GEAR GUIDE 2023-24

SEE YOU ON THE PODIUM!

As former ski racers, my sister Gill and I understand the thrill of the pre-season. The calendar starts filling up with training sessions, reunions with friends during dryland, and visits to the shop to check out the latest gear and graphics. Our goal is to simplify this exhilarating — and sometimes chaotic — time for you.

We're stoked to be Alpine Ontario's premier sponsor and official retail/e-commerce partner. We want to thank Lindsey Ferguson and Patrick Biggs for trusting us to help progress ski racing in Ontario. Wherever you are on your journey to the podium, Skiis & Biikes has got your back!

To the Athletes

Your commitment and relentless effort probably make you the standout skier in your friend group. The skills you develop in racing won't just enhance your skiing; they'll be assets in other sports and different facets of your life as well. The friendships you build through ski racing are likely to endure for years to come. Train hard, ski fast, and enjoy every moment!

To the Parents

We've got you covered throughout the entire season. With over 100 expertly trained staff at your service, we can tackle any questions and deliver or tune your gear at the eleventh hour. Additionally, our online guide can assist you in choosing the ideal skis, boots, and bindings. Take advantage of our exclusive discounts on all your ski racing must-haves by registering for your very own Speed Shop Card.

This season, we've lined up a host of activities to elevate races, events, and even offer some exciting giveaways! We're committed to ski racing because we believe in the sport. Let's work together to make this the most unforgettable season yet!

Devin and Gillian Montgomery,
Co-Owner of Skiis & Biikes

SPEED SHOP

At Skiis & Biikes all AOA athletes get **20% off** race gear like protection, bags, accessories, clothing and more!

Plus, all AOA athletes have access to special equipment pricing from all the best brands.

Simply register and show your card at any Skiis & Biikes locations or use the special discount code online, provided when you register.

Didn't receive a card? Email us at info@skiisandbiikes.com or call 877-352-7547

WHAT'S NEW THIS SEASON

Get ready for the 2023-24 season with fresh colors and the latest tech! Introducing "Speed Blue" – a vibrant new shade from Head. Giro now offers an affordable race helmet for budget-conscious athletes. Skiis & Biikes launches a new bag: the Terrain 2.0. Dive into Mike Janyk's captivating new book. Explore a plethora of new hues in our speed suits, and don't miss POCs "Italian fruit salad" helmet design!

Shred Flexi Back Protector

By using SLYTECH™ Foam in the FLEXI hexagon structure, this back protector is especially thin and light while also offering unrivaled flexibility and certified impact energy absorption.

\$279.99

Go to the Start: Life as a World Cup Ski Racer

Mike Janyk chronicles the life of an elite athlete from being encouraged in sports by parents hoping to find an outlet for his "excessive energy," to his rise as a young athlete with big dreams.

\$29.95

Head Speed Blue

Head redefines their position in racing with the introduction of 'Speed Blue' this robin egg blue will be all over the World Cup podiums and at your local hill. Check out the Raptor line of boots and it's WC Rebels skis. Then look for the AOA Athletes Buyer Guide for your recommended model and size.

Dynastar F-Team

A new graphic year for Team Dynastar. The result of research and development followed by fine-tuning in the test laboratory of the World Cup with Dynastar's F-Team athletes, their new skis offer ultimate performance on turns, with a perfect blend of power, acceleration, stability and control.

Level SQ CF Mitt

A firm favourite with World Cup athletes; guarantees protection, warmth and elevated performance. Get the best warmth, protection and a custom fit with the Level SQ CF Mitt.

\$279.99

Karbon Empress

Karbon is now the AOA outerwear and apparel partner! The Empress is FIS certified, removable padding, 3D stretch, anatomical fit, thumb loops, boot gripper elastic at hem.

\$799.99

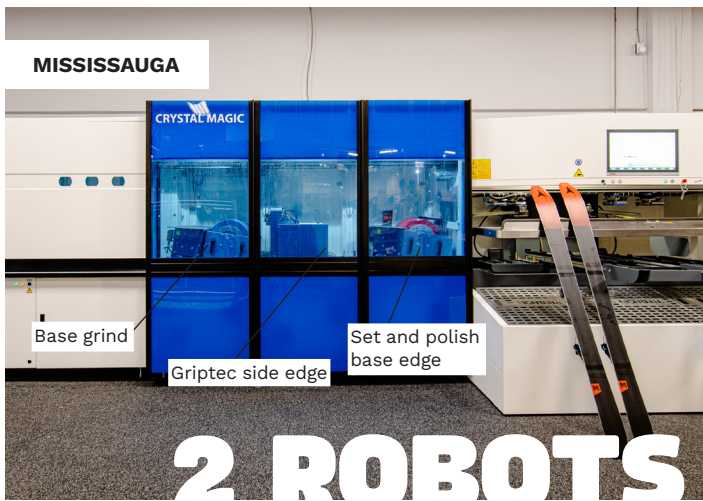

Leki WCR Lite GS and SL Poles

With over 27 options of race specific poles for every style and at every price point, we are the destination for race poles in Ontario. Leki, Komperdell, Head, Rossignol, Kerma and Dynastar are most popular.

Komperdell National Team GS and SL Poles

MISSISSAUGA

NEW IN COLLINGWOOD

2 ROBOTS 1 REVOLUTION

We now have two of the most advanced ski tuning robots in the world. Over the last 18 months we have installed two Montana Crystal Magic machines worth over one million dollars. Now operating in Mississauga and Collingwood these machines provide the most advanced ski and snowboard tunes in the world. Built in Switzerland, Montana is the pinnacle in ski tuning robot manufacturing. Their build quality, attention to advanced robotics and innovation is singular in the market. The Crystal Magic is Montana's most advanced machine and there are only five in North America (two are at Skis & Biikes).

Guided by advanced sensors and robotics, this machine automatically suctions your ski or snowboard and then starts to grind your base by a hundredth of millimeter until it's flat. The grind stone is then programmed with the desired structure and printed on the base. The structure of the ski is responsible for its speed.

The side edges are then tuned to the desired angle with a new technology called **Griptec**. Griptec uses tuning belts, but as traditional belts rotate horizontally, these are flipped vertically to create extremely fine serrations in the edge that lead to **a sharper edge with better hold on ice and a longer lasting**

tune. Your edges won't catch or hook.

The base edges are then ground, set to specified angles and polished. The ski/snowboard then the ski gets a temperature specific buff wax or upgrade to infrared wax for \$20, for a longer lasting glide.

If your base is damaged, molten base material called P-TEX is added to scratches and gouges.

The result is an effortless, fast and smooth skiing or riding experience.

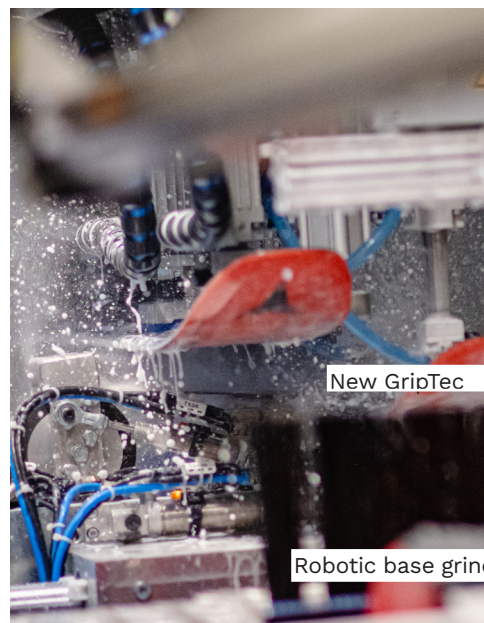

The Collingwood store's basement was completely reimagined with an updated Wax Room, infrared waxer, Montana Crystal Magic robotic machine and a meeting place for teams. We call it SPEED SHOP. Even Wold Cup athletes like Jack Crawford and Ali Nullmeyer have already stopped by to check it out.

Ski/Snowboard Tune: \$59.99
add base repair starting at: \$10
add Infrared Hot Wax: \$20

Infrared Hot Wax: \$30
WC Race Tune + CH Wax: \$119.99
WC Base Grind and Structure: \$60

Robotic base grind

ELEVATED

BOOTFITTING

PRO TIP:

Race boots don't have replaceable toe and heel pads, so remember your Cat Traks!

With four locations and a team of over 20 expert bootfitters, we're equipped to cater to every ski boot need. Together, we bring more than 200 years of experience, serving everyone from beginners to World Cup athletes. Our approach is straightforward and highly effective. Schedule an appointment with us, and you'll be paired with a pro bootfitter, ensuring you'll love your ski boots.

FOOTBEDS

The footbed, or insole, is a pivotal element in the boot fitting process. It significantly enhances blood circulation, arch support, alignment and stability.

SKI SOCKS

Often underestimated, the right ski sock is crucial for optimal boot fitting. Its primary roles are moisture control and cushioning. Opt for a blend of merino wool with elastane and a touch of compression to ensure your feet remain comfortable and dry while cranking out turns.

CUSTOM FOOTBEDS

For unparalleled comfort and performance, these insoles are crafted from layers of unique foam and plastic. They're heated and then molded to precisely fit the contour of your foot and distribute pressure evenly.

SKI BOOT

Choosing the right ski boot from numerous options might seem daunting, but the process is straightforward. Once we assess your foot's length, width, and in-step, and discuss your skiing objectives, we can pinpoint 2-3 ideal choices for you. Here's what we consider:

Type: Whether you're into racing, touring, or recreational skiing.

Flex: The boot's flexibility is rated by a number; the higher it is, the stiffer the boot. For instance, a flex rating of 130 is suited for experts.

Volume: The boot's shape should align with your foot's shape. Have wider feet? We'll recommend a high-volume boot for you.

MODIFICATIONS

At Skiis & Biikes we have the ability to modify the shell and liner of the ski boot. We use heat and force, called punching, or grinding, to create space in the ankle, 5th or 1st metatarsal, toes, etc. The result is more comfort, a better and a better fit. These modifications are included in the price of the ski boot. Then, add a heater for enhanced comfort.

CUSTOM LINERS

Foam liner technology is not new, but it's experiencing a revival with modern advancements. Instead of using the standard liner, we can fit a liner that's injectable with expanding foam. This foam conforms to every contour of your foot within the ski boot, providing you with the utmost in comfort and precision fit.

1 YEAR BOOT FIT GUARANTEE

Every ski boot bought and fitted in-store at Skiis & Biikes is backed by a one-year fit guarantee. If the fit isn't just right, we can adjust the shell or liner. If the boot isn't suitable, we'll exchange it for a different one. Some conditions apply.

GOGGLES & HELMETS

PRO TIP:

Have multiple lenses for different light conditions, or as replacement for fogged or crashed lenses.

Sweet Protection Volata 2Vi MIPS

An iconic FIS-certified race helmet, reengineered using the best materials and tech. Plus, emergency removal earpads and 2-piece ear ports for excellent hearing.

\$349.99

Sweet Protection Trooper 2Vi SL

The Trooper 2Vi® SL Mips is the ultimate slalom helmet. Stronger, lighter and better compared to its predecessor, this is a genuine game changer.

\$429.99

POC Zonula Race Goggles 2024

An exceptionally large field of view and easily interchangeable toric lenses with Clarity technology make the ski goggles ideal for bagging podiums.

\$309.99

POC Skull Dura X MIPS Helmet 2024

A proven race standard now gets a Race Lock turnwheel adjuster for a completely secure fit at very high speeds. Multi-impact EPP liner and MIPS keeps you safe.

\$324.99

Giro Signes Spherical Race Helmet

Durable and lightweight Featuring MIPS Spherical and a silver IONIC+® odor protection to help keep this helmet feeling fresh.

\$299.99

POC Fovea Mid Race 2024

The Clarity Highly Intense lens, optimised for contrast and clarity of vision at high speeds, the goggles feature high-density foam to prevent too much airflow at higher speeds.

\$279.99

POC Skull Dura Junior Helmet

The Skull Dura JR gives junior racers the protection and safety technologies designed to keep them safe as they strive to develop their abilities and reach the pinnacle of the sport.

\$239.99

POC Artic SL MIPS Helmet 2024

Slalom helmet with extra protection zones and a fully adjustable and removable chin bar.

\$314.99

POC Retina Mid Race Goggles 2024

A large cylindrical lens, wide field of view and a frame scaled perfectly for smaller faces ensure that the Retina Mid Race let you keep your focus on performance.

\$229.99

TRAVEL

Since you will be hauling a ton of gear you want to dial in your bag program. A large 'athletes' backpack will be your everyday pack. The Skis & Bikes Beast, Head Rebel Bag, Rossignol Hero Athletes bag are staff picks. When travelling by air, always choose a padded ski bag and large roller luggage pack.

Skis & Bikes Beast Bag

Or called the Black Hole, this athlete focused monster holds everything from your speed suit, guards, helmet, boots and everything else you left at the starting hut.

\$169.99

A-Frame

Simple and easy. Throw your boots and a couple accessories in here and go!

\$69.99

New! Terrain 2.0

The redesigned Terrain boot-backpack moves your ski boots to the side of the bag giving you litres more space inside. Carry it all from the parking lot to the lodge with the Terrain 2.0.

\$149.99

PRO TIP:
Always keep your boots as carry-on when flying!

Classic 3.0 \$99.99

The original, first-of-its-kind ski boot backpack turns 25. Tried and tested to get your gear to the hill with no fuss.

Head Rebels Racing Backpack

\$258.99

U8

Shop U8 Gear Here:

Let's lay the foundation! The U8 level in ski racing is designed for children 7 years old and younger, serving as an introductory stage to competitive skiing. The focus is primarily on skill development and instilling a love for the sport, rather than intense competition. Courses are generally less technical and forgiving, featuring basic gates and turns to help young skiers grasp the fundamentals. Safety is prioritized, with mandatory protective gear, and coaching centers around improving technique and making the experience enjoyable to lay a foundation for future skiing success.

RECOMMENDED GEAR

U10

Shop U10 Gear Here:

In Ontario, the U10 (Under 10) level of ski racing is aimed at children aged 8 to 9 years old. This level serves as a bridge between introductory skiing and more competitive events, building on the foundational skills acquired in earlier levels like U8. While the focus remains on skill development, fun, and safety, courses begin to introduce more technical elements and varied terrains. Competitions may include various formats such as slalom and giant slalom, and coaching starts to incorporate more advanced techniques and tactics.

U12

Shop U12 Gear Here:

U12 targets children aged 10 and 11 and serves as a transitional stage towards more competitive ski racing. At this level, athletes encounter increasingly technical courses that include more complex turns and gates, such as slalom and giant slalom, with a greater emphasis on speed and precision. Coaching focuses on refining advanced techniques and introducing race tactics. While skill development and enjoyment remain important, the U12 level represents a shift towards a more competitive framework, often featuring regional competitions and a higher level of commitment from both athletes and coaches.

RECOMMENDED GEAR

Jacket and Pants

Speed suits are encouraged.

Mandatory

Hard Ear Helmet

FIS sticker mandatory.

Skis

Wood Core Recommended: 2 Pair: SL and GS

Ski Boots

Flex generally 70-110

Bindings

DIN max 7-10

Back Protector

Recommended

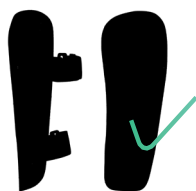

Mouth Guard

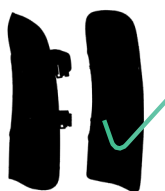

Pole Guards

Slalom only.

Arm Guards

Slalom or GS.

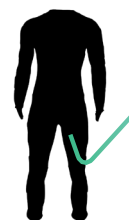

Shin Guards

Slalom only.

Chin Guard

Slalom only.

Race Suit

Permitted at all races except NCD races.

5cm- 10 cm longer can be added for more advanced athletes. Coaches recommendation.

U14

Shop U14 Gear Here:

U14 level is designed for young athletes aged 12 and 13 and marks a significant step up in terms of competition and skill development. At this level, courses are more challenging and include a variety of race formats such as slalom, giant slalom, and even super-G, depending on the program. The focus of coaching shifts more distinctly toward competitive performance, emphasizing advanced techniques, speed, and race strategy. Regional and even national competitions may become part of the experience, requiring a higher level of commitment from the athletes.

RECOMMENDED GEAR

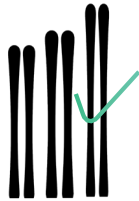

Race Suit

Hard Ear Helmet

FIS sticker mandatory.

Skis

2-3 Pair: SL, GS and SG Recommended.
Minimum 30 meter radius for SG skis.

Ski Boots

Generally flex of 90-110

Bindings

DIN max 12-14

Back Protector

Back Protection is highly recommended.

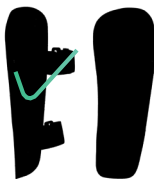

Cut Resistant Baselayer

Cut Resistant Baselayer is recommended.

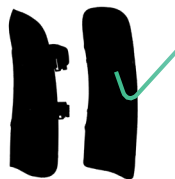

Pole Guards

Slalom only.

Arm Guards

Slalom or GS.

Shin Guards

Slalom only.

Chin Guard

Slalom only.

Mouth Guard

5cm- 10 cm longer can be added for more advanced athletes. Coaches recommendation.

U16

U16 is for athletes aged 14-15. The races often include multiple events, such as Slalom, Giant Slalom, and Super-G. These events serve as a pathway for junior athletes to progress into more elite levels of competition. Participation in U16 ski racing usually requires athletes to be registered with AOA and adhere to regulations regarding equipment and safety protocols. Performances in U16 races can affect future opportunities, such as selection for regional and provincial teams, as well as eligibility for scholarships and sponsorships. Overall, U16 ski racing in Ontario is an important stepping stone for young athletes aspiring to compete at higher levels.

RECOMMENDED GEAR

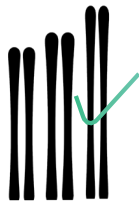

Race Suit

Hard Ear Helmet

Mandatory

FIS sticker mandatory.

Skis

2-3 Pair: SL, GS and SG Recommended.
Minimum 30 meter radius for SG skis.

Ski Boots

Generally flex of 110-130

Bindings

DIN max 14-15

Back Protector

Back Protection is highly recommended and mandatory for SG.

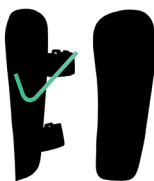

Cut Resistant Baselayer

Cut Resistant Baselayer is highly recommended.

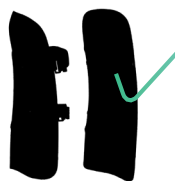

Pole Guards

Slalom only.

Arm Guards

Slalom or GS.

Shin Guards

Slalom only.

Chin Guard

Slalom only.

Mouth Guard

5cm- 10 cm longer can be added for more advanced athletes. Coaches recommendation.

REDSTER FIS USER RECOMMENDATIONS 2023 (SKI, BINDING, BOOT)

Ski selection of FIS products, both length and model, will be always very individual and a subjective decision. We noticed some common trends and following chart should help you to make the right decisions. The optimal skis FIS model and length is determined by the ability, the weight and also the strength of the user.

DYNASTAR

DYNASTAR RACE DEPARTMENT RECOMMENDATIONS (SKIS, BINDINGS, SKIBOOTS)

General Observations: Ski selection, both model and length, always will be a very personal and, to a large degree, a very subjective decision. The following chart shows some of the common trends we noticed as a result of our ongoing testing, which should be taken into consideration when making model and length decision. Optimal ski length is determined by the following order: ability, weight and strength. The Rossignol Race Department hopes you will find this information useful and wishes you an excellent winter of racing. Good luck at the races!

ADDITIONAL NOTES / REMARQUES SUPPLEMENTAIRES

U10 2 OPTIONS FOR ATHLETES LOOKING FOR 1 SKI or 2 SKIS (GS & SL)

* Size 185cm could be used for Adults race, non FIS ! But also for U16 FIS Race

* La taille 185cm peut être utilisée pour des courses Adultes non FIS mais aussi par des U16 en FIS.

**Second Year U16 Boys should consider use of 188 or 193, 30m GS skis based on coaches discretion

**Les coureurs en deuxième année U16 devraient considérer les tailles 188 ou 193 (ski de GS avec rayon de 30m) à la discrétion de leur entraîneur

ROSSIGNOL

ROSSIGNOL RACE DEPARTMENT RECOMMENDATIONS (Skis, Bindings, Skiboosts)

General Observations: Ski selection, both model and length, always will be a very personal and, to a large degree, a very subjective decision. The following chart shows some of the common trends we noticed as a result of our ongoing testing, which should be taken into consideration when making model and length decision. Optimal ski length is determined by the following order: ability, weight and strength. The Rossignol Race Department hopes you will find this information useful and wishes you an excellent winter of racing. Good luck at the races!
