## "Be the Change you want to see."

Our business was built on the simple idea of using business to empower lives around the world. Whether your customers enjoy playing in

the outdoors, drinking a quality cup of coffee, or simply supporting responsible companies, we offer the potential for a partnership with real impact.

## Product to Project™

Our Impact Team works hard to pinpoint opportunities to fund equitable and sustainable change around the world. A program completely unique in our industry, our Give Program welcomes you to be a partner in this endeavor. We are a Product to Project company, which is our way of saying every single purchase of a MiiR product supports a trackable giving project. Follow along by registering the trackable Give Code on the base of each vessel.

fund.

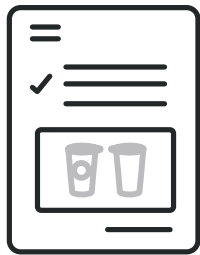

# Getting Started

## Pick Your Products

& send your art file our way!

[www.miir.com/pages/customiir](http://www.miir.com/pages/customiir)

## A Formal Proof

will be sent your way to ensure the artwork is the size, color and placement you desire.

## We Customize

& send it off to our Customization Partners to get printed.

## Flip, Register, Follow

Register the Give Code found on the base of your product.

[www.miir.com/pages/myimpact](http://www.miir.com/pages/myimpact)

## File Check List:

○ Vector based art file (Ai or PDF file format)

○ Ink color selected from the Coated Pantone Color Book

*\*Don't have vector based art? Ask one of our sales representatives about possible art creation options.*

# CustoMiiR FAQ's

## What's the minimum order?

Minimum orders vary depending on the product. Chat with your sales representative to learn more.

## Do I get to preview my design?

You bet! We provide you a digital preview of what your artwork or logo will look like on our product that includes sizing and placement specifications. Boom!

## What is screen printing?

Good question, head to page 12 to find the printing solution that best fits your design.

## Are your products dishwasher safe?

We recommend hand-washing all of our products. That being said, you can put any of our stainless steel bottles in the dishwasher without affecting their performance, the powder-coat finish and any screen printed designs just tend to last longer with hand-washing.

## Can you ship wholesale orders internationally?

We do have the ability to ship wholesale orders internationally. International orders are just subject to higher shipping fees and/or duties fees.

# Customization Capabilites

## Screen Printing

Our most popular option. Choose from any pantone color(s), or our team can custom match your brand colors. Multi-color (up to 5 colors) and wrap printing available.

**For orders of 3,000 units or more, you will have the opportunity to choose a custom body color, lid color and print technique. Please contact your account manager for examples of our vast capabilities.**

## Laser Etching

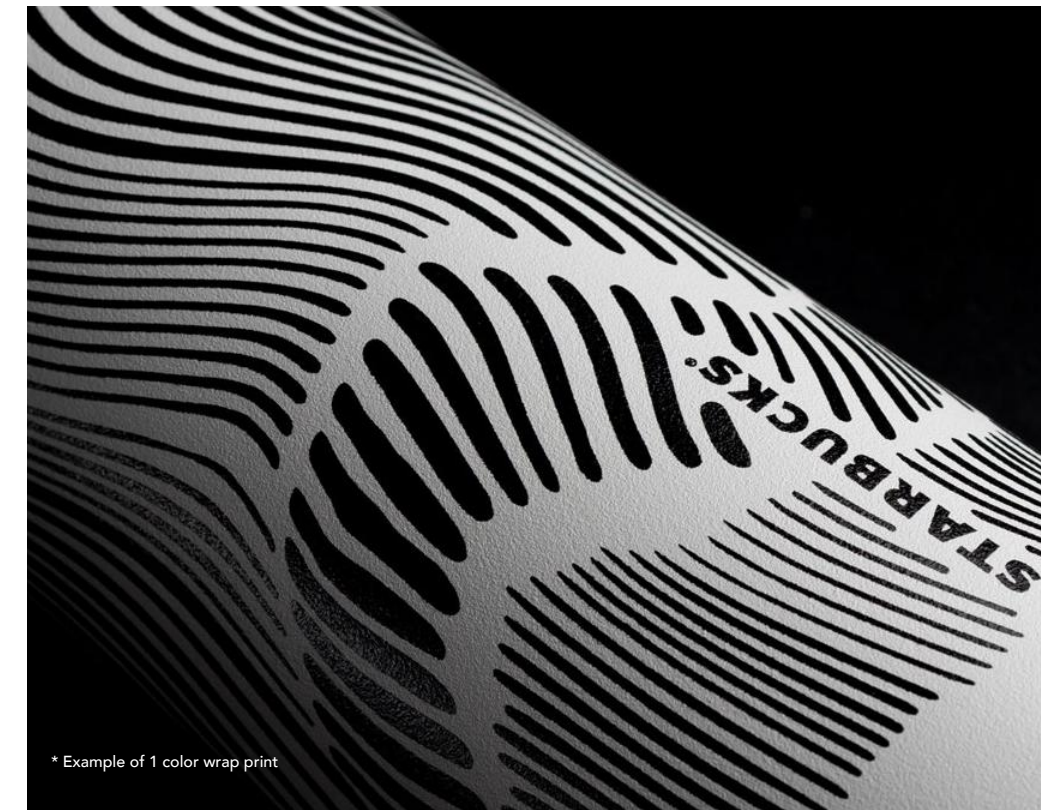

For a more premium branding option, laser etching is available. The laser carves away the powder coating finish to create your artwork, creating contrast and depth.

# Product Features

## Thermo 3D™

Thermo 3D™ is our double wall, vacuum insulated technology that guards the temperature of your drink.

## Stays hot & cold

Cold beverages remain icy cold up to 24 hours while hot beverages remain steaming hot up to 6 hours.

## Cup holder compatible

Designed for convenient storage while navigating the craziest roads and keeping your drink safe.

## BPA free

All of our products are guaranteed to be 100% BPA free.

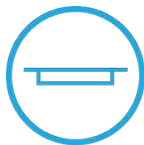

## Hardshell™ Powder Coat

A durable coating finish that preserves and protects your product’s appearance.

## Double wall insulated

Insulation technology that locks in your beverage temperature.

## Tritan press-fit lid

A press-fit lid engineered to be durable, safe and shatterproof.

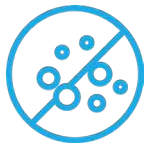

## Easy to clean

Simple as that.

## Does not transfer flavor

Our products are made from 18/8 medical grade stainless steel so there’s no flavor transfer & no metallic aftertaste.

## Does not sweat

Our double wall technology eliminates condensation keeping your hands dry with every type of beverage.

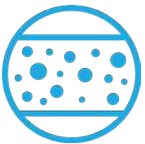

## Leak free design

Our Perfect Seal™ lid technology ensures liquids are sealed inside where they belong.

## 18/8 stainless steel

We use the highest quality medical grade stainless steel, containing 18% chromium & 8% nickel making is safe and strong.

## Threadless lid

A unique design that seals carbonation in to keep your beverage fresh longer.

## Spoon friendly

Designed so you can get every last scoop from the bottom of your Food Canister.

## LIFETIME WARRANTY

All MiiR products come with a limited lifetime warranty against manufacturer’s defects for the life of the product.
