

LIPOSOMAL RETINOL INTERNAL VITAMIN

A

Unlock Vitamin A's Full Potential With This Easily Absorbed Delivery System*

Lipotomal Retinol Internal Vitamin A:

- Keeps bones strong*
- Promotes touchable, clear skin*
- Maintains vision and moistens eyes*
- Strengthens immune health*
- Highly bioavailable liposomal vitamin A

If you're not eating dairy, fish, liver, meat, or fortified cereal you might not be getting enough vitamin A. What's more, if you're not eating enough fat with your meals, your body might not do a good enough job of converting the beta carotene from vegetables into the active vitamin A. Getting enough vitamin A is critical for strong, healthy bones, glowing skin, immune health, and sharp vision.* **Lipotomal Retinol Internal Vitamin A** is an ideal way to make sure your body is absorbing enough of this important vitamin.*

Maintains Resilient Bones*

Vitamin A boosts growth and repair of bones.* It keeps bones strong and resilient.* In fact, a review of the medical literature found that people who ate the most vitamin A had the strongest bones.*¹

Promotes Healthy-Looking Skin and Sharp Vision*

Vitamin A is your skin's best friend. It supports a clear complexion.* At the same time, it keeps your vision strong, especially at night.* To work their best, the eye's retina, conjunctiva, and cornea all depend on vitamin A. Vitamin A can also moisten dry eyes.*

Defends Immune Health*

The mucous barriers in your eyes, lungs, nose, and gut shield your immune system.* Vitamin A strengthens those mucous barriers to support immunity.* You can also count on vitamin A to power up your white blood cells, your immune system's soldiers that go to battle against unwanted invaders.*

Absorbs Rapidly and Effectively

In **Lipotomal Retinol Internal Vitamin A**, the vitamin A is carried within a lipid bilayer—a "liposome." Liposomal A acts more quickly than other forms. It's perfect for those with compromised gut function or fat malabsorption.*

Lipotomal Retinol Internal Vitamin A Is Recommended For:*

- Bone health*
- A clear complexion*
- Strong vision and comfortable, moist eyes*
- Healthy mucosal lining in the gut, sinuses, oral cavity, and lungs*
- People who aren't eating or absorbing enough vitamin A*

Supplement Facts

Serving Size: 0.5 ml

Amount Per Serving

Vitamin A (as Retinyl Palmitate)	1,500 mcg
----------------------------------	-----------

Other Ingredients: glycerin, water, sunflower oil, natural flavors, oleic acid polyglyceride, sunflower lecithin, potassium citrate, xanthangum, rosmarinic acid.

Warning: Studies indicate that levels of Vitamin A in excess of 1,200 mcg daily can increase the incidence of birth defects or other reproductive harm. If pregnant or nursing, consult with your healthcare practitioner before taking this product.

Suggested Use: As a dietary supplement, take 0.5 ml (1/2 a dropper) daily or as directed by your healthcare practitioner. Shake well before each use.
