

## Mumbai Architectural Guide

This unique guide shows some of the architectural threads that have contributed to make Mumbai the cosmopolitan metropolis that it is today, including rock-cut caves (important UNESCO World Heritage sites which are considered one of the cradles of civilisation), Indo-Islamic architecture, colonial heritage, hidden gems of Art Déco (including Modernist cinemas – a threatened species) and stunning contemporary architecture that is emblematic of the difficult historical period the city is going through for both economic and socio-ethical reasons.

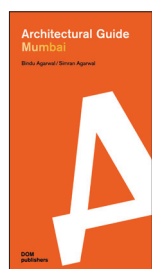

Featuring almost 150 buildings, *Architectural Guide Mumbai* will give the reader an understanding of how Mumbai's present is layered with its fascinating past and of the development challenges facing the city as it strives to provide more sustainable living conditions for its inhabitants.

**Mumbai**  
Architectural Guide

*Bindu Agarwal / Simran Agarwal*  
With additional contributions by *Martina Filippi, Maheshwari Gupta, Amanjeet Kaur, Naval Kulyal, Eléonore Muhidine, and Aanchal Sharma*
