

HEARTLAND USA[®]

Rear Axle Cover Instructions Fits 2008 to 2011 H-D[®] Rocker[®] models FXCW and FXCWC

1. Using a 1/2" drill bit, Drill out the left side Axle plug. It is a plastic plug just in side the axle nut. This needs to be removed completely.

2. Feed the spring in from the left side. Note that the Cover has a small hole on the side. This needs to be facing down.

3. From the right side reach in using the HOOK supplied and pull out the spring.

4. Pull out enough to grab with your left hand. The left side axle cover should be in place as you pull on the spring.

5. Hook the Spring to the Axle cover

6. Slowly place the axle cover in place, making sure the hole is facing down.

7. Time to Ride.
