### INSTRUCTIONS

#### 1. Prepare Pancake Batter

Prepare the pancake batter by following the pancake mix instructions indicated on the box. Set the bowl of batter aside.

#### 2. Color the Batter with Jelly Hues™

Divide the pancake batter into 3-5 mixing bowls, one bowl for each desired color. Add 3-4 drops of desired food coloring gel into each mixing bowl. Whisk to combine. Add additional drops of food coloring gel until your desired depth of color is reached.

#### 3. Pre-heat the Skillet

Heat the skillet on your stovetop according to mix instructions. Lightly grease the pan with cooking spray.

#### 4. Cook the Pancakes

Pour ¼ cup of pancake batter onto the lightly greased skillet. Leave room between pancakes to maintain a circular shape. Cook according to mix instructions and remove from the skillet when done.

#### 5. Stack the Pancakes

Place cooked pancakes on a plate in a stack to serve. Alternate pancake colors for a rainbow effect.

#### 6. Decorate It Fancy

Top pancakes with maple syrup, sprinkles, and using a clean brush or Dusting Pump gently apply Edible Glitter for the fanciest pancake stack you've ever seen!

**Fancy Tip:** Make tie-dye pancakes by pouring one color of batter onto the greased skillet, then using a spoon to drop teaspoon size dollops of different colored batter on top. Lightly swirl the colors together to create a tie-dye effect.

Follow these steps with waffle mix to create a beautiful multi-color waffle stack as well.
