Energy is the current
of our bodies and the
key to **good health.**

What is EMF radiation?

- EMF radiation refers to the electromagnetic frequencies emitted by all of the wireless devices in your life:
 - Your cell phone
 - Your WiFi router
 - Your laptop, iPad, computer, monitor...
 - Your wireless speakers, headphones, ear buds...
 - The “smart” meter on the outside of your home
 - Your neighbors’ WiFi routers & smart meters
 - The cell phone tower down the street

Why worry about EMF radiation?

- Your body uses electromagnetic frequencies to run your heart, brain, nervous system, hormones and more
- Medical applications like the EKG, MRI, and PEMF therapy all use EMFs to measure or treat your body
- Thus you are an electromagnetic being, and as such your body is affected by EMF radiation exposure

Electronic pollution
**disrupts our body's
energy system.**

Is health damage from EMF exposure real?

- U.S. government studies have concluded that EMFs from cell phones cause cancer in rats and DNA damage in mice
- Agencies of the U.S. government and World Health Organization have classified EMF radiation as a possible carcinogen
- Hundreds of peer-reviewed scientific studies have documented adverse health effects from EMF exposure at levels below current safety regulations

How to protect yourself from EMFs?

- It is not realistic to block EMF radiation in today's world because it is everywhere
- Even if you could block EMFs, then your wireless devices would no longer work
- 5G technology makes matters worse – even more EMFs, and closer to where you live and work
- The only realistic option is to use bio-energetic devices that neutralize the harmful aspects of EMF radiation

EMF Harmony products offer
effective protection
from electromagnetic radiation.

EMF protection from EMF Harmony

- Advanced bio-energetic technology from Europe that works on two levels:
 - Neutralizes the harmful energetic frequencies from EMF radiation
 - Provides support to your body to better handle EMF exposure
- Works at the sub-atomic level, so your wireless devices continue to work normally

Use your wireless devices safely

- With EMF Harmony products you can continue using your devices with the confidence that your health is protected
- We offer solutions for:
 - Your cell phones, WiFi router, laptop, etc.
 - Your Apple Watch or fitness tracker
 - Your entire home or office
 - Your body when on the go – bracelets, pendant necklace, Apple Watch band

Documented results in research studies

- The only way know an EMF neutralizer device works is to measure people's health with and without using it
- EMF Harmony has a long list of such studies documenting effectiveness (see Research page on our website)
- Including a double-blind, placebo-controlled study by a third-party research institute

Endorsed by health care professionals

“After extensive research and studies I found the EMF Harmony products to work on supporting the body and harmonizing the EMF radiation from the phone, computer, etc.”
