

HAND SANITISER

INSTANT HAND SANITISER

DESCRIPTION:

UniSOL Instant Hand Sanitiser is a powerful ethanol based hand sanitiser that evaporates leaving hands dry, sanitised and feeling great without the need for a towel or air dryer. Can be used once hands are washed or between washes on a regular basis to maintain sanitised conditions. Contains >70% Alcohol.

DIRECTIONS:

Dispense 2-5mls directly onto hands neat and rub hands together to give an even coverage. In food processing plants, the sanitiser must only be supplied from a fixed, metered dispenser located a sufficient distance from the processing line to prevent product contamination. Hands must be clean before the sanitiser is applied (this includes washing the hands where necessary).

PRECAUTIONS:

Read label before use. Avoid contact with eyes. Do not swallow.

WARNING:

Causes serious eye irritation. Harmful to aquatic life. Harmful to terrestrial vertebrates.

FIRST AID:

If in eyes, hold eyelids apart and flush the eye with running water continuously. Continue flushing until advised to stop by the NZ poisons centre or a doctor. If skin irritation occurs, get medical advice.

PROPERTIES:

Appearance Clear liquid
