

FlapJack

LED EDGELIGHT
STUDIO SERIES
BY FOTODIOX

LARGE AND IN CHARGE

Since we introduced the FlapJack LED Edgelights, they've become the go-to ultra-soft, ultra-portable lighting solution for photographers and videographers worldwide. The new Studio Series takes the FlapJacks into the big time, with four new models that are our largest and most powerful FlapJacks ever.

Setting the standard for constant source lighting, the new Studio Series offers greater coverage and softer shadows in a lighting instrument that's only 1 cm thin. Take charge of the look of your lighting with full control over the brightness and color temperature, and remote DMX control on compatible models.

- FlapJack Studio XL - 30" circle
- FlapJack Studio 1x1 - 12" sq.
- FlapJack Studio - 18" circle
- FlapJack Studio 1.5x1.5 - 18" sq.
