4-6-B	12 volt, 6 cells	\$135.00
AQLP4-12-B	24 volt, 12 cells	\$220.00

Hydrosep Water Treatment Additive

Reduces harmful bacteria and organisms in water supply for 90 days. One bottle treats 5 - 10 gallons. Sold in a package of 4 bottles.

1110764-A **\$55⁰⁰**

* Shipping included to most major cities, surcharges may apply to Quebec & Atlantic Canada. Prices are subject to change without notice.

BATTERY SAFETY

The Battery Care Box

Proper battery care requires special tools and personal protection equipment in order to do the job right. The Battery Care Box puts it all together for you in one box. MSDS information requires specific personal protection equipment since all forklift batteries contain sulfuric acid. This acid often escapes in normal use and comes in contact with skin or eyes if unprotected. Protect your workers that need to service batteries in your workplace.

- Face Shield
- Goggles
- Apron
- Neoprene Gloves
- Flashlight
- Hydrometer
- "No Smoking" Sign
- Cap-Off Battery Cap Removal Tool
- Batt 1000 Battery Cleaner and Acid Neutralizer
- Acid Spill Neutralizer
- Plastic Storage Box

BATBOX-C **\$210⁰⁰**

Complete Battery Handling PPE Kit

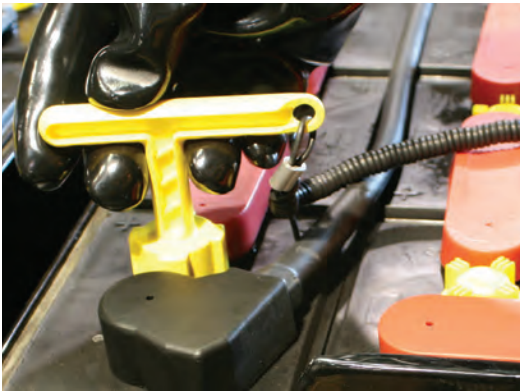

This complete Battery Personal Protection Equipment Kit mounts conveniently on any wall so that everything is within easy reach. The self-contained kit comes with: neoprene safety gloves, safety goggles, face shield, apron, flashlight, hydrometer and a cap-off removal tool. Board size: 34" W x 20" L.

Complete Battery Handling PPE Kit

BCHG-E **\$124⁹⁵**
 BCHGFR-E (French) **\$124⁹⁵**

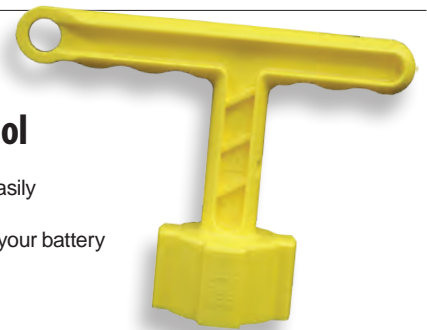

Fact! All MSDS information sheets require this PPE when working around sulfuric acid.

ITEM	DESCRIPTION	PRICE
POS(B)-C	Board Only	\$45.00

Cap-Off Battery Cap Removal Tool

- Removes all types of battery caps quickly and easily
- Eliminates hand contact with acid soiled caps
- The ergonomic solution to check water levels in your battery
- Holds cap in tool for quick re-installation

MH9900F-E **\$14⁹⁵**

Battery Cable Tower

Pogo stick style cable retractor (40" high) mounts to battery stands or wall brackets. Spring on bottom allows forklift operators to pull charger cables to their truck battery. When driver unplugs connector from battery, the retractor returns to upright position keeping connectors from shattering on the floor. Comes with all hardware to install.

127600-C..... **\$129⁹⁵**

Battery Sling

This 2" x 5' Battery Changing sling has been designed to hook onto the eye bolt holes on both sides of the battery. Attach the Battery Sling to a forklift truck to facilitate lifting the battery out of the truck.

- 2-ply polyester sling webbing
- Working Load Limit: 5,000 lbs

BS22-05-D..... **\$159⁰⁰**

Batt 1000 - Battery Cleaner and Protector

Formulated to penetrate and emulsify dirt, grease and corrosive deposits (acid) to protect and to lengthen the life of your battery. A safe, fast and convenient method of neutralizing battery acid. Just spray and wipe clean with a rag.

B1000-E..... **\$14⁹⁵**

Batt 1000 (Case of 12)

B1000-12-E..... **140⁰⁰**

Battery Lifting Beam

This battery lifting beam with a standard 6,000 lb. capacity is designed to fit 27-42" industrial batteries. Lifting hooks are adjustable to fit most batteries. Lifting Beam can be used in conjunction with a fork mounted hook plate (see below).

BLB6000-B **\$1,280⁰⁰**

Shipping included!*

Battery Cable Magnet

Hold battery cable in place with 100-lb magnet. Prevents cable and connector damage by keeping them where you want them.

CABLEMAG-D **\$27⁹⁵**

Fork Mounted Hook Plate

The Lift-Master Hook Plate enables any fork truck to maximize safety while lifting a load using chains, cables or ropes. The safety restraint is used to secure the hook plate to the fork truck, preventing it from sliding off the end of the forks. Fork openings are 6-1/4"W x 1-3/4"H. 6,000 lb. capacity.

LM-HP6-S-B **\$465⁰⁰**

Shipping included!*

Battery Cable Connectors

The 175 Amp and 350 Amp Battery Connector Kit come complete with high strength polycarbonate housing, (2) silver plated connector lugs and convenient connector handle.

Dimensions:

- 175 Amp Connector: 3.13" x 2.19" x 1"
- 350 Amp Connector: 4.25" x 2.75" x 1.31"

Specifications:

- Impact resistant polycarbonate construction
- Silver plated lugs offer superior conductivity
- Stainless steel retaining springs secure contacts in housing for a consistent connection
- Mechanical keys in housing help prevent mating of different color connectors
- Voltage rating: 600V
- UL Rated

Complete Propane PPE Kit

Personal Protective Equipment for Liquid Propane Gas

The PPE for LPG contains all of the required PPE to change propane tanks. Each kit comes complete with a pair of safety gloves, safety glasses, a leak detector and a full set of easy-to-follow instructions. The wall board can be mounted in the propane changing area.

PPEB-E..... **\$95⁰⁰**

Leak Detection Compound

LEAVES NO RESIDUE!

Test your propane junctions and hoses safely with this specially made compound. Just a few drops and this compound spreads quickly, providing a long lasting foam exposing the point of leakage.

A must-have for propane powered equipment operators.

LEAK-C..... **\$16⁹⁵**

LPG Safety Grip

Take the LPG Coupler On & Off Easier and Safer!

Helps prevent serious thermal injury burns from escaping liquid propane. The LPG Safety Grip is a soft rubber boot that easily fits over the brass coupler.

- Provides protection against escaping liquid propane gas as it redirects liquid propane away from the operator's hand
- Rubber grip makes it easier to tighten and loosen the coupler
- Installs in minutes over all 1-1/4" couplers

Note: The LPG Safety Grip does not eliminate the required PPE for changing LPG cylinders.

SAFEGRIP-C..... **\$22⁹⁵**

Brass coupler not included.

Propane Cylinder Handling Gloves

Operators are required to wear proper hand protection when exchanging propane cylinders. The PVC Propane Gloves are used to safely exchange propane cylinders and helps prevent any injuries to the operator's hands. Extremely cold propane can cause frost burn to exposed skin and can ultimately cause nerve damage if no protection is worn. The PVC Gloves include chains and wires to conveniently attach to the overhead guard and allow easy access for operators. The gloves are hung on a magnetic hook when not in use.

OHBD-E..... **\$34⁹⁵**

Retracto-Glove For Propane Forklifts

Operators are required to wear proper hand protection when exchanging propane cylinders. The PVC Retracto-Glove is used to safely exchange propane cylinders and helps prevent any injuries to the operator's hand. Extremely cold propane can cause frost burn to exposed skin and can ultimately cause nerve damage if no protection is worn. Retractable and ready to use, the Retracto-Glove is attached to a spring loaded chain and installs in seconds without any tools. The glove is hung on a magnetic hook when not in use.

RETRC-E..... **\$34⁹⁵**

* Shipping included to most major cities, surcharges may apply to Quebec & Atlantic Canada. Prices are subject to change without notice.

PROPANE SAFETY

Low Propane Fuel Gauge

The Low Propane Fuel Gauge is a new patented technology that senses when the cylinder has approximately one half gallon of LPG left in the cylinder.

This gives the forklift operator 20 - 30 minutes advanced notice to complete the job and exchange cylinders in a safe area.

LPFG-B **\$249⁰⁰**

*Running Out of Propane is Never Productive or Safe!
Get a 20 Minute Warning Before You Run Out!*

Time to Change Tank

With the low propane fuel gauge, the red light will indicate when propane changes from a liquid state to vapor state.

LP Cylinder Loader

- Allows pick-up & placement of tanks on forklift
- Designed to transport and store up to 6 full LP tanks
- Collapses for easy storage
- Powder coated for long-term wear
- Easy set-up and operation
- 360° swivel boom|

Shipping included!*

LP-6-A **\$4,605⁰⁰**

Propane Cylinder Equipment Caddies

6 HOLDS FULL LP TANKS!

- Move cylinders safely
- Designed to transport and store up to 6 full LP tanks
- Accommodates cylinders 12"D x 24"H
- Size: 27" x 31" x 29"

Shipping included!*

LP-170-A **\$1,240⁰⁰**

Single Propane Cylinder Cart

Move propane cylinders safely and efficiently from the storage area to the lift truck.

- Loop Handle
- 14" x 45" Overall Height
- Weight 27 lb.
- 10" solid rubber wheels

701-10PN-C **\$225⁰⁰**

Low Propane Fuel Indicator Kit

- Warns operator of low propane fuel
- Fits all propane systems
- 12 volt system
- Comes with warning indicator light
- Audible alarm option available
- Red light on dashboard will activate once the propane cylinder is close to empty

N15-0013-1A-A **\$80⁰⁰**

12 Cylinder Capacity (30"W x 39"L x 72"H)
GS-12 **\$1,025⁰⁰**

EZ-FIT COMFORT HARNESS

The EZ-Fit Comfort Harness is a perfect economical solution to achieving supreme operator comfort when working with heights. Rated for up to 400 lbs user.

Comfortable, supportive padding on back, shoulders and legs.

Extended D-Ring with velcro strap.

Highly reflective strapping throughout.

Quick connect bayonet style buckles.

BONUS!

*Harness Bag included with all harness and lanyard combo purchases.

- EZ-FIT Harness & 6' Lightweight Lanyard Combo**
EZFIT-C..... **\$189⁹⁵**
- EZ-FIT Harness Only**
EZHAR-C..... **\$140⁰⁰**
- EZ-FIT Extra Large Harness Only**
EZHARXL-C..... **\$140⁰⁰**

*Harness is CSA approved and OSHA/ANSI compliant.

EZ-Fit 6' Retractable Lanyard

The EZ-Fit 6' Shock Absorbing retractable lanyard prevents snagging and tripping by staying behind and out of the way of the worker. The retractable webbing will instantly arrest a free fall within inches rather than the 3 1/2 feet needed for the traditional lanyard.

- Features:**
- Inner core shock absorber smoothly expands to absorb shock and prevent injury
 - Unique tamper signalling system alerts workers to a previously deployed lanyard
 - Built-in swivel prevents lifeline from twisting
 - Rated for up to 400 lbs. user
 - EZ twist-lock carabiner
 - EZ Locking snap hook – 3/4"

EZRET-C..... \$215⁰⁰

*Lanyard is CSA approved and OSHA/ANSI compliant.

EZ-Fit Lightweight Shock Absorbing Lanyard

The shock absorbing safety lanyard features nylon webbing that is not only durable it is also extremely lightweight which reduces worker fatigue.

- Features:**
- Available in 4' or 6'
 - Prevents injury in the event of a fall
 - Simple and practical
 - Max Fall Arrest Force: 900 lbs.

- EZ-Fit 4' Lightweight Lanyard**
EZLAN4-C..... **\$80⁰⁰**
- EZ-Fit 6' Lightweight Lanyard**
EZLAN6-C..... **\$80⁰⁰**

*Lanyard is CSA approved and OSHA/ANSI compliant.

Rite-On Harness

The Rite-On Harness is designed for simplicity and comfort. The bayonet connectors allow users to connect their chest and leg straps in a single action.

Features Include:

- Integrated back and shoulder pad - conforms to the wearer's shape to provide all-day comfort
- Fast Action Bayonet style connectors - allows quick and easy donning
- Extended D-ring option
- Sweat wicking pad fabric - keeps wearers comfortable in hot conditions
- Tangle free pad design - harness keeps in shape between use, aiding quick and easy donning
- Lightweight polyester webbing
- Universal size with full adjustability - one size fits most
- CSA approved and ANSI/OSHA compliant

FP81F/1EDBA-A \$379⁰⁰

HARNES & LANYARD SET IN ONE!

Safety Harness & Lanyard Combo

The full body harness comes complete with a 6 foot detachable shock-absorbing lanyard. The full body harness is made of lightweight, durable polyester webbing with fully adjustable straps to fit most workers. Meets with applicable OSHA, ANSI and CSA Standards.

Features:

- Lightweight, durable polyester webbing
- Fully adjustable designs
- Sliding back D-ring
- Sub-pelvic strap

FORKLIFT SCALES

Hydraulic Scale

SAFE-WEIGH: Lift Truck Check Weigh System

The SAFE-WEIGH series on-board weighing system is designed to give high accuracy at a budget price. This microprocessor based weight system is connected to the hydraulic lifting system on lift trucks or similar machines. A load can be placed on the forks and can be accurately weighed by measuring the hydraulic pressure. Designed for heavy industrial use, the lift truck can weigh a load in under 15 seconds.

This will ensure your shipments will not exceed trailer capacity, way-bills match actual weight, lift truck capacity is not exceeded, or material inventory matches actual weight. Once you use the SAFE-WEIGH, you will wonder how you managed without it. **The SAFE-WEIGH is accurate to +/- 1% of the lift truck capacity.**

Features:

- Stainless steel case and transducer
- Easy to read, user friendly
- External on/off switch
- Selectable capacity and division sizes
- kg. or lb. unit is selectable
- Capacity up to 99,999 lb.
- 1 year warranty
- 12-48V Operating Voltage

Functions:

- Tare Weight (zero out container weight)
- Total Weight (totals the weight of many pallets)
- Over Weight Alarm if load exceeds lift truck capacity

Note: No DC-DC converter required for 24-48V electric trucks. Not legal for trade.

SAWE-C..... **\$2,350⁰⁰**

Pallet Truck w/ Scale - 99.9% Accurate

ACCURACY AT A GREAT VALUE!

The Pallet Truck with Scale allows you to weigh your load as you are handling it. The frame uses heavy-duty steel construction for maximum strength and durability. This model is very user friendly and is suitable for low height lifting. Standard with an on-board charger and AC adaptor.

- Capacity is 5,000 lb.
- Load cells built into forks
- 99.9% accurate
- Mettler Toledo TM scale
- Service range: 3" to 7.5"
- 40 hours continuous battery use (approximately)
- Push-button tare, clear and zero
- Programmable auto shut-off
- Available in lbs. or kg.
- Not legal for trade

PM-2748-SCL-LP-PT-B **\$4,300⁰⁰**

U-Shaped Platform Scale

This scale is designed to handle pallets, and is easy to move and store. Ideal for moving around the work place where there is not enough room for a fixed scale. Scale is suitable for weighing in a warehouse, storehouse, or general use. Includes two (2) wheels and handle for easy portability. Equipped with four (4) heavy duty load cells and a deluxe indicator head. Display powered by 115V AC, cord included. Overall size is 48" x 56" x 4 3/4". Surface width is 5" wide. Constructed of heavy-duty steel. 6,000 lbs capacity.

U-Shaped Platform Scale
VPU-6-B..... **\$2,785⁰⁰**

Shipping included!*

Portable Floor Scale Shipping included!*

Portable Floor Scales are ideal for easy transportation and weighing of goods at multiple locations. Non-slip diamond plate surface. Fold down low gradual ramps are fixed to the platform. Ramps make the scale ideal for wheeling pallet trucks, dollies, carts and containers on and off the platform. Four alloy steel load cells and deluxe stainless steel indicator head. Supplier flat pack for easy assembly. Indexing accuracy is 1.1 pounds.

ITEM	PLATFORM SIZE	CAPACITY	PRICE

VPFS-3C-B	60"x60"	3,000 lbs	\$5,990.00

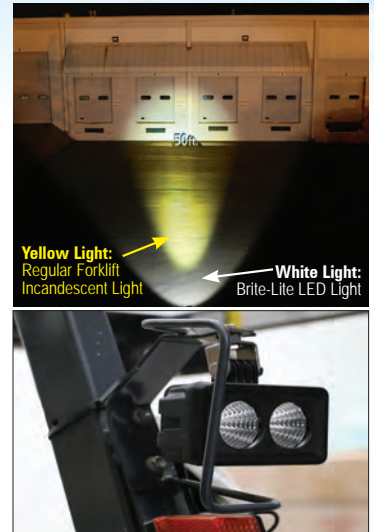

Brite-Lite LED Forklift Headlight

LED Headlights will almost never have to be serviced. The Brite-Lite is perfectly suited for rough forklift applications including high impacts and vibration. The LED light lifespan is rated for 50,000 hours compared to 5,000 hours for incandescent lights. The Brite-Lite uses (2) 10-Watt Cree LEDs at an operating voltage of 9-64V. Manufactured with a Potted Circuit Board to increase the life of the light and an aluminum housing with heat dissipation fin on the back. Includes bracket to install multiple units together for added brightness.

- (2) 10W Cree LED's
- 50,000 Hour Lifespan
- Brightness: 1500 lumens
- Operating Voltage: 9 - 64V
- Size: 4.33" x 3.58" x 2.42"

BRITELITE-C **\$80⁰⁰**

Red-Zone LED Pedestrian Warning Light

40% of all forklift accidents involve a pedestrian. Ensure pedestrians stay a safe distance away from the lift truck with the Red-Zone LED Warning Light. The Red-Zone emits a red beam on the floor to keep pedestrians away preventing foot injury or collisions from rear end swing. The Red-Zone combined with the Blue Light (SAFE-LITE-C) offers a complete pedestrian warning system for your warehouse.

- Operating Voltage: 9 - 64V
- UL Rated
- Size: 6" x 2.25" x 2.75"
- Easy Installation
- Includes Mounting Hardware
- Lifetime Warranty
- 100,000 hrs Lifespan
- PC Lens Material

REDZONE-C **\$129⁹⁵**

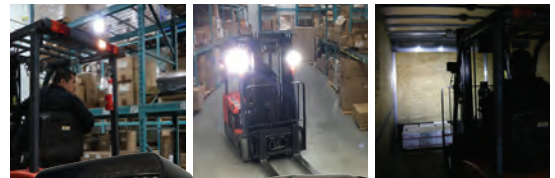

ECO LED Forklift Headlight

The ECO LED Headlight is economically priced to replace all the incandescent forklift headlights in your lift truck fleet. It offers a long life of 50,000 hours which means you will never have to replace bulbs again. 500 lumens of light will give off a luminous, clear light without blinding pedestrians working alongside the forklift. The ECO LED Headlight is great for all applications and lift truck models.

- Voltage: 9-64V
- Power: 6 x 3W, 18W
- Operating Temp: -40 F to 185 F
- Lifespan: 50,000 hrs
- IP67 - Dustproof, Waterproof, Shatterproof
- Material: Dicast aluminum housing
- Bracket: Stainless Steel
- Lens: PC
- 2-year replacement warranty

EHD-C **\$55⁰⁰**

** Can be mounted on the rear of the truck*

** Shipping included to most major cities, surcharges may apply to Quebec & Atlantic Canada. Prices are subject to change without notice.*

For updated pricing or to place your order online visit: www.liftow.com

LED LIGHTS

SAFE-LITE *High Quality Pedestrian Alert Blue Light*

The Safe-Lite alerts pedestrians of forklifts approaching blind corners or forklifts entering and exiting trailers. The Blue LED light projects an intense spotlight 10 to 20 feet ahead of the forklift to alert the pedestrian of nearby traffic. The Safe-Lite can be installed on the front or back of any forklift, sweeper or any other piece of industrial equipment. Includes mounting bracket and straps for easy installation.

- SAFELITE-F(Blue)..... **\$149⁹⁵**
- SAFELITE-R-F(Red)..... **\$149⁹⁵**
- MAGNET-E..... **\$8⁵⁰**

BIG BLUE

This unique "Big Blue" Pedestrian warning light shines a bright light 5 times larger than the conventional Blue Light. With 4 Phillips LED lights, it creates a Big Blue spot on the floor alerting pedestrians of oncoming forklift traffic.

This light comes complete with a mounting bracket for quick and easy installation.

- BIGBLU-F..... **\$149⁹⁵**
- MAGNET-E..... **\$8⁵⁰**

ECO BLUE

The Eco-Blue light provides an economical solution to alert pedestrians of oncoming forklifts. This blue light shines a bright blue spot on the floor warning pedestrians of forklifts approaching from blind corners or trailers.

Each Eco-Blue Light comes complete with a mounting bracket for easy installation. The Eco-Blue can be mounted on either the front or the rear of the forklift.

Waterproof, dustproof and shockproof.

- EBL-H (Blue)..... **\$119⁹⁵**
- ERL-H (Red)..... **\$119⁹⁵**
- MAGNET-E..... **\$8⁵⁰**

ARROW BLUE *Indicates Direction of Moving Vehicle*

The Arrow Blue Light projects a large, bright arrow on the ground 10 to 20 feet away in front or in back of the lift truck. This not only alerts the pedestrian of a nearby lift truck, but also indicates to the pedestrian what direction the vehicle is moving in. This can be very useful particularly around blind corners or trailers. Includes mounting bracket and straps for easy installation.

Specifications:

- Voltage: 12-60V
- Rating: CE
- Power: 3 x 3 Watt

Red Arrow Light also available.

- Arrow Blue Light

SAFETY ACCESSORIES

NEW!

Start-Manager Operator Access Control Systems

Control who has access to your forklifts and machinery with Start-Manager's dual function access control devices. All models can be activated with a 4-digit key code or 125 kHz proximity card or key-fob. These rugged units are weather proof, dust proof and vandal proof, and are built for the toughest industrial applications. The SM201 and SM301 units feature a daily operator safety check to be completed at the start of each shift. The SM301 unit includes an integrated Wi-Fi transceiver to allow for web-based data tracking for all trucks equipped with this model.

Start-Manager Model #SM101
Dual Function Vehicle Access Control

Features:

- 16-key stainless steel keypad
- Indestructible rubberized nylon housing
- Storage for up to 250 4-digit key codes
- Storage for up to 100 proximity card numbers
- Easy to program and remove codes or cards
- Last Operator search feature (for accident ID)
- Includes vehicle start and stop buttons
- 12-48V built-in voltage converter
- Includes (2) pre-programmed key-fobs
- 1 year warranty

Start-Manager Dual Function Access Control

SM101-A **\$430⁰⁰**

Start-Manager Model #SM201
Vehicle Access Control with Daily Operator Safety Check - Manual

Includes all the features of the SM101 Model plus:

- OLED white on black graphic display
- Vehicle hour meter, ID number, date and time
- OSHA/MOL compliant daily safety check feature
- Vehicle will not start until safety check is completed
- After a failed safety, choose whether or not the vehicle can start
- Manual operator sign off (no WiFi or network capability)
- Information collected: Vehicle number, current hours, operator number, time safety check was started, time check was completed, all failed checks

Start-Manager Dual Access Control with Daily Safety Check - Manual

Ergo Back-up Handle

Reduce back strain with the Ergo Back-up Handle. Operators who are required to travel frequently in reverse often grab the overhead guard. This is a dangerous practice and has resulted in serious injuries.

- Eases back stress when turning around
- Fits any lift truck
- Installs in minutes
- Keeps operator's hand inside the operator compartment
- Optional horn switch allows operator to keep left hand on wheel

BUPH-1-D \$49⁹⁵

**Back-Up Handle with Horn Button
BUPH-2-D \$64⁹⁵**

**Back-Up Handle with Built-In Horn Unit
BUPH-3-D \$89⁹⁵**

Anti-Blind Spot Dome Mirror

Lift truck operators need to know what is going on all around the lift truck. This mirror gives a complete 180° view allowing the operator to give a quick safety check before they travel in reverse. Installs on any lift truck in seconds with 3M two-sided tape.

Also available with a durable magnetic arm to attach to any metal surface.

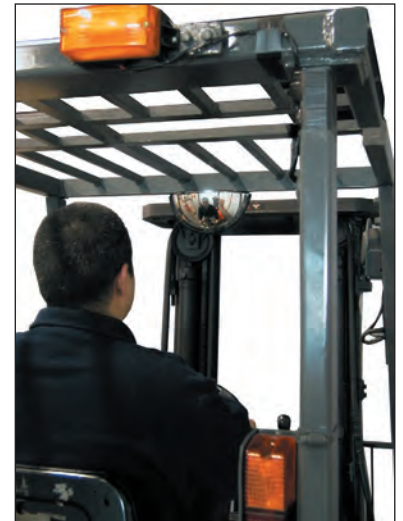

**9" Dome Mirror with Adhesive
DOME-1-D..... \$54⁹⁵**

** Made of acrylic*

**9" Dome Mirror with Magnet Arm Mount
DOMEM-1-D..... \$74⁹⁵**

Mega Mirror

The mega mirror can mount on the overhead guard in seconds using the magnetic arm attachment. Provides a wide angle view of the operator's surroundings for safety and ideal for travelling in reverse.

Dimensions:
17-3/4"W X 3-1/4"H

** Made of acrylic*

**Mega Mirror with Magnetic Arm Mount
MEGAM-D \$74⁹⁵**

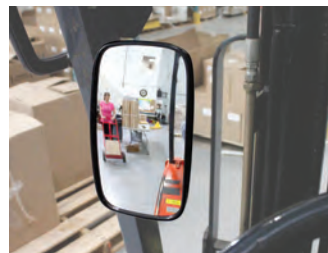

**Mega Mirror for 45° Overhead Guards
MEGAM45-D \$84⁹⁵**

Side-View Mirror

The side-view mirror can mount anywhere in the operator's compartment in seconds using the magnetic arm attachment. Provides a side-view of the operator's surroundings for safety.

Dimensions: 4-1/2"W X 8"H

**Side-View Mirror with Magnetic Arm Mount
SIDEM-D..... \$74⁹⁵**

** Made of acrylic*

SAFETY ACCESSORIES

Safe-Tilt Fork Angle Indicator

The Safe-Tilt easily mounts on the lift truck mast telling you the exact position of the forks, from park, to level, to travel. The Safe-Tilt also comes with sticker labels to specify additional tilt angles. With easy installation, easy calibration and operation, the Safe-Tilt is a must have for any tilt mast lift truck operator. Installs in less than 5 minutes without any tools.

SAFETLT-B **\$169⁹⁵**

Attaches to any counterbalance forklift mast in just minutes.

Accu-Tilt Fork Tilt Level Indicator

The Accu-Tilt shows the operator the level of the forks at all times thereby reducing potential damage by piercing product or racking and increasing productivity by eliminating the guess work. Easy to install and for the operator to understand. It pays for itself in a manner of weeks. Installs in 2 minutes without any tools on any counterbalance lift truck.

- Reduce product damage
- Reduce rack damage
- Reduce pallet damage
- Increase productivity
- Decrease training time for new operators

ACCUTILT-B **\$179⁹⁵**

Accu-Tilt with Accu-Height
ACCUTILT-H-B **\$194⁹⁵**

Front View
This is the display the operator sees when looking through the mast.

Accu-Height Fork Height Indicator

The higher the lift, the harder it is to judge the correct height of the forks. Accu-Height is a simple sticker set that allows the operator to quickly know the right height of the forks at various rack levels. No more guessing if the forks are at the right height. Once the stickers are in place, the operator can quickly go to the right height. It only takes 15 minutes to install.

* Accu-Height is to be used with Accu-Tilt or Safe-Tilt

ACCUHEIGHT-E **\$24⁹⁵**

Correct fork height for entry and exit of pallet
By matching the indicator sticker with the color marker, the correct fork height is obtained to enter the pallet safety.

**THE FORKLIFT
EVEL-LITE**

NEW!

The Forklift Level-Lite

The main cause of product, rack and equipment damage is forks tilted at the wrong angle. If the forks are not level, drivers can spear product from inside or above the pallet opening, bend or push over racking, and splinter pallets. Take control of these issues with the all-new Level-Lite!

The Level-Lite Features:

- Under 1 minute to set up and install
- Accurate within 0.25 of one degree
- Uses standard "D" batteries
- Adapts to bent or uneven forks
- Not permanently fixed to mast
- Turns on/off automatically (motion activated)
- Engineered and made in the USA

The Level-Lite Benefits:

- No tools, wiring or mechanic needed
- 12 - 18 month average life (1600 operating hours)
- LED Indicators, Effective in all lighting conditions
- No on/off switch. Preserves battery life
- Rust proof and durable. Works outside in wet weather
- Box Dimensions: 2.5" x 2.5" x 6.5"
- Box Weight (with batteries) 1lb. 10 oz

Counterbalance Unit

**Level-Lite For Counterbalance
LEVELLITE-B \$375⁰⁰**

Reach Truck Unit

**LASER-GUIDE
FORK GUIDANCE SYSTEM**

Laser-Guide Fork Guidance System

Increase warehouse safety and productivity while reducing product damage with the Laser-Guide Fork Guidance System. The Laser-Guide is equipped with an adjustable, fan-shaped laser beam that projects out from the forks indicating the exact fork position.

- Turns on only when movement of the forks is detected to prolong charging intervals
- Includes lithium-ion battery with 110 Volt charger include
- Lasts approximately 1 – 3 months on a single charge
- Easily mounts to the carriage between the forks using an adjustable slider
- Available for Class 2 and Class 3 lift truck carriages
- Installs in minutes

Laser-Guide for Class 2 Carriage

LASERG2-A \$599⁰⁰

Laser-Guide for Class 3 Carriage

LASERG3-A \$599⁰⁰

Forkshield Overhead Guard Rain Shields

This easy to install rain guard will protect your operators from rain or snow.

- Attaches in seconds
- Universal for forklift, utility and security carts
- SUPERCLEAR material
- Impact resistant vinyl
- Size: 40" L x 45.5" W

**INSTALL ON
TOP, FRONT
OR BACK**

FSD01-D **\$99⁹⁵**

Solar Cap Canopy Protection

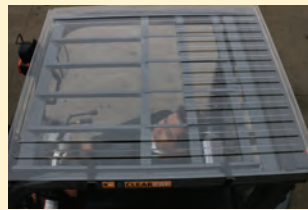

- No more squinting while transporting an overhead load
- Get more coverage with a see through visor
- Stay shaded from direct sun-light
- Made from durable anti-glare material
- Size: 52.5" L x 46" W

SC1-D **\$99⁹⁵**

ClearCap™ A clear solution to a common problem!

Designed to divert rain and small particulates away from the operator.

Since 1999, ClearCap™ has been providing rugged and well designed roof covers for current and late model lift trucks. Made of high impact, non-yellowing polycarbonate plastic, ClearCap™ provides relief from rain, snow, dust and sunlight for operators.

ClearCap™ features a unique dome design that diverts rain and small particulates away from the operator. Channels and gutters eliminate cascading water. This alternative to shrink-wrap, plywood, and cardboard provides greater operator comfort and safety.

Easy to Install, Reasonably Priced: ClearCap™ is quick and easy to install. No drilling or tapping is required; eliminating expensive shop time. Provide us with your overhead guard dimensions or lift truck model and we'll help you find a ClearCap™ that fits your forklift.

Four slotted holes and cam lock nylon straps allow for a simple, secure and tool-free installation in seconds.

ClearCaps™. OSHA standard 1917.43 (e)(1) (ii): clearly states that "Overhead guards shall not obstruct the operator's view."

SAFETY ACCESSORIES

The Backbone™ for Reach Trucks and Stand-Up Counterbalance Trucks

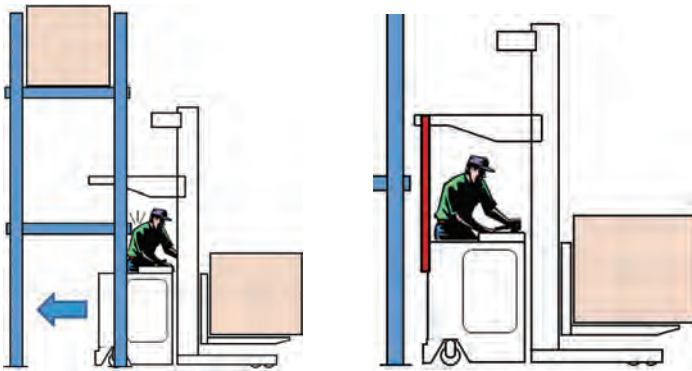

The Backbone™ is a safety device for reach trucks and stand-up counterbalanced trucks to protect operators against accidental rear-ward collisions with racking systems that may cause serious injury without reducing overhead guard protective capability. The Backbone™ is installed on a reach truck by simply clamping to the overhead guard from the top and bolting to the reach truck frame at the bottom by drilling small holes. Additional padding is strapped onto the back of the unit for operator comfort.

Features:

- Easy to install. Attaches in minutes.
- Minimum machine downtime and installation costs.
- Provides enhanced operator safety. Addresses the underride hazard around racking components.
- Provides greater operator control of the reach truck. Reduces the risk of objects striking the operator causing loss of control.

The Backbone™ is the **ONLY** fully tested safety bar on the market to meet both ASME & ANSI Industrial Standards.

BACKBONE-B **\$745⁰⁰**

Lift Truck Safety Stickers

Reduce the chance of accidents by reminding the operator and pedestrians simple safety rules that protect them from injury or death. These stickers are UV coated so they will last for years and are perfect for any industrial setting. All stickers seen are included.

Lift Truck Safety Stickers (set of 16)
STCK-D **\$16⁹⁵**

These safety decals are a constant reminder to operators of the most common safety violations in the workplace.

Forklift Safety Signs

Keep your pedestrians and lift truck operators aware of potential hazards with these highly visible signs. Made of durable polyethylene plastic and perfect for the warehouse. Water resistant.

Code-Red Forklift Detection System

The Code-Red is a wireless collision avoidance system that offers a simple, inexpensive solution to reducing accidents in the workplace.

Features:

- Proximity Tag easily installed on any 12-24V forklift or industrial vehicle
- Proximity Detector detects presence of tagged forklift around corners to flash warning lights
- Detector easily mounts on racks, aiseways, walls or any area with high forklift traffic
- 20 – 40 foot programmable detector range and powered with standard 120VAC adaptor
- Detector includes (2) water-resistant LED lights measuring 9 1/2" x 1" x 5/8"
- Forklift Tag draws 150 mA at 12 – 24VDC
- Forklift Tag is shockproof, waterproof and IP68 rated
- Eliminates the need for workers to wear tags
- Works non-line-of-sight; around corners with no blind spots or coverage gaps

Proximity Forklift Tag
mounts on any forklift

Proximity Detector With Warning Lights
mounts in any area where pedestrians need to be alerted of oncoming forklifts

LOOK-OUT™ Collision/Pedestrian Awareness System

- Avoid deadly and costly forklift collisions
- 100,000 hours lamp life
- Indoor, outdoor and cooler applications
- Adjustable sensors can detect moving objects 32 feet away

Blind intersections are a safety hazard for both forklifts and pedestrians. Over 40% of all forklift accidents involve pedestrians who often do not survive the incident. LOOK-OUT™ is a warning light device that uses motion sensors to warn oncoming traffic that there is a possible danger around blind corners.

Lets pedestrians and forklift operators know if someone is just around the corner with the New LOOK-OUT™

SAFETY ACCESSORIES

The Eagle-Eye is the first reinforced all-in-one forklift camera system. The Eagle-Eye is a durable, metal encased forklift camera system that is IP67 rated for dust and water protection. The Eagle-Eye is also a fully wireless camera system, so no unnecessary cables are needed between the camera and the monitor. The Eagle-Eye comes complete with 9" LCD monitor, 40-hour battery pack, camera, key fob switch and carriage mount bracket.

Eagle-Eye Features And Benefits:

- No unnecessary external wiring, all components are hidden away inside of the Eagle-Eye
- All vital components are protected by a steel casing
- Camera is IP67 rated for dust and water protection
- Monitor can be installed on any 12 - 48V forklift
- Switch function turns camera off after 5 minutes of inactivity, saving the life of the battery by 3-5 times longer
- All components can be charged within the casing or removed from the velcro for quick replacement
- Easy Installation and operation

Eagle-Eye Specifications:

- LCD Monitor Size: 9"
- Power Supply: 12 - 48V
- Power Consumption: Maximum 6W
- Operating Temperature: -4 F to 155 F RH 90%
- Warranty: 1 Year

Eagle-Eye Wireless Camera System

EAGLEEYE-B **\$995⁰⁰**

Additional Eagle-Eye Battery Pack

EEBAT-B..... **\$125⁰⁰**

The key fob allows the operator to only use the Eagle-Eye when needed. Monitor view automatically turns off after 5 mins of inactivity.

White Noise Back Up Alarms

- Warning signal is more directional and perceived to dissipate quicker than a pure tone alarm
- Emits sound at multiple frequencies attenuated above 4000Hz
- Sealed in epoxy for protection against dust, moisture and vibration
- Solution to potential noise pollution created by back up alarms in populated work areas
- Smart alarm model 77-97 db automatically adjusts sound at 5 db louder than surrounding noise
- Voltage: 12/24V (DC-DC converter required for 36V or 48V lift trucks)
- Operating temperature range: -40F to +185F
- Warranty: 2 years
- Conforms to SAE J994, CE rated

Safe-View Wireless Camera System

The Safe-View Wireless Camera System is an excellent tool to give the operator a variety of different views around the lift truck. The Safe-View is extremely easy to install and operate and can be used in the front, back or anywhere around the lift truck where visibility is limited.

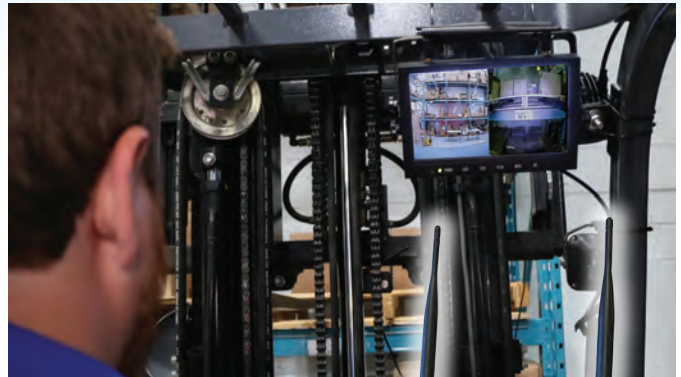

Features:

- 7 inch or 9 inch LCD Monitor with 120° degree view angle camera
- Exceptionally clear picture
- Digital wireless system with built-in transmitters in the camera and display
- Automatic pairing capability with no interference from any other cameras
- Night Vision technology so you can see clearly in low light or dark conditions
- Recording capability with the use of an SD card
- 7 inch or 9 inch display accommodates up to 4 cameras
- Built with water and impact resistant housing
- Can be mounted anywhere on the forklift
- Easy Installation and operation

Specifications

- LCD Monitor Size: 7 inch or 9 inch
- Power Supply: 12 - 48V
- Power Consumption: Maximum 6W
- Transmitting Distance: Approximately 100 feet
- Operating Temperature: -4° F to 155° F RH 90%
- Warranty: 1 Year

The Safe-View Kit Includes: LCD Monitor (7 in. or 9 in.), *New!* Rechargeable Battery (21 hrs), Wireless Camera

Available Options:

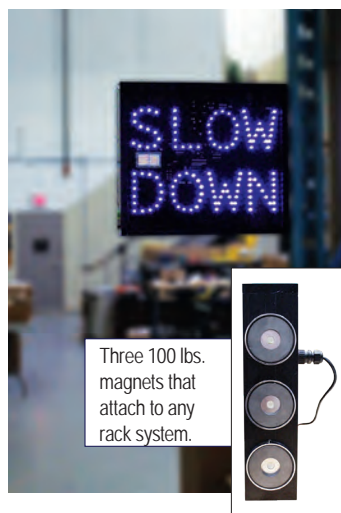

Safe-View Camera Switch turns the camera off after 5 mins of inactivity to save battery life

The Safe-View Camera Bracket With Bumper only available for class 2 carriages

Three 100 lbs. magnets that attach to any rack system.

Safe-Speed Forklift Speed Alert Radar System

When forklift operators travel too fast in a high pedestrian traffic area, safety is in jeopardy. Safe-Speed is a radar detection system that alerts the operator to "SLOW DOWN" when they have exceeded the safe speed limit of a particular area. The Safe-Speed has been specifically designed for industrial equipment as it can detect traffic movement as low as 3 mph. An optional 12 volt flashing light or warning buzzer can also be installed (buzzer included).

- Speed Range: 3 mph (4 kph) to 120 mph (199 kph). Set by dip settings up to 30 mph or 50 kph
- Accuracy: +/- 1.5 kph
- Driver Feed Back Sign Housing: Weatherproof 370x420x90 mm 14.5" x 16.5" x 3.5"
- LED Display Characters: SLOW DOWN, 4" (100 mm) high Super Bright white LEDs
- Weight: 3 kg or 6.6 lbs
- Power: 110 volts
- Display Brightness: Auto adjusts to light conditions
- Sensor Range: 160 feet (50 m)
- Beam Width: 30/40 degrees
- Output allows for a light or buzzer to be installed (buzzer included, light not included)

Poly Fork Cushion - Load Protectors

- Cushioned non-slip surface over forks prevents costly damage during loading and unloading and keeps cargo securely positioned
- Engineered polyurethane mold provides remarkable durability and long service life
- Easy to install lock & pin style
- Sold in pairs

PROTECTIVE BUFFER

The Superior Fork Cushion/ Load Protector provides a cushioned surface between cargo and steel lift truck forks eliminating costly damage experienced during the loading and unloading process.

NON-SLIP SURFACE
Cargo remains securely positioned while in transit.

REINFORCED HEEL
An additional fiberglass mesh is implanted in the heel to provide strength and prevent tear out.

PREMIUM POLYURETHANE
Molded from Superior Cushothane® polyurethane, the STR Fork Cushion/ Load Protector is engineered to provide remarkable durability and unmatched service life.

OEM ATTACHMENT
Designed to exact OEM specifications.

EASY TO INSTALL
The Superior Fork Cushion / Load Protector easily slides over standard lift truck forks and remains secure with provided mounting hardware.

Safe-Bump Forklift Bumpers

Specifically designed for forklifts, these bumpers reduce damage in many applications. Safe-Bump attaches with two 100 lb magnets and (VHB) two way tape.

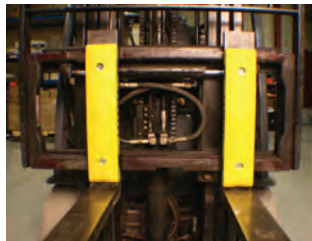

- Size: 18" L x 4" W x 1.5" D
- Magnets: two 100 lb magnets
- Each bumper includes 2 magnets, two way tape and fork brackets.

Safe-Bump Forklift Bumper (Yellow)

SAFEBUMP-Y-E **\$75⁰⁰**

Safe-Bump Forklift Bumper (Black)

SAFEBUMP-B-E **\$75⁰⁰**

Safe-Bump attaches to 4" and 5" forks in seconds.

Safe-Bump is only 1.5" thick and protects product from damage.

Safe-Bump protects both the truck and anything the truck hits.

Safe-Bump can bend 900 to wrap around corners for maximum protection.

Safe-Bump can be applied almost anywhere protection is required.

Traffic Vest

High-visibility mesh 5-point tear-away traffic vest with Velcro closure. Reflective side stripes with Velcro adjustments.

8501-C **\$19⁹⁵**

Pallet Dawg Forklift Carriage Bumper

Features & Benefits:

- Reduces pallet damage by redirecting a forklift's impact to center block of the pallet
- Low profile impact bumper reduces product damage by avoiding contact with product that overhangs the front of the pallet
- Installed and can be removed in minutes with a socket wrench
- Compatible with any Class II forklift carriage
- Includes spacer plate to ensure a tight fit to forklift carriage
- High impact resistant nylon material
- Weighs only 7 lbs

Fork-Kushions

The Fork-Kushions offer a resilient yet durable solution by equipping a forklift truck with specially engineered polyurethane bumpers that are mounted to the upright of the fork. These highly engineered bumpers provide cushioning protection from marring, denting and other forms of damage. The unique structure offers excellent wear properties and vibration deadening without compromising the load capacity of the lift truck. Available for 4", 5" & 6" wide forks; mounting bracket measures 24" in length. Sold in sets including mounting brackets with adhesive and a pair of Fork-Kushions.

All-Krete Concrete Floor Patch

All-Krete is our multi-use, easy-to-use concrete repair product designed for one-step permanent concrete repair. All-Krete quickly repairs pot-holes, joints, cracks and does not require any special preparation work or priming. An All-Krete applied pathway can be opened to all forms of traffic within one hour (even in sub-zero environments), avoiding expensive shutdowns.

10-44-R-D **\$345⁰⁰**

- Use on dry or damp floors
- Excellent on expansion joints
- From 12" deep to feather-edging at 1/16"
- Eliminates costly shutdown time
- Permanent concrete repair
- Comes in 50 lb. pail, covers 60 sq. ft.
- Cures at room temp. in 15 minutes
- Cures BELOW ZERO in 1 hour
- Won't shrink or peel back
- No heat systems or lamps required

Star Flex A Permanent Expansion Joint and Crack Compound

STAR-FLEX is a unique and complete expansion joint repair material designed for use in low temperature areas or anywhere a quick set is desired. STAR-FLEX cures to a high strength, resilient and long lasting seal in just 60 minutes.

- Repairs expansion joints and slip joints
- Requires NO heat lamps or propane torches
- May be used as a crack filler
- Cure time of 30 minutes at 750°F.
- Shelf life approximately 1 year. For extended shelf life, store at temperatures below 800°F and keep liquid resin securely closed when not in use.
- Clean-up with lacquer thinner.

11-19-RH-C **\$315⁰⁰**

Non-Skid Floor Coating

The slip-proof coating for concrete, masonry, metal and all other surfaces prevents slips, slides and falls.

- Excellent sure footing even in wet areas, stairways, loading docks, catwalks, shower rooms
- Resistant to alkali, detergents, acids, brake fluid, etc.
- Grey color available only
- Apply to wood, concrete, steel, stone, etc.

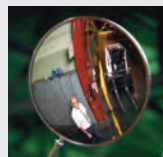

20-33C **\$185⁰⁰**

Warehouse Mirrors

Interior Convex

- 100+ Degree angle of view
- Ball & swivel plate attached directly to mirror for lightness and economy
- Complete with telescoping arm and mounting bracket

Exterior Convex

- 100+ Degree angle of view
- Ball & Swivel bolted to weatherproof back
- Mirror has weatherproof metal frame
- Complete with telescoping arm and mounting bracket

Full Dome Mirror

- For four-way intersections
- Comes complete with chains & hooks for hanging (T-bar clips available on selected drop ceilings)
- Edges protected with steel-reinforced, black bumper

Half Dome Mirror

- For "T" intersections
- Should be fastened to wall or ceiling
- Edges have steel-reinforced, black protective bumper

FACILITY PROTECTION

Rack Armor *Protects Heads While Retrieving Materials From Racks*

When workers retrieve materials or boxes from racking they often misjudge when it is safe to lift their heads. Rack Armor is always there to cushion the blow and prevents serious injury. Designed specifically for this application, Rack Armor is a cost effective way to protect workers from head injuries. Both inside surfaces have adhesive to attach to the rack beam. Includes cable ties to secure to rack. Outside dimensions: 1-1/4" W X 4" L.

Rack Armor (pair of 4 foot length pieces)
RACKARMOR-E (8 ft).....\$39⁹⁵

QuickMount Safety Barricade

The QuickMount Barricade features an 18' retractable safety belt enclosed in aluminum housing. The QuickMount back plate is designed to temporarily attach to warehouse shelving uprights blocking off warehouse aisles. This is ideal for when forklift operators want to block off an aisle while loading product onto racks or shelving. Installation hardware also included.

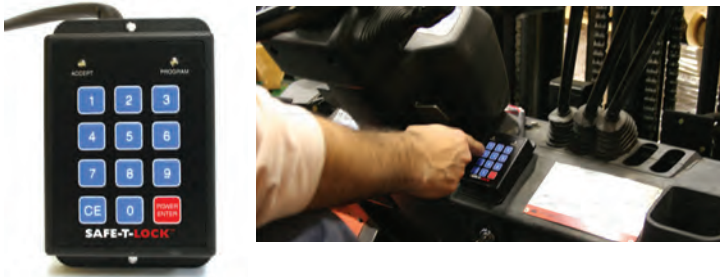

Safety Barricade 18 feet in length
3016-B\$155⁰⁰

Forklift Mount Option
917FM-B\$35⁰⁰

Electronic Code Switch *Prevent unauthorized use*

Keep unauthorized personnel from operating the lift truck.

The Electronic Code Switch can track up to 15 drivers, preventing unauthorized vehicle use. If an accident occurs and the vehicle is damaged, the last driver can easily be identified.

An alarm can also be programmed when maintenance is due.

ELECODE-C\$189⁰⁰

VOLTAGE INPUT

12-90VDC
 Correct voltage level must be set with DIP-switches on the rear of the ECS

OUTPUT

Relay contact rating: 6AMP continuous
 -10 (5 Sec.) for bigger loads, an external relay must be used

CURRENT USE

10mA when relay is not activated, less than 60mA in activated operation

Speed Saver *Automatic Speed Controller System*

Electronic Arm Actuator

Are your forklift operators driving too fast?

- Automatically controls the vehicle speed without reducing performance of hydraulics
- Installs on any gas, LPG or diesel powered vehicle including those with "fly by wire" throttles
- Engine RPM is only controlled when vehicle is traveling over the preset speed limit
- Has no effect on performance of new electronically controlled engine systems

Note: Please specify throttle type and truck model when ordering.

Speed Saver (Mechanical)

Speed Saver (Fly By Wire)
SSEL701-B\$2,495⁰⁰

Air Suspension Model with options shown.

Primo Suspension Seats

The MSG 75/521 is a premium air seat, ergonomically designed to significantly improve the vibration characteristics of the forklift. Offers every driver the ultimate level of comfort.

- Quick and easy rapid intuitive weight adjustment with visual indicators from 45-170 kgs
- Suspension travel = 80 mm
- Fore/aft adjustment = 210 mm
- Narrow seat cushion = 470 mm
- Asymmetrical shape of backrest makes driving backwards more comfortable
- Mechanical lumbar support
- Three different slide rail mounting patterns 11.25", 12.63", 12.913"

ITEM	DESCRIPTION	PRICE

Anti-Vibration Seat Cushion

Hard shocks and vibrations can cause back stress when operating lift trucks. Shocks are absorbed by a dense foam pad that gives the operator added protection and comfort. Made of cambрил inner and vinyl outer covering with elastic velcro straps.

CUSH-C..... **\$139⁹⁵**

Full Back Rest

Back rests that reduce the risk of lower back strain. Select from the full back rest or the half back (available in black only).

FULBAC-C **\$139⁹⁵**

Half Back Rest

Mesh Seat Cushion with "air flow" for superior comfort and support.

HLFB-E **\$14⁹⁵**

* Shipping included to most major cities, surcharges may apply to Quebec & Atlantic Canada. Prices are subject to change without notice.

SEAT BELTS

Safe-Belt *The Most Comfortable Seat-Belt Your Operators Will Ever Wear*

- Simple Arc style design greatly improves operator comfort, flexibility and maneuverability while operating a forklift
- Spring Action Arm feature inhibits operator functionality ensuring operators are wearing their seat belt
- Highly visible yellow colored end shows supervisors seat belts are not being worn
- Easy to install and implement
- Complies with Regulations
- Available in both standard or with ignition switch

SAFEBELT-R-C **\$229⁰⁰**

With Ignition Switch
SAFEBELT-I-C **\$259⁰⁰**

Forklift Seat Belts

These retractable seat belts have bright orange webbing to ensure your operators are buckled up. All are 60" in length and conform to all safety specifications. The optional ignition isolation switch feature prevents the truck from starting unless the seat belt is fastened. Anti-Cinch seat belts allow for increased operator maneuverability.

Retractable Seat Belt

BBLP-1204-417-C **\$175⁰⁰**

Anti-Cinch Comfort Seat belt with Ignition Isolation Switch
1-2592-26-C **\$195⁰⁰**

Press & Release Retractable Seat Belt

The Press & Release Retractable Seat Belt allows the operator to manually adjust the tightness of the belt itself to a more comfortable level. To operate, the driver simply presses and holds the red button to release enough webbing to latch the tongue into the buckle while leaving ample slack to eliminate uncomfortable cinching into the abdomen. Available in black or orange webbing.

PNRBELT-BL-C **\$170⁰⁰**
PNRBELT-OR-C **\$170⁰⁰**

Big Boy Belt Dual Retractor Seat Belt

The Big Boy Dual Retractor Seat Belt is specifically designed for the larger lift truck operators who find the standard size seat belts too confining and uncomfortable. The Big Boy Belt features a 55" retractable belt on both the buckle side and receptacle side of the seat belt allowing for a total length of 110". Finally, there is a seat belt solution for the larger individual.

BIGBELT-C **\$150⁰⁰**

FORKLIFT ATTACHMENTS

Econo Boom

The Econo Boom telescopes extend from 80" to 144" extended. The telescopic section of the boom is secured in place with an infinitely adjustable locking screw. Fork pockets measure 7½" W x 2½" H on 24" centers. Overall size is 32" W x 11" H. Non-telescopic style also available.

ITEM	DESCRIPTION	PRICE
LM-EBT-4-24-B	Econo Boom Telescoping - 4,000 lb capacity	\$2,050.00
LM-EBNT-4-24-B	Econo Boom Non-Telescoping - 4,000 lb capacity	\$1,765.00

6,000 lb. and 8,000 lb. capacity upgrades available.

Orbiting Boom

The Orbit Boom has a convenient counterbalance system and drop lock pin which provides a quick and easy one-man operation and adjustment. This unit provides a horizontal reach to 12 feet. Six vertical adjustment positions add between 2½" and 8½" feet of working height.

The telescopic section is secured in place with a drop lock pin. Available in non-telescopic design.

ITEM	DESCRIPTION	PRICE
LM-OBT-4-24-B	Orbit Telescopic Boom - 4,000 lb capacity	\$3,065.00
LM-OBNT-4-24-B	Orbit Non-Telescopic Boom - 4,000 lb capacity	\$2,770.00

6,000 lb. and 8,000 lb. capacity upgrades available.

High Riser Boom

The High Riser Boom adds five feet of lifting height to any fork truck. The telescopic section of the boom is adjustable from 54" retracted to 78" extended. The overall height of the boom is 70" and the overall width is 32". The fork openings are 7½" wide x 2½" high on 24" centers. Available in non-telescopic design.

ITEM	DESCRIPTION	PRICE
LM-HRT-4-24-B	High Rise Telescopic Boom	\$3,890.00
LM-HRNT-4-24-B	High Rise Non-Telescopic Boom	\$2,775.00

6,000 lb. and 8,000 lb. capacity upgrades available.

Lift Master Boom

Unique performance, convenience and safety features are incorporated into the Lift Master Boom. Fabricated from structural steel with welding to meet A.W.S. It creates a rugged and durable boom that will provide long term service. A 36" chain secures the boom to the fork truck for safe operation. Each unit includes two lifting hooks.

ITEM	DESCRIPTION	PRICE
LM-1T-4-24-B	Lift Master Telescopic Boom	\$2,395.00
LM-1NT-4-24-B	Lift Master Non-Telescopic Boom	\$2,170.00

DRUM HANDLING EQUIPMENT

Multi-Purpose Drum Lifter/Wrench

This simple three-arm design is for use with closed head 30 and 55 gallon plastic, steel and fiber drums with a top lip. Each removable arm also functions as a wrench for use on drum plugs, faucets and ring bolts. Capacity 800 lbs.

**Multi-Purpose Drum Lifter
PDL-800-M-A..... \$390⁰⁰**

Shipping included!*

Horizontal Drum Carrier

Designed to load and unload open or closed head drums horizontally in racks. "T" handle locks secure cradle to the forks to maximize safety and productivity. Drum lock engages and disengages automatically as a function of the fork angle. Fork pockets measure 7-5/8" wide by 2-5/8" high.

**Horizontal Drum Carrier
HORIZ-70-A..... \$1,155⁰⁰**

Shipping included!*

Automatic Eagle Beak Drum Lifters

Choose single-drum or double-drum configuration. Includes safety restraint to secure unit to the fork truck. Welded steel construction. Powder coat finish. Fork pockets measure 7 5/8" wide x 2 9/16" high usable. A ratchet strap is supplied to secure the drum to the unit when traveling over rough terrain.

FMDL-1-A

FMDL-2-A

**Single Drum Lifter 1,000 lb. Capacity
FMDL-1-A..... \$1,950⁰⁰**

**Dual Drum Lifter 2,000 lb. Capacity
FMDL-2-A..... \$2,480⁰⁰**

Shipping included!*

Deluxe Combination Fork Mounted Drum Lifter

Deluxe Combination Fork Mounted Drum Lifter includes attachments to lift any type of drum; 30 and 55 gallon, steel, plastic, fiber and open or closed head drums. Includes single Eagle Beak™ unit and both bottom and top lip Poly Drum Lifters. Capacity will vary depending upon which attachment you are using. Fork pockets have an inside measurement of 7 1/2" wide by 2 1/2" high. Includes safety chain and T-locks for securing unit to fork truck. Welded steel construction. Powder coat finish.

**Deluxe Combination Fork Mounted Drum Lifter
DFDL-3-A..... \$2,595⁰⁰**

Shipping included!*

Fork Mounted Poly Drum Handlers

A top lip plastic drum lifter for use with 30 and 55-gallon plastic closed head drums. 7 1/2" wide x 2 1/2" high usable fork tubes on 20 1/2" centers. High drum attachment point for use with top lip at least 3/16" high. Will also work with steel and fiber drums.

**Bottom Drum Lifter 800 lb. Capacity
FPDL-8-L-A..... \$1,540⁰⁰**

**Top Drum Lifters 1,100 lb. Capacity
FPDL-11-H-A..... \$1,805⁰⁰**

Shipping included!*

Polyester Drum Slings

Polyester Drum Handling Slings are specifically designed for the efficient handling of 55 gallon, ribbed, metal drums. It can be used to lift open top drums, or even drums fitted with spigots or pumps.

The sling consists of a 3" bridle and a 2" circumferential tightening band. The lift bridle is permanently attached to the tightening band, thus eliminating the need to position the bridle for lifting.

The lift loop is attached to the circumferential tightening band. The unattached leg is free to be positioned for various drum diameters.

Working Load Limit: 1,000lbs

**Polyester Drum Slings
DS23-36-D..... \$159⁰⁰**

*Shipping included to most major cities, surcharges may apply to Quebec & Atlantic Canada. Prices are subject to change without notice.

Economy Drum Positioner

 Shipping included!*

Drum Positioner is a unique design to manipulate drums without leaving the fork truck seat. Designed to lift 55-gallon steel and plastic drums from horizontal to the vertical position and vice versa using completely mechanical operation. Ideal for use with drum stands, pallets and racking. Suitable for loading drums into vehicles. Hinged tines lock automatically when lowered to ground in horizontal position. Fork pockets measure 5 1/2"W x 2"H usable.

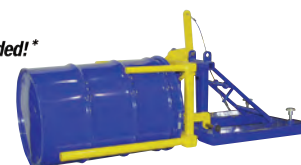

ITEM	DESCRIPTION	CAPACITY	PRICE
VEDP-55-A	55 Gallon Steel Drums and Plastic Drums	800 lb.	\$1,515.00

Drum Positioner

 Shipping included!*

Allows fork truck driver to invert standing drums to the horizontal racking position and vice-versa. Positive latching system ensures safe handling of drums weighing up to 800 lbs. Slide the positioner extensions over the vertical drum. With the aid of the Drum Positioner rotate drum to horizontal position. Latching system will engage to allow horizontal positioning of drum. It's now ready to slide into the rack. Mechanical operation relies on fork truck to rotate and lift drums. Fork pockets measure 7 5/8"W x 2 9/16"H usable on 19 1/2" centers.

Aluminum Truck Dock Plate

- Durable lightweight, aluminum alloy
- Bevelled edges on top and bottom
- Non-slip tread surface
- Highly visible orange edges
- 10° arch at the top to allow board/plate to lie flat
- Steel legs fit between truck and board/plate to prevent movement during use
- Equipped with safety curbs to strengthen the board and prevent equipment run off

Fixed and Portable Poly Dock Plates

This new durable polyethylene dock plate is designed for use with two and four wheeled dollies, hand trucks, carts and pallet trucks. It has a 750 and 1,000 pound load capacity, beveled entry and exit edges, two carry handles, high visibility yellow, integrated guardrails, and powder coated steel legs. 36" L x 35" W x 5" H. Compliance: Meets OSHA 1910.30(a)

Portable Poly Dock Plate 750 lbs Capacity
1795-C **\$360⁰⁰**

Fixed Poly Dock Plate 1,000 lbs Capacity

Glad Hand Lock

The Glad Hand Lock is applied to the emergency brake (red) connection of the trailer. This lock must be removed before the air line from the trailer can be connected and thereby release the emergency brakes on the trailer. An excellent way to dead-line a trailer.

Note: Locks can be keyed the same or individually.

Dock Traffic Lights

Sure-Lite Exterior

Sure-Lite Interior

TCS 3000 Sure-Lite

The Sure-Lite is an unrivaled, low cost alternative to maintain communication between truck drivers and loading dock attendants. The red and green LED lights are instantly understood as "Stop" and "Go", providing clear signals to dock attendants inside the building and truck drivers outside the building.

- Control entry to parking garages, loading dock areas and drive-thrus
- Parking lot entrances and exits or any high traffic areas
- Guide trucks backing into loading docks
- Warn workers and drivers of hazardous situations

PART #	DESCRIPTION	PRICE
