

ARCHITECTURE & ENGINEERING DIRECTORY

SPONSORED BY:
nationalgrid

Welcome to the 2023 edition of *The Central New York Business Journal's* Architecture and Engineering Directory. This directory features current data and projects from the region's architecture and engineering firms. Industry-specific data is also included to provide a snapshot of architecture and engineering in the region and state. *Note:* Not all companies we surveyed submitted information.

ARCHITECTURE FIRMS

Architecteam

614 James St., Suite 200
Syracuse, NY 13203

- **Phone:** (315) 474-1007
- **Website:** architecteam.com
- **Year Established:** 1968
- **No. of Licensed Architects:** 3
- **Total CNY Employees:** 5
- **Managing Partner:** Brian R. Hanson
- **Partner:** Paul C. Soper
- **Markets Served:** commercial, education, health care, historic preservation, industrial, religious, residential
- **Services Available:** architectural design, feasibility studies, interior design, master planning, planning
- **Recent Notable Projects:** Upstate Cancer Center at Verona

Ashley McGraw Architects, D.P.C.

125 East Jefferson St.
Syracuse, NY 13202

- **Phone:** (315) 425-1814
- **Website:** ashleymcgraw.com
- **Year Established:** 1981
- **No. of Licensed Architects:** 22
- **Total CNY Employees:** 57
- **President & CEO:** Matthew Broderick
- **Markets Served:** commercial, education, historic preservation, public buildings
- **Services Available:** architectural design, feasibility studies, interior design, master planning, planning
- **Recent Notable Projects:** Almus Olver Towers 13-story rehabilitation, Syracuse Housing Authority/McCormack Baron Salazar, Inc., Syracuse (in-construction); LOSO Lakeshore Living, Cicero (completed 2023); Jamesville-DeWitt Central School District 2019 Capital Project (completed 2023); Liverpool Central School District High School Fine Arts expansion/renovation (completed 2022); State University Construction Fund/SUNY Upstate Medical University Silverman Hall renovation (to be completed in 2023)

Aubertine and Currier Architects, Engineers & Land Surveyors, PLLC

522 Bradley St.
Watertown, NY 13601

- **Phone:** (315) 782-2005
- **Website:** aubertinecurrier.com
- **Year Established:** 2000
- **No. of Licensed Architects:** 3
- **Total CNY Employees:** 33

- **Managing Partner:** Annette M. Mason
- **Partner:** Brian A. Jones
- **Partner:** Matthew R. Morgia
- **Partner:** Jay Jones
- **Architect:** Brian Krueger
- **Markets Served:** commercial, construction review, education, health care, historic preservation, industrial, public buildings, religious, residential
- **Services Available:** architectural design, construction management, feasibility studies, interior design, master planning, planning, structural engineering

BCA Architects & Engineers

15 Public Square
Watertown, NY 13601

- **Phone:** (315) 782-8130
- **Website:** thebcgroup.com
- **Year Established:** 1970
- **No. of Licensed Architects:** 14
- **Total CNY Employees:** 96
- **CEO:** Travis C. Overton
- **Markets Served:** commercial, education, health care, historic preservation, industrial, public buildings, religious, residential
- **Services Available:** architectural design, construction management, feasibility studies, interior design, landscape architecture, master planning, mechanical engineering, planning, structural engineering

Beardsley Architects + Engineers

Beardsley Architects + Engineers

64 South St.
Auburn, NY 13021

- **Phone:** (315) 253-7301
- **Website:** beardsley.com
- **Year Established:** 1898
- **No. of Licensed Architects:** 10
- **Total CNY Employees:** 58
- **President:** Joseph S. Kime
- **Markets Served:** commercial, education, health care, historic preservation, industrial, public buildings, religious, residential
- **Services Available:** architectural design, feasibility studies, interior design, landscape architecture, mechanical engineering, planning, structural engineering
- **Recent Notable Projects:** Saint Regis Mohawk Tribe — former IGA office conversion: The Saint Regis Mohawk Tribe sought to convert an existing IGA grocery store, originally designed by Beardsley Architects + Engineers in 2003, into a two-story office building for Tribal Government divisions and departments. When renovations and a complete reconfiguration of the building are complete, spaces will include compliance and food distribution departments with a new shared building entrance, and shared waiting and reception area; Tribal Court; environment division offices and agricultural

program space; economic development and Tribal vocational-rehabilitation office; social services offices; locker room and restroom space; and open office areas to accommodate future departments in future design phases. Common spaces include a central lobby, restrooms, mechanical spaces, and IT-support spaces.

Bell & Spina, Architects-Planners, P.C.

215 Wyoming St., Suite 201
Syracuse, NY 13204

SOURCE: NYSED.GOV, INFO AS OF JAN. 1, 2023

—Renovations to the 22,000-square-foot Department of Social Services building included exterior building envelope, roof, walls, flooring, ceiling, HVAC, plumbing and electrical/lighting systems replacement, and addition. The scheduling and budget savings clearly delineated a shorter schedule and approximately \$400,000 savings by bidding the construction as an unoccupied building versus moving everyone out and completing the major project as a single phase. The new plan revolves around a single point of entry with a security station and card access to non-public areas. The design provides for demolition and reconstruction of everything except the foundation and superstructure, ensuring that the end result would be a building meeting all of the current-day codes, regulations, and energy conservation measures; Town Hall improvements, Town of Salina — C&S was the architect, engineer, and construction manager for the renovation of the Town Hall offices and courtroom at the Town of Salina. This 22,000-square-foot renovation reconfigured the offices of the Town's seven departments, housed in an early 20th century school building, to allow them to stay in the building well into the future. The project took a multi-year, phased approach to both the design and construction and included a complete roof replacement, programming and space planning study, office updates, new public restrooms, new courtroom and judge's bench, updated mechanical system and LED lighting, and installation of a modern security system; Skydome, Griffiss International Airport — C&S renovated the existing West Hangar bay within Building 100 to house the largest indoor drone testing facility in the US. Skydome will allow safe civilian and military drone testing and experimenting on a year-round basis, to the extent of allowing as many as 100 drones to fly simultaneously to permitting rotary wing aircraft to enter and test operational modes versus drones. Skydome will support several modes of operation regarding Global Navigation Satellite Systems, passively and actively denied (emulating signal blockage by natural objects and/or unintentional/intentional jamming), and various modes of air-ground and air-air wireless networking and other RF

CNYBJ.COM

applications, such as radar altimeters. In addition to the indoor testing area, an exterior enclosure exists for outdoor flying. An indoor control room and observation mezzanine allow researchers and observers to be separated from the drones.

C2AE

432 N. Franklin St.
Syracuse, NY 13204

- **Phone:** (315) 386-2623
- **Website:** c2ae.com
- **Year Established:** 1966
- **No. of Licensed Architects:** 2
- **Total CNY Employees:** 14
- **Owner, Project Manager:** Ian F. Yerdon
- **Recent Notable Projects:** After years of repair work on Miller Drive had temporarily served SUNY Canton's needs, the University decided to proceed with full-depth reconstruction along with creating safe pedestrian access to Parking Lot #1 and campus housing, with the help of C2AE. Originally planned as a fast-track project, the scope of work expanded to incorporate improvements to the storm drainage system, which would be exposed during the road work. During the design process, past record drawings revealed an existing gas main would need to be relocated, further increasing the scope. The final design included full-depth road reconstruction, new sidewalks, new granite curbing, stormwater drainage improvements, and new site lighting. C2AE provided responsive civil engineering services, meeting the college's deadline for summer construction. In spite of multiple hurdles, including a pandemic and associated supply chain issues, SUNY Canton and C2AE maintained clear, consistent communication about the scope and cost of the work. This project has officially reached a successful conclusion.

Chiang | O'Brien Architects, DPC

Chiang | O'Brien Architects, DPC

217 North Aurora St.
Ithaca, NY 14850

- **Phone:** (607) 241-0244
- **Website:** chiangobrien.com
- **Year Established:** 2012
- **No. of Licensed Architects:** 3
- **Total CNY Employees:** 10
- **Principal:** Grace N. Chiang
- **Principal:** Bob O'Brien
- **Markets Served:** education, health care
- **Services Available:** architectural design, feasibility studies, interior design, master planning, planning
- **Recent Notable Projects:** SUNY Oswego, Renovate Mahar Hall: full renovation of 91,500 gross square-foot Mahar Hall constructed in 1966 at SUNY Oswego. Project scope is to renovate most interior spaces in the academic building, enclose top story lightwell courts to provide additional program space, replace the roof and windows, and add a full-building fire sprinkler system. The scope also includes faculty offices and offices for the Dean of the College of Liberal Arts and Sciences, shared lounges, conference rooms, general classrooms, and departmental classrooms for Psychology, Criminal Justice, History, Human Development, Economics, Philosophy, Political Science,

Anthropology, and Sociology. The quad to the east of Mahar Hall will be used to accommodate a ground-source 'geothermal' well field serving the building. Project is planning to design for IB-2 energy targets. Anticipated substantial completion: October 2027; Cornell University, College of Veterinary Medicine, reconstruct equine facilities: new construction for a College of Veterinary Medicine (CVM) equine facility, including consolidation and demolition of main barn and smaller adjacent barn structures on site. New 14,870 gross square-foot L-shaped horse barn includes 30 horse stalls, a treatment area with three stocks, a wash area, and supporting storage spaces for tack, tools, feed, hay, and bedding. Temperature controlled portion of building contains private staff offices, shared offices, a staff break room, toilet rooms with one or two showers, a 30-seat classroom, and a small lab. A commodity service building designed for hay and straw storage included. Site design includes new paddocks and pastures with run-in sheds. Anticipated substantial completion: November 2023; SUNY College of Environmental Forestry and Science (ESF), renovate Marshall Hall: full renovation of 90,000 gross square-foot Marshall Hall constructed in 1933 at SUNY ESF, an academic building with elevator/stair tower addition for landscape architecture, environmental studies, and general education. First floor houses public-facing services, a landscape architecture gallery, digital storytelling spaces, department offices, and classroom spaces. Entry-level basement floor houses additional classrooms and large student lounge spaces. Faculty offices on the second floor; landscape architecture studios on the third floor; research, design, and computer production spaces on the top sky-lit fourth floor. New and retrofitted ADA-compliant entrances are included. Project designed with a Deep Energy Retrofit target of 50 percent energy reduction and anticipated LEED Gold certification. Anticipated substantial completion: July 2023.

Chianis + Anderson Architects, PLLC

- **Recent Notable Projects:** Rome Health Cesarean Suite — This renovation transformed an underutilized wing, on the 4th floor of Rome Hospital, into a state-of-the-art Cesarean Delivery Suite. Now adjacent to the hospital's Maternity Unit, this 2,500 square foot space will greatly enhance staff flow, patient experience, and infant experience. We've also revamped the Maternity Waiting room into a warm and calming space for families and loved ones; ProLiteracy – ProLiteracy's office headquarters has recently been relocated to historic Franklin Square. The 12,000 square-foot renovation has been thoughtfully designed to meet the needs of a dynamic and growing nonprofit, featuring a versatile mix of office and multi-purpose spaces. In addition to modernizing the organization's workspace, the renovation project also includes the creation of a community space, reflecting ProLiteracy's commitment to fostering connections and collaborations within the local community.

Nelson Associates Architectural Engineering

residential

- **Services Available:** architectural design, construction management, feasibility studies, interior design, master planning, mechanical engineering, planning, structural engineering
- **Recent Notable Projects:** The Utica Zoo Welcome Center celebrated completion of construction with a grand-opening ceremony in May 2023. Nelson Associates Architectural Engineering provided complete architectural and engineering design services including: mechanical, electrical, plumbing, fire protection, structural and site/civil. The \$2.5 million project was a total redesign and expansion of the existing Gift Shop. The new Welcome Center added ~4,000 square feet creating a new and refurbished space of ~5,500 square feet. The new Welcome Center boasts an expanded gift shop, a much-desired classroom for education and community events, new Americans with Disabilities Act (ADA)-compliant family style restrooms, and expanded storage areas. The design creates a "sense of arrival" for visitors and blends contemporary building style with the existing Tudor style architecture to preserve the historic character, while creating a fully modernized Welcome Center.

value-or-values

I chose both

When Country Willow found people staying at home instead of furnishing their home during the pandemic, they worried about the loans that fueled their dramatic growth. But Tompkins knew that solid relationships, like solid furniture, last far into the future. The value of a bank in your corner. The values of a bygone era. Tompkins gives you both—and the best banking relationship you'll ever have. | tompkinsbank.com

TOMPKINS
 your bank of choice BANKING | INSURANCE | WEALTH

Deposit and loan products are offered through Tompkins Community Bank, Member FDIC. Investments and insurance products are not FDIC insured, are not bank guaranteed, and may lose value. Tompkins Insurance is licensed to conduct insurance business in all 50 states. 4/23

residents. The final phase consisted of the construction of approximately 36 miles of water main, a 200,000 gallon elevated water storage tank, booster pump station, pressure-reducing valve vault, and approximately 825 water services across the northern portions of the Town.; Geneva Downtown Streetscape: As part of the City of Geneva's DRI, this project redesigned the Castle and Exchange Street corridors, created public gathering spaces, implemented green infrastructure, and enhanced user safety and connectivity to downtown. The reconfiguration of Routes 5 and 20 transformed the arterial into a two-lane boulevard with a cycle track and sidewalks.; Auburn Public Safety Building: This project included 17,000 square feet of existing building reconstruction and 13,000 square feet of new building construction. The building primarily serves as fire response, featuring an onsite emergency operations center, apparatus bays, firematic storage and decontamination, bunkrooms, kitchen, and training area all supporting up to 17 full-time employees.

ASK THE EXPERT

ESOP Benefits for Architecture and Engineering Firms

Alex J. Nitka, CPA, Tax Partner, Dannible & McKee, LLP

Planning an exit strategy from your successful architecture or engineering firm can be difficult at times. While there are many options to choose from, one that many companies fail to consider is an Employee-Owned Stock Ownership Plan, or ESOP.

An ESOP is a tax-qualified retirement plan that is subject to the Employee Retirement Income Security Act of 1974 (ERISA) requirements. The main difference between an ESOP and other tax-qualified retirement plans is that an ESOP must invest in the company's stock. ESOPs offer an owner a beneficial way to reward loyal employees while transferring ownership.

How do ESOPs Work?

The ESOP trust must be formed by the business with a trustee who is typically independent of the business. All or a portion of the company is purchased by the ESOP from the owner(s) after an appraisal of the business is performed. In many cases, the business must borrow funds from an outside lender, and the loan proceeds are immediately distributed to the ESOP as an internal loan for the ESOP to purchase the shares or interest of the business. Outside lenders require this two-step loan process to avoid compliance issues with ERISA loan requirements.

If the purchase is only partially financed with outside debt, the remaining interest could be funded by seller or owner notes calling for a reasonable interest rate while remaining subordinate to the outside financing. Many owners find this type of financing appealing since they receive a favorable rate of return on the note.

Businesses are required to make tax-deductible contributions annually to the ESOP. The contribution gives the ESOP funds to repay the internal loan that the ESOP has with the business.

In addition, C corporations can pay tax-deductible dividends, while S corporations can make distributions on stock shares held by the ESOP to help pay down the internal loan.

Shares purchased by the ESOP are held in an account within the trust. As the internal loan is paid down, shares of stock are released from this account and allocated to participating employee accounts. This can be based on the number of years of service the employee has or some other formula for participation. Though rules vary, employees are typically fully vested in three to six years.

Advantages of ESOPs

ESOPs effectively create an internal market for the interest or shares in the business, giving the owner an option for liquidity. They provide a range of tax incentives and tax deductions, with the owner able to defer the transaction's taxes in many cases. Shareholders in a C corporation can defer taxes by reinvesting proceeds into the securities of outside domestic companies. S corporations and partnerships may be changed into a C corporation prior to the sale for the same tax deferral benefits.

If the company remains an S corporation, there is the benefit of not having to pay federal taxes on the shares held by the ESOP due to the pass-through rules. At the employee level, the shares within the ESOP trust allocated to employee accounts accumulate on a tax-free basis until disbursement.

Does an ESOP Make Sense for You?

For many owners, an ESOP might be an ideal solution. However, there are many considerations to take into account to ensure an ESOP will work well for your business. Be sure to consult with your CPA to determine if an ESOP would be a good option for your business.

DM DANNIBLE & MCKEE, LLP Certified Public Accountants and Consultants
221 S. Warren Street, Syracuse, NY 315.472.9127 | DMCPAS.COM

- **Recent Notable Projects:** Saint Regis Mohawk Tribe - Former IGA Office Conversion: The Saint Regis Mohawk Tribe sought to convert an existing IGA grocery store, originally designed by Beardsley Architects + Engineers in 2003, into a two-story office building for Tribal Government divisions and departments. When renovations and a complete reconfiguration of the building are complete, spaces will include compliance and food distribution departments with a new shared building entrance, and shared waiting and reception area; Tribal Court; environment division offices and agricultural program space; economic development and Tribal vocational rehabilitation office; social services offices; locker room and restroom space; and open office areas to accommodate future departments in future design phases. Common spaces include a central lobby, restrooms, mechanical spaces, and IT-support spaces.

- **Recent Notable Projects:** Cayuga Milk Ingredients addition; AuSable Fire Station; NYS Linesman Safety Training addition

Nelson Associates Architectural Engineering

1 North Park Row
Clinton, NY 13323

- **Phone:** (315) 853-5704
- **Website:** nelsonae.com
- **Year Established:** 1995
- **President & CEO:** Peter N. Nelson
- **No. of Licensed Engineers:** 4
- **No. of LEED-Certified Professionals in CNY:** 1
- **Total CNY Employees:** 15
- **No. of CNY Offices:** 1
- **Engineering Concentrations:** architectural, construction, civil, electrical, environmental, geotechnical, industrial, inspection, mechanical, plumbing, planning, protection, sanitary, structural, other
- **Markets Served:** commercial (10%), industrial (50%), institutional (20%), govt./municipal (15%), other (5%)
- **Specialties:** Full-service architectural and engineering firm. Engineering includes structural, mechanical, electrical, plumbing, fire protection, and civil/site services.
- **Recent Notable Projects:** The Utica Zoo Welcome Center celebrated completion of construction with a Grand Opening ceremony in May 2023. Nelson Associates Architectural Engineering provided complete architectural and engineering design services including mechanical, electrical, plumbing, fire protection, structural and site/civil. The \$2.5 million project was a total redesign and expansion of the existing Gift Shop. The new Welcome Center added about 4,000 square feet creating a new and refurbished space of ~5,500 square feet. The new Welcome Center boasts an expanded gift shop, a much-desired classroom for education and community events, new Americans with Disabilities Act (ADA) compliant family style restrooms, and expanded storage areas. The design creates a "sense of arrival" for visitors and blends contemporary building style with the existing Tudor style architecture to preserve the historic character, while creating a fully modernized Welcome Center.

Plumley Engineering, P.C.

8232 Loop Road
Baldwinsville, NY 13027

- **Phone:** (315) 638-8587
- **Website:** https://plumleyeng.com
- **Year Established:** 1985
- **President:** Joel D. Plumley
- **Project Engineer:** Jesse D. Plumley
- **Managing Engineer - Civil Department:** Julian F. Clark
- **No. of Licensed Engineers:** 7
- **Total CNY Employees:** 15
- **No. of CNY Offices:** 2
- **Engineering Concentrations:** construction, civil, environmental, geotechnical, industrial, inspection, planning, sanitary, structural, transportation
- **Markets Served:** commercial (30%), industrial (30%), institutional (25%), govt./municipal (10%), other (5%)
- **Specialties:** civil, environmental, geotechnical engineering, GIS, drone

Popli Design Group

404 W. Kirkpatrick St.
Syracuse, NY 13204

- **Phone:** (585) 388-2060
- **Website:** popligroup.com
- **Year Established:** 1992
- **EVP:** Sanjeev (Jay) Popli
- **Total CNY Employees:** 25
- **No. of CNY Offices:** 2
- **Engineering Concentrations:** architectural, civil, electrical, inspection, mechanical, plumbing, structural, surveying, transportation
- **Markets Served:** commercial (5%), industrial (3%), institutional (25%), govt./municipal (67%)

Licensed Engineers in CNY counties

■ Broome	158
■ Cayuga	45
■ Chemung	37

■ Tompkins	89
■ CNY Total	1,583
■ NYS Total	15,581

SOURCE: NYSED.GOV, INFO AS OF JAN. 1, 2023

- **Specialties:** architectural, mechanical, electrical, and plumbing engineering, structural engineering, civil/site engineering, bridge and highway design, surveying, bridge inspection, and construction inspection

Prudent Engineering, LLP

6390 Fly Road
East Syracuse, NY 13057

- **Phone:** (315) 748-7700
- **Website:** prudenteng.com
- **Year Established:** 1992
- **Principal:** Philip A. Thayaparan
- **Principal:** Michael A. Venturo
- **Principal:** Brad Pcolinsky
- **No. of Licensed Engineers:** 21
- **Total CNY Employees:** 79
- **No. of CNY Offices:** 1
- **Engineering Concentrations:** construction, civil, environmental, inspection, structural, surveying, transportation
- **Markets Served:** commercial (10%), industrial (0%), institutional (5%), govt./municipal (80%), other (5%)
- **Specialties:** highway design, bridge and structural design, civil and site engineering, condition inspection, construction inspection and administration, municipal engineering, survey and mapping, and hydrographic services.

Quanterion Solutions Incorporated

Quanterion Solutions Incorporated

266 Genesee St.
Utica, NY 13502

- **Phone:** (315) 732-0097
- **Website:** quanterion.com
- **Year Established:** 2000
- **President:** Eric MacDiarmid
- **Vice President:** Alex MacDiarmid
- **Total CNY Employees:** 24
- **No. of CNY Offices:** 3
- **Engineering Concentrations:** electrical, industrial, mechanical, other
- **Markets Served:** commercial (20%), industrial (10%), institutional (5%), govt./municipal (65%)
- **Specialties:** reliability, maintainability, and quality analyses for electronic and mechanical systems; reliability design reviews; information
