2018 PRODUCT CATALOG

AT ZEE®
WE LIKE TO TAKE THINGS
ONE STEP FURTHER

The importance of the garden and patio as an extension of the home has grown tremendously over the last few years.

Designers worldwide put their talent into shaping furniture, light fixtures and even weather-resistant textiles to make one's yard look as smart as a living room. At ZEE® we like to take things one step further and focus on the details as well.

The water hose is probably one of the most essential exterior tools. We use it to feed plants, vegetables and flowerbeds; we clean tools, muddy boots, bikes and cars with it. And during the summer it fills up swimming pools, water guns and balloons to bring coolness and endless fun.

Surprisingly not much attention has been paid to its design so far. So at ZEE® we agreed it was time for a change. By going for the “unicolour” look, we have managed to produce real design objects. So you can enjoy your outdoor living space even more and to the fullest. The jury of the prestigious design label “Henry Van De Velde” followed us and at the start of ZEE® with the development of the garden hose reel Mirtoon, they attributed us the Henry Van De Velde label for design.

‘Mirtoon is a completely aesthetic redesign of the well-known garden hose with reel. It is practical and discrete and thanks to its colour scheme it allows to either blend in or stand out in its surroundings.’*

MIRTOON 10m/30m

HOSE REEL

There have been hose reels on the market for many years, but they are all mainly designed for practical purposes. Our main goal was to manufacture a pretty looking hose reel and we are confident to have pulled it through.

Mirtoon comes in a 10 meter and 30 meter edition. The smaller version fits perfectly any terrace, patio or balcony. The large hose is ideal for gardens and all other practical use.

The 'unicolour look' is the basis of the reels attractive appearance. The material for the production of the casing is ABS, which gives it a crisp design and a look and feel that is of far higher quality than the one offered by most colleagues on the market.

Mirtoon is ready for use. Each reel includes a hose, fittings and nozzle. The hose has been provided with the necessary connectors to use it worldwide. No fuss. Ready, set and go. For the design of Mirtoon we have teamed up with the Antwerp based award winning Studio Dott.

HOSE TROLLEY

TASMAN

HOSE TROLLEY

The mirtoon hose reels are the watering (feed, clean and play...) solution for around the house. The Tasman hose trolley is the work horse with a large range. There are plenty of good quality hose trolleys on the market, but again they are all designed for practical use.

So, as our tradition demands from us, we wanted to offer a beautifully designed hose trolley.

Because we were so happy with the design of the Levantine shower, we knocked again on Alain Gilles' door. Alain designed an elegant, strong, practical & high quality garden tool. We put 50m hose on the Tasman to give the user the large range. The galvanised steel frame and parts make it a strong tool. The thick powder coated matt layer on top of that makes it weather proof and beautiful. The sturdy wheels are all terrain. We added the necessary connections, a nozzle and spray gun (5 settings). Just connect the Tasman to the tap and it's in working order, ready to go.

TASMAN SPECIFICATIONS

- For all outdoor watering needs.
- Well-designed high quality construction with optimised balance.
- Durable powder coated galvanised steel. Special profile tubing for ease of handling.
- Robust PU tyres suitable for all ground conditions.
- Rubber Handle for ease of roll up/unroll operation.
- Rubber frame feet to help trolley parking.
- Nylon hose clip to keep hose tidy.
- Includes 50m hose 5/8" Hose. 2 layer cross enforcement polyester mesh supports temperature -10°C > 60°C and pressure of 20 Bar. UV protected.
- Includes all necessary hose fittings. Hose connector with water stop, hose connector (x 3), tap connectors (1/2", 3/4" & 1"), adjustable nozzle and spray gun (5 settings).
- Dimensions 95 x 60 x 50 cm. Weight approx. 19 kg.
- Available in 2 colours, black & white.

OUTDOOR SHOWER

LEVANTINE

OUTDOOR SHOWER

Where we were looking for new territories in the garden with Mirtoon, with the Levantine we get to a market where we are certainly not alone. Yet we know we can defend ourselves in this competitive market.

Alain Gilles, Belgian designer of the year 2012 designed Levantine. The sleek yet very elegant and organic design from Alain is not only a beautiful garden shower, but you can also see it as a sculpture that will emphasize your garden.

The Levantine is an all season quality product that survives all weather conditions. The shower is made of galvanized steel. Everything is covered with a thick UV resistant powder coated layer. A chromed brass input for standard garden hose connections tops it all off. Through the repetition of black and white, Levantine can be combined with the Mirtoon.

LEVANTINE SPECIFICATIONS

- Tubes in powdercoated galvanised steel (diameter 4,2 cm and 0.15 cm thickness) shower height is 210 cm.
- Steel powdercoated base (44 x 3 cm)
- Total shower weight is 18 kg.
- Base cover for extra protection in powdercoated galvanised steel.
- Easy assembly: base tube screws on base, top tube screws on base tube and ready to use.
- Chromed brass standard fitting for easy connection with any garden hose.
- Rounded shower cap in rubber with soft and evenly spread water jet for comfortable rinse.
- Round wide base with stabilizing feet can be put on each terrace, garden, surface.
- Available in 2 colours: black and white.

DESIGN AS A SECOND LIFE

After studying Political Sciences and Marketing Management, Alain Gilles went on to work in the international financial world for 5 years. But one has to live his own life. So, thanks to the moral support of his wife, he went back to studying Industrial design in France. He opened his own studio in late 2007 in order to pursue his own dreams and develop his personal approach to product design, furniture design, art direction and scenography. He has since started to collaborate with several international editors such as Qui est Paul ?, Galerie Gosserez Paris, Magnitude, O'Sun, Buzzispace, Casamania and Bonaldo. Several of his products have been awarded international prizes, such as the Henry Van De Velde Label, the Design for Asia Golden Award, The 'Red Dot Best of the Best' for the Welded table and the Good Design award for the Big Table. In 2012, he was named 'Designer of the Year' by the prestigious Biennale Interieur Kortrijk – Belgium.
