ONCE UPON A TIME BARK KIT

Yields 10+ servings

KIT INCLUDES

Lotus Blue Easy Candy™
Optic White Easy Candy™
FlutterBye Fancy Sprinkles

Aquamarine Blue Prism Powder®
Magic Mat

WHAT YOU NEED

- Cutting board or baking sheet
- Knife

INSTRUCTIONS

1. Prep Tools

Remove Magic Mat from packaging, hand wash and dry before use. Place the Magic Mat on a baking sheet.

2. Prepare Easy Candy

Heat the Easy Candy in the microwave according to bag instructions until smooth.

3. Create The Bark

Cut the tip off the Easy Candy bags above the scissors line.

To mix the colors you can either:

- Pour one color first. Tap the baking sheet on the counter to even out the melted Easy Candy. Then drizzle the second color on top of the first color. When finished, tap the baking sheet again.
- Pour puddles of each color next to each other all over the mat. Tap the baking sheet on the counter to even out the melted Easy Candy. With a toothpick create swirls by dragging the colors into each other.

For both options, tap the baking sheet one final time when you are finished so the Easy Candy spreads into an even, flat layer.

4. Decorate It Fancy

Before the Easy Candy hardens, add sprinkles and Prism Powder.

5. Set the Bark

Let the bark set at room temperature or in the fridge/freezer until it is firm to the touch.

6. Extra Fancy

Once the bark has set, drizzle remaining Easy Candy on top to add additional color contrast, and adhere additional sprinkles. Let the drizzle set before moving into the next step.

7. Break The Bark

Trace triangles with the edge of a knife throughout the bark. Then press the knife in just enough to create a shallow cut in all the lines. Don't cut all the way through or you may cut the Magic Mat. Carefully break apart the bark using the lines as your guide.

FANCY TIP: If the Easy Candy hardens while you are decorating, you can reheat it to keep using.

FANCY SPRINKLES
