

TheraTouch® LX2

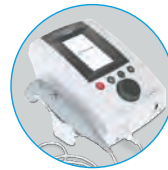

Simplified Laser Therapy

The TheraTouch® LX2 is a Class IIIb laser therapy device, capable of delivering up to 35 joules/cm² per treatment and comes standard with a 850nm 9 diode cluster applicator. A single diode applicator is also available as an accessory. Like other TheraTouch products, the LX2 uses a touchscreen interface with evidence-based clinical protocols to easily set up treatment for common acute and chronic conditions, and is backed by Richmar's industry-leading three-year warranty.

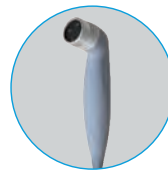

Product Features

- Delivers up to 35 j/cm² in a single treatment
- Built-in dosage calculator automatically calculates output in:
 - Joules
 - J/cm²
 - J/diode
- Programmable treatment time up to 4 minutes
- Continuous or pulsed output modes
- 2 output channels
- 10 predefined clinical protocols
- Save up to 100 user-defined protocols
- Available with optional therapy cart and/or single diode applicator.

Ordering Details

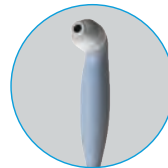

TheraTouch® LX2 DQLLLT

9 Diode Cluster Applicator DQLLLT-CA

Standard Accessory

- Diode Specifications
- 9 Diode Cluster Laser 1040 mW
- Four 650 nm (10 mW) LED
- Five 850 nm (200 mW) Laser
- Maximum Power 1040mW±20%

Single Diode Applicator DQLLLT-SA

Optional Accessory

- Diode Specifications 650nm
- Maximum Power 200mW±20%

Therapy Cart DQCART-2

Optional Accessory

Manufactured for
