# Initializing (performing a factory reset)

This will restore all of the earbud settings to their factory defaults. The information for devices registered (paired) will be deleted.
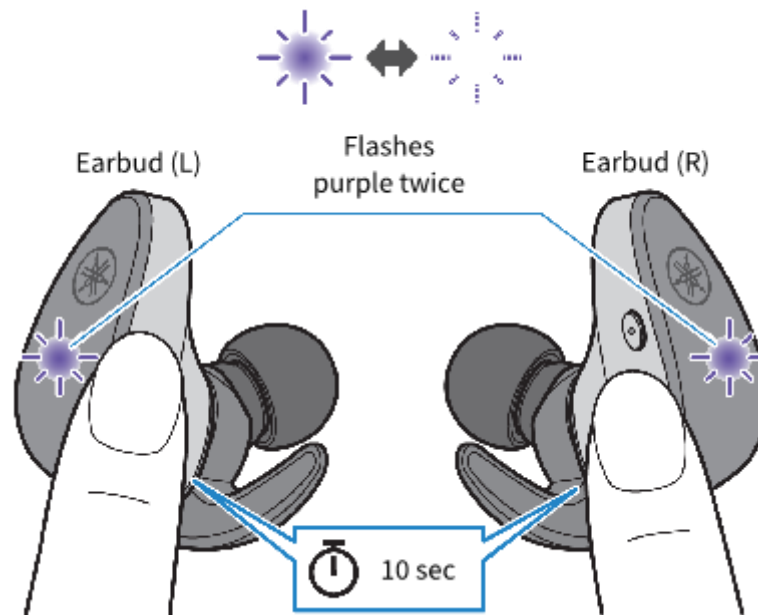

1:      Remove earbuds (L) and (R) from the charging case.
        The indicators light up blue for one second.

Blue
Lights up for 1 sec

Blue
Lights up for 1 sec

2:      Hold down the function key and the − (minus) key for about seven seconds to turn the power off. Make sure that the indicator lights up as shown below.

Earbud (L)

Red
Lights up for 1 sec

Earbud (R)

7 sec

3: After the power turns off, hold down the function key and the − (minus) key for 10 seconds. Make sure that the indicator lights up as shown below.

Earbud (L)          Flashes purple twice          Earbud (R)

10 sec

4: Place earbuds (L) and (R) in the charging case. The earbuds are now initialized (factory reset).
