The pattern printed with red ink makes it much easier when you are cutting out the parts. You can see exactly where your blade is. Patterns with black lines are a little harder because the blade gets lost in the black line. If you can find a color copier to make your copies it will make the sawing easier. Enlarge 132% Wood Type; Western Red Cedar - Color is more important than type. Wood Thickness; 3/4" at max. (unless otherwise indicated) 1/4" min. y Christmas If you do not enlarge the pattern These are suggestions, feel free to use any variation of the above. You will need four 3/8" dowels approx. 3/4" long for the eyes. **LEGEND**  Outside edges . Grain Direction ..... Dark Shade of Wood. MD..... Medium Dark Shade of Wood. ...... Medium Shade of Wood.
