Helpful hints for marking desired length:

1. Make sure pants fit well at waist and are not pulling or drooping (too loose). Put on the shoes you will be wearing with pants.
2. Fold the excess length up towards the leg. Ensure your fold is at the desired length
3. Pin or tape the excess fabric on to the leg to ensure the 'fold' does not move.
4. Only mark one leg unless you have a significant (more than 1") difference in leg lengths.
