

ARIZONA TILE

TORREON STONE

STONE TYPE

Travertine

ORIGIN

Torreon, Mexico

FINISH

Filled & Honed

RECOMMENDED USES

Commercial
Residential
Interior Floor
Exterior Floor
Countertops
Interior Wall
Exterior Cladding
Fireplaces
Showers

SIZES

3/4" (2cm slab)
1-1/4" (3cm slab)
12 × 12 × 3/8
12 × 24 × 3/8
18 × 18 × 3/8
24 × 24 × 1/2

Torreon Stone is quarried near Torreon, Mexico. This is a sedimentary stone that is formed in hot springs and is composed of calcite calcium carbonate. All travertine stones will have natural cavities, or pits visible in the stone that developed when carbon dioxide bubbles became trapped during the formation of the stone. Prior to honing, this travertine is filled with a color cement to fill in these cavities, and due to varying climate conditions, the color of the fill can differ between shipments. Arizona Tile also offers Torreon Stone as a product in our tumbled program, which will offer a multitude of mosaics and tile sizes that will provide a more unique style to any design. There will be noticeable variations in color and movement between pieces. Therefore, it is important and recommended that a range of this product be viewed before finalizing a purchase. As a natural stone product it is recommended that it be sealed to extend its longevity.
