

EMF HARMONIZER APPLE WATCHBAND

INSTRUCTIONS & FAQ'S

Description

- The EMF Harmonizer Apple Watchband will help protect you from the electromagnetic radiation emitted by your Apple Watch as well as support your health against the detrimental effects of other EMF's that you encounter as you move around in the world. That's two levels of protection:
 1. Harmonizes the EMF's from your Apple Watch to minimize their damaging effects on your health
 2. Offers the same overall protection as our EMF protection bracelets, supporting your body against any EMF's you come into contact with
- Your Apple Watch is constantly emitting EMF's and is of course directly on your body for long periods, so protecting yourself is important! Now you can enjoy the convenience of your wireless connected watch without the worries about the damaging effects of electromagnetic radiation.

Features

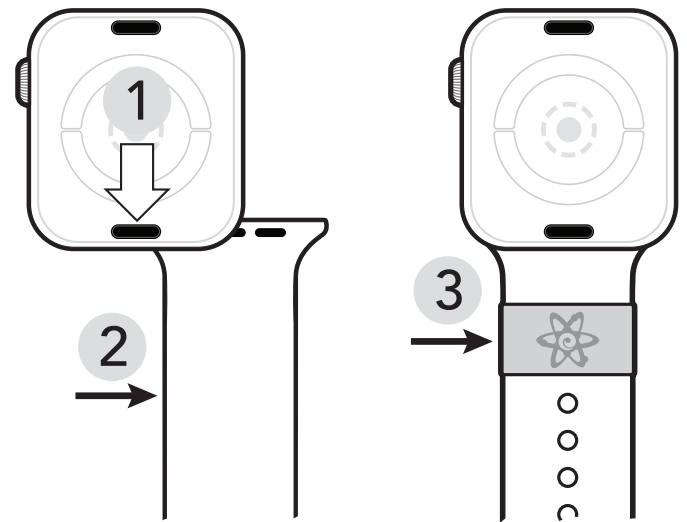

- Made of soft silicon rubber with a small metal clip, both of which have been imprinted with the bio-energetic information of the EMF Harmony technology.
- Completely waterproof and may be worn in the shower, bath, swimming, etc.
- Durable and easy to clean, just wash with warm soap and water.
- Comfortable enough to wear while sleeping.
- Fits All Apple Watch Series

The EMF Harmonizer Apple Watchband will fit any series of the Apple Watch, you need only determine the attachment width of your watch (38, 40, 42 or 44 mm) and the appropriate length (small / medium or medium / large). The sizes are as follows:

- 38/40 mm S/M: suitable for 5.7" ~8.35" (145~212 mm) wrist
- 38/40 mm M/L: suitable for 6.7" ~8.27" (170~210 mm) wrist
- 42/44 mm S/M: suitable for 6.3" ~7.87" (160~200 mm) wrist
- 42/44 mm M/L: suitable for 6.1" ~8.97" (155~228 mm) wrist

Instructions

- To attach the band, turn your Apple Watch upside down and follow this process for each of the two pieces of the band: (1) Press and hold the small release button near where the band attaches to the watch, then (2) slide the old band out to the side. Then release the button and (3) slide the new band in from the side.
- The band may be cleaned with warm water and a mild detergent cleanser.
- The band is waterproof and may be worn in the shower, bath, or while swimming.
- The Apple Watchband is designed to protect you when you are moving around in the world in areas not protected by an EMF Harmonizer Home & Office. The band is not designed to be a substitute for the Home & Office, which will offer you the best protection in these environments where you spend most of your time.
- The band may be worn while you sleep, although it is optional if you are sleeping in an area protected by an EMF Harmonizer Home & Office.
- If you use a smartphone regularly, we highly encourage you to use an EMF Harmonizer+ on your phone as well.

Frequently Asked Questions

Why do I need EMF protection? The negative health consequences of exposure to electromagnetic radiation have been documented in countless scientific studies. Please see the 'Why' page on our website for more details and links to many of those studies.

How does the Harmonizer Apple Watchband work? All of the EMF Harmony products operate using similar technology, which is described in the 'How' page of our website.

How long will the Harmonizer Apple Watchband last? The product will work effectively indefinitely, but the technology is updated regularly. Given the rapid pace of technological change today, we recommend replacing the product approximately every five years.

If I have a Harmonizer Apple Watchband do I still need the other EMF Harmony products? The Harmonizer Apple Watchband is not designed to replace the other EMF Harmony products and is ideally used in combination with them. For example, the Harmonizer+ is always recommended for your cell phone, and the Home & Office offers the strongest protection for your home or workplace.

How do I measure the effects of the Harmonizer Apple Watchband? Since the EMF Harmony technology operates at the sub-atomic level and does not block or alter EMF's, it is not possible to measure its effects with an EMF measuring instrument. However, it is possible to measure the biological effects of the technology with various measurement devices. Please see the 'Research' page on our website for studies that demonstrate physiological changes from using the technology. You may of course run your own physiological tests to see the results. At the bottom of the 'How' page you will find a quick test using lemon juice that will demonstrate that the technology is doing something, which is noticeable in the taste of the juice.

Will I feel the effects of the Harmonizer Apple Watchband? This depends on how sensitive you are to the effects of electromagnetic radiation. People who suffer from Electromagnetic Hypersensitivity will generally feel a difference, but that is more the exception than the rule. Many people will not notice a difference, mainly because most people are not ultra-sensitive to EMF's. However, that does not mean that EMF radiation does not damage their health, or that the product is not helping them.

It may be compared to taking a nutritional supplement. For example, when you take vitamins or fish oil, you do not "feel" different once you start taking them, but they nonetheless have measurable benefits to your health when taken regularly. Likewise, although you may not "feel" the effects, the EMF Harmony technology supports your body's health, which has been documented in physiological testing (see the 'Research' page on our website). Whether you are sensitive to the effects of electromagnetic radiation or not, they do damage your health with long term exposure (see the 'Why' page on our website).

Do you offer a return policy? We do offer a 30 day money back return policy for new, unused products in original condition. Once you use or alter the product it may not be returned. Please contact us for return instructions.

It is important to know that the product is not designed to treat or cure any disease or health problem. If you are ill, you should seek medical advice from a doctor or other health care professional.

Specifications

Contents: 1 EMF Harmonizer Apple Watchband (in 2 pieces)

Material: Silicon Rubber Band with Stainless Steel Buckle

Dimensions:

- 38/40 mm S/M: 4.75" x .81" & 3.63" x .81"
- 38/40 mm M/L: 5.25" x .81" & 3.63" x .81"
- 42/44 mm S/M: 4.75" x .88" & 3.63" x .88"
- 42/44 mm M/L: 5.5" x .88" & 3.63" x .88"
