

HOW TO PLAY CORNHOLE GAME

Cornhole is played with either 2 or 4 players. First team to get 21 points win!

Cornhole can be played with 2 or 4 players. If you play with 2 players it is considered individual play and when you play with 4 players it is considered team play.

In team play, one player from Team A and one player from Team B lineup next to each board. Bags are tossed alternating from one team to the next. One player from team A tosses a bag and then one player from team B tosses a bag until all 4 bags have been tossed. When all the bags have been thrown for that round, points are totaled and the next round begins from the opposite cornhole board with the opposing partners taking turns tossing their bags. Determine the team who throws first by a coin toss and every round after that, the first throw goes to the team that won the previous round. Rounds continue until one of the teams reach 21 points or more.

Individual play is almost the same as a team play except you have to walk to the alternating board to pickup and score your own points and then toss the bags back yourself. You should alternate sides when playing individually. So on the first round player A would be on the right side of the board and on the next round player A would be on the left side of the board.

How to score points in Cornhole

Points are determined based on where the Cornhole bags land in relation to the boards. 3 points are awarded when a bag goes through the hole, 1 point is earned if the bag lands on the box. Bags that are hanging into the hole or hanging off the box but not touching the ground count as 1 point. There are no points earned if a bag is hanging off the box but touching the ground or if a bag is hanging off the front of the box being supported by another bag unless you are able to remove the Cornhole bag on the ground without the other moving. If at anytime the bag hits the ground no points are awarded for that bag.

+1 point
if the bag stays on the board.

+3 points
if the bag goes into the hole.

0 point
if the bag hits the ground at anytime.
