# A BRAND-NEW IMMERSIVE SOUND EXPERIENCE

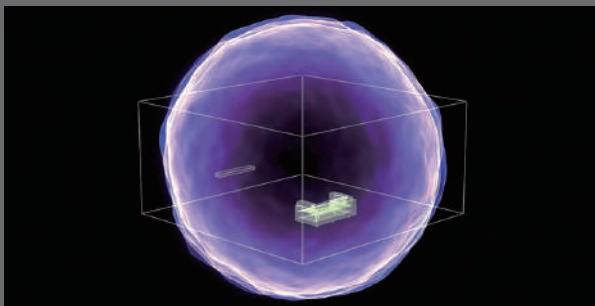

## TRUE SOUND WITH DOLBY ATMOS®

Yamaha's True Sound engineering draws on our extensive experience in sound and sound field creation. Further enhanced with Dolby Atmos®, the SR-B40A fully immerses you in a sonic universe while enjoying your favourite music, games, or movies.

ATMOS

### EXPERIENCE THE UNIQUE WORLD OF SURROUND SOUND

From intense action scenes to absorbing dramas, enjoy and bask in the latest cinematic experience that fills every corner of your room with expressive sound. With its precision-crafted speakers and advanced high-quality audio reproduction technology, the sound field created by the SR-B40A envelops you and transports you deeper into the story as it unfolds on screen.

### CUSTOMISE YOUR SOUND WITH DEDICATED TONE CONTROLS

Newly designed tone controls (via our dedicated app) allow you to tweak the sound to your own taste while staying true to the content. What you get is an expansive sound field with ideal tonal balance in which every element of the sound shines with stunning clarity, enhancing the unique qualities of all your entertainment.

### THRILLING, ROOM-FILLING BASS

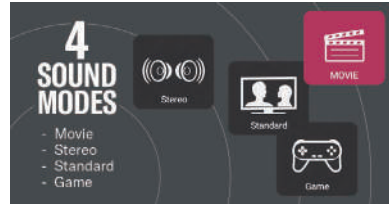

For a powerful sense of floor-trembling realism right in your own living room, the wireless subwoofer expertly creates the low-end punch and texture you need—putting you right in the heart of the action.

## OTHER ADVANCED FEATURES

### CLEAR VOICE

Our Clear Voice technology has been improved to make human voices even more audible. Use the Clear Voice feature to hear every word – from YouTube videos to movies and shows, especially when background music and sound effects try to take center stage.

### FOUR SOUND MODES

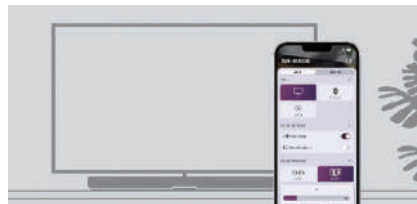

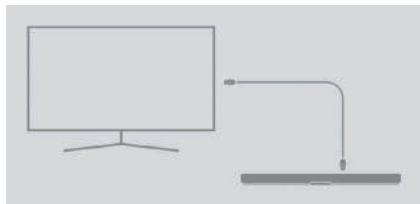

Our audio experts have created 4 custom preset sound modes that will enhance the sound of your core listening sources with the push of a button. Standard mode is ideal for TV shows. Try Game mode to immerse yourself in your latest battle, and use Movie mode to create an expansive theatre experience.

### BASS EXTENSION

Whenever you want more bass, use the Bass Extension feature, for a broader and more muscular presentation. Enjoy content with more power and presence.

## EASY TO SET UP, EASY TO USE

HDMI-CEC and eARC compatibility allows you to connect to a TV with a single cable, and use your TV remote control to operate basic functions on the SR-B40A. For even more detailed control, you can conveniently adjust the volume and change sound modes with the included remote or Yamaha's dedicated Sound Bar Remote smartphone app.
