## SVOEMESTO KAYFUN 5 22 RTA

### Why the hype?

Please note that all descriptions, specifications, and claims are based on manufacturer information. Information listed and provided are to be used at the sole discretion of the consumer.

The Kayfun V5 22 RTA has the build quality you'd expect from SvoëMesto, and the silhouette of the wildly popular Kayfun Mini V3. The adjustable airflow is now 3.2mm up from 2.2mm on the Kayfun V4. Four positions for airflow are 1.8mm, 2.2mm, 2.7mm, and 3.2mm. This is adjustable externally.

Juice flow control carries over from the Mini V3, with the screw-based design and awesome pressure-based feeding system. The top-fill tank can be re-filled by closing off juice control and opening up the top end.

The deck has been heavily re-designed to allow experts and amateurs alike many options for tuning out a perfect build. You won't need to empty the reservoir to access the deck, and the evaporation chamber is fully optimised to carry over the flavor profile highlights of your favourite e-liquid.

If you appreciate naturally extracted tobacco liquids, the Kayfun 5 is ideal for them. It really brings out the flavor in robust tobacco-derived e-liquid, such as Naturally Extracted Tobacco.

This German-engineered and manufactured tank is durable, sturdy, made from top-end quality materials and is practical and simple for day-to-day use. Includes one glass and one stainless steel tank section.

### Key Features

- 22mm Diameter
- POM-inlay Engraved Thermally Regulated Drip Tip
- Top-fill Tank
- 60mm Height
- 4ml E-liquid Capacity with Glass and 5ml with Stainless Steel Sleeve
- Juice Flow Control
- Quartz Glass Tank Section with Stainless Steel Tank Sections Available
- Enlarged and Redesigned Build Deck
- M2 Build Screws
- PEEK Insulator
- Increased Max Liquid Flow
- Adjustable Airflow
- More Airflow - for a Total of 3.2mm
- 316L Stainless Steel Construction
- Made in Germany to Exacting Standards
- Serialised
- Simple, yet Durable with Less Moving Parts for Convenience in Cleaning and Disassembly
