BEFORE: Prepare the bag and place on your tree stand.

DURING: The bag stays under your tree until it's time to store.

AFTER: Remove all decorations and pull the bag over your tree.

Preparing the Bag Before Tree Assembly

If your tree is already up don't panic, this is a one time install. Simply disassemble your tree and place the bag on your stand.

1

Locate your storage bag and remove it from the plastic.

2

Lay the bag out flat and fully outstretched on the ground.

3

Hold the bag on both ends and slide your arm through the bag.

4

With the bag on your arm, slide the bag onto your tree stand.

5

On the underside of the bag, secure the buckles to the stand.

6

Stuff the entire tree storage bag into its base tree skirt.

7

Pull the drawstring to enclose the bag inside the skirt.

8

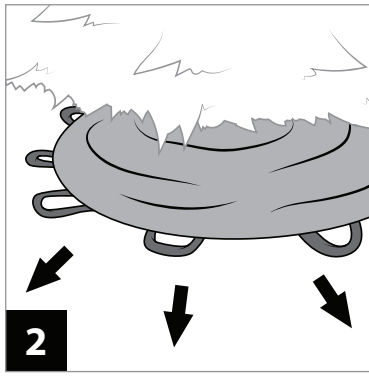

Follow your tree manufacturer directions to install the tree.

Storing your tree After Christmas

Do not disassemble your tree. Remove all decor and pull the bag up and over your tree **AFTER** the holidays.

1 Remove all ornaments and loosen the drawstring. Pull the storage bag out of the tree skirt.

2 Unfasten all buckles and zippers and fully open and expand the tree bag skirt.

3 Using two people, carefully pull up on the bag compressing the tree branches upward as you go.

4 Gather the bag at the top and close it by pull the drawstring tight.

5 Working from the bottom to the top, carefully zip-up the bag compressing the tree as you go.

! You may need to remove the top tree section and place it into the bottom storage area as shown.

Taking the Bag Down

Christmas is back and it's time to get out the tree! Please follow these instructions to return your bag to its tree skirt position

1 Release all drawstrings, buckles, zippers and open the top skirt.

2 Begin to pull the bag down until you meet resistance.

3 Gently push on the branches until the bag drops freely.

4 Stuff the bag back into its base skirt position under your tree.

CAUTION

DO NOT lean the bag on it's side and pull all the weight of the tree on one or two legs. Doing so could cause damage your tree stand, tree, or yourself. **ALWAYS** use caution when leaning the tree over. **DO NOT** put too much pressure on the stand while tipped as this could result in damaging the trunk of the tree. Use **CAUTION** when lifting the tree as it may be heavy. Use **EXTREME CAUTION** when moving the tree up or down stairs. Whenever possible, **USE TWO OR THREE PEOPLE TO STORE YOUR TREE.**
