## SOUND THAT DRIVES YOU TO YOUR BEST PERFORMANCE

The TW-ES5A sports earbuds truly motivate you—whatever sports you play—stirring your heart and body with dynamic, authentic sound. Sound that stays faithful, keeping you going and driving you to remain true to your goals.

### TRUE SOUND

Whether it's time to fully concentrate and push yourself, or you just want to relax and get rid of the tension, True Sound is there. A deep sound that brings the artist's presence so close to you, without compromise—even in sports earbuds. Letting you forget where you are, and thoroughly immerse yourself in the music, breaking through all limitations and taking your performance to the next level.

### FEATURES THAT KEEP YOU MOTIVATED

#### SNUG, SECURE FIT THAT DOESN'T DISTRACT YOUR PLAY

Compact in size with a unique shape and fins with optimum firmness, the newly designed secure fit holds your ears firmly but naturally—letting you maintain concentration without worrying about the earbuds coming loose.

#### IT'S OKAY TO GET WET, EVEN WITH SWEAT

When you're pressing on and bringing your 'A' game, you can't worry about your earbuds getting wet with sweat. The TW-ES5A features high-grade IPX7-level waterproofing, letting you work out as hard as you want. And if the earbuds get dirty, just wash them with water. They can take it and still give you exceptionally clear and bright sound. No sweat.

#### IMMERSED IN YOUR WORLD, YET AWARE OF THE OUTSIDE

The Ambient Sound mode lets you listen to music and still hear the sounds around you. When you go out or move around, you can fully immerse yourself in your own world with your favorite music, and still maintain connection with the outside world.

#### CLEARLY BETTER VOICE CALLS

Let your voice be heard. A uniquely designed mic conduit works in combination with Qualcomm® cVc™ (Clear Voice Capture) technology to provide exceptional noise suppression and echo cancelling for crystal-clear voice quality when making calls.

### LISTENING CARE

#### LOVE MUSIC, FOR A LIFETIME

Lowering volume typically results in a perceived loss of certain frequencies, a phenomenon of human hearing. Listening Care intelligently adjusts the EQ to provide full-range sound even at a lower volume but experience the result you desire.

### OPERATION

	Function key	- (Minus) key	+ (Plus) key
● Single press	▶/	◀	▶
●● Double press	☎	◀◀	▶▶
1 sec Hold	🔄		⋮
