

THE ROBOTIC WELDING SPECIALISTS

# RTW-LA60

Dual frontal feeding welding cell. Fixed  
or rotating tables

*Sumig specializes in robotics welding and has the solution for your company*

*Programming and operation friendly*

*Ready to Weld*

*Optimized Workspace*

*All steel construction for safety and quality*

**FAST SERVICE AND SUPPORT**

**INDUSTRY 4.0 PREPARED**

Our **RTW-LA60** is a dual frontal feeding welding cell. It has two 45° working stations. Fixed or rotating tables.

Sumig's newly designed **Ready-To-Weld (RTW)** modular cells systems line offers the highest scalability and configurable options in the market today. Our standard robotic welding systems includes world class robotic arms and power sources to meet your welding application, productivity and quality goals. The modular design concept allows for future expansion as your business grows.

## Technical Data

Workstation Dimensions	29.5" x 59"
Max load capacity	2204,62 lb
Input Power Ratings	63 Amps @ 240V 3PH 50 Amps @ 460V 3PH
Cell Dimensions	83.4" height x 129.7" depth
Weight	6613,86 lb
Air Requirement	87 Psi.@ 20 CFM
Size in ft <sup>2</sup>	129 ft <sup>2</sup>

### Turn Key Systems Includes:

## Measurements

Front

Side

Working Area

## Standard Components

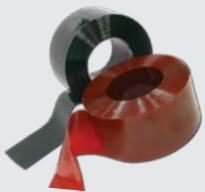

Robot 6 Axis  
2.0 Meter Reach

Power Source  
Pulse MIG - Pulse TIG

SU 477 Robotic  
Welding Torch  
Air Cooled or Water Cooled

Safety Light Barriers  
Welding Screen  
Between Stations

Maintenance door

Robot Controller

Entire process can be automated, not only welding, but toolings, positioners, manipulators, among others. Reach us out and learn more about these components.

## Optionals

Cleaning Unit

Custom Automatic  
or Manual Tooling

Torch TCP  
Calibration Tool

Drum Kit

Rotational Tables  
or Fixed Stations

FastFind  
Laser Sensor
