ART GARAGE PRESENTS THEN & NOW ART EXHIBIT - TIMELESS. NOSTALGIA. MEMORY.

(Green Bay, WI) – The Art Garage announces the opening of a new front gallery exhibition, Then & Now Art, which open on June 27th through July 28th at their gallery, located at 1400 Cedar Street, Green Bay, WI. Then & Now Art, crafted by Jacob Sieg, is an artform that focuses on the seamless transition between two periods of time. This exhibit shows re-photography, the act of repeat photography of the same site, with a time lag between the two images - a “then and now” view. Perspective, focal length, depth of field, film type, and time of day all need to be calculated for an officially accurate recreation of these photographs.

“My mission is to create artwork that isn't just lovely to look at but will also inspire and provoke conversation through pure, unfettered nostalgia. Each unique piece tells a story that the viewer can either discover or add to as they see fit.” says Jacob Sieg, Art Garage Board Member and artist behind Then & Now Art. “The longer you look the more you will find.”

The public is invited to meet with Jacob Sieg at a free reception on Friday, June 28th from 6:00 PM to 9:00 PM. The reception will be held in the Art Garage gallery and will include refreshments and appetizers!

The Art Garage is a local not-for-profit organization whose mission is to encourage an appreciation for and participation in the visual, performing, and literary arts. Image 1: Then & Now Art: Lambeau Field – Green Bay, WI. Arguably one of the most famous NFL stadiums in the United States, anyone who has been to a Packer game at Lambeau Field can tell you that it is nothing short of a thrilling experience. The history, the culture, and the stories that it could tell. Some might call it legendary, others might call it the ice box 'north of the wall.' We at Then & Now Art® like to call it - a classic.
