Coronavirus Update

July 2020

- According to the World Health Organisation Coronavirus “could kill 2 million in Bangladesh”
- The official number of Coronavirus cases and deaths in Bangladesh keeps rising every day, **however the actual situation is suspected to be considerably worse than the official announcements.**
- There are many people in the local area who are positive with the virus. We can now safely admit some desperately needy families to Sreepur Village. When they arrive they must stay in quarantine for 2 weeks in a dedicated area of the compound. We supply them with all household necessities such as bedding, sheets, towels, crockery, cutlery, as well as play materials for the children. Their meals are cooked centrally then brought to a table near the gate of the quarantined area. We have supplied mothers and children with clean clothes, on admission, so their old clothes can be properly washed.
- Because of our recent emergency appeal we have been able to purchase essential supplies including 2 digital thermometers, 12 sets of PPE, soap, disposable gloves, surgical masks, hand sanitiser, bleach, disinfectant, and detergent.
- In the last few weeks we have been able to begin admitting our first group of new mothers and children since the national lockdown lifted. We currently have 32 new mothers and children in our quarantine area and we are expecting an additional 40 new mothers and children in mid-July 2020.

New arrivals of destitute single mothers and children washing their hands and feet at the main gate and undergoing health checks. To avoid the spread of Covid-19 in Sreepur Village, these families will be quarantined for 2 weeks in a separate area of the village before they can join the other mothers and children.
