LET'S FEED LET'S CLEAN LET'S PLAY

AT ZEE® WE LIKE TO TAKE THINGS
ONE STEP FURTHER

The importance of the garden and patio as an extension of the home has grown tremendously over the last few years.

Designers worldwide put their talent into shaping furniture, light fixtures and even weather-resistant textiles to make one's yard look as smart as a living room. At ZEE® we like to take things one step further and focus on the details as well.

The water hose is probably one of the most essential exterior tools. We use it to feed plants, vegetables and flowerbeds; we clean tools, muddy boots, bikes and cars with it. And during the summer it fills up swimming pools, water guns and balloons to bring coolness and endless fun.

Surprisingly not much attention has been paid to its design so far. So at ZEE® we agreed it was time for a change. By going for the unicolour look, we have managed to produce real design objects. So you can enjoy your outdoor living space even more and to the fullest. The jury of the prestigious design label Henry Van De Velde followed us and they attributed us the Henry Van De Velde label for design.

KORO

The Koro
barbecue, is
all about
togetherness.
Sharing and
enjoying
family, friends
and food,
around the fire
is why we
developed the
Koro barbeque.

CHARCOAL BARBECUE

KORO BARBECUE

Until recently, Zee products all revolved around water. With the launch of the Koro barbecue, fire is added to the range.

Fire is the primal element around which mankind gathered since they discovered its warmth, energy and bonding power.

Today, humans still like to unite around flames. Outdoor experience has become an essential part of home living, and garden accessories have evolved from plain and practical to pretty and smart.

Our light, compact and attractive barbecue can be used as a cooking device or as a fire pit, connecting people around its warm core. Koro's simple circular design and the black-and-white base colors perfectly complement the other products in our range.

Koro is a user-friendly, all-purpose and reasonably sized charcoal barbecue that can be used throughout the year.

Design: www.studiodott.be & ZEE

KORO SPECIFICATIONS

- All-round all season barbecue
- Durable powder coated steel
- Innovative height-adjustable stainless steel grill system
- The handle is high and heat resistant, making it easy to remove the lid.
- The ring around Koro to hang barbecue tools and keep children at a safe distance
- Perforated ash catcher made of enameled steel
- Easily adjustable air vents at the top and bottom
- Thermometer
- Black cover to protect the barbecue from the elements after use
- Dimensions: Height 94.50cm (with handle 100.50cm) - Barbecue width 51.80cm - Ring width 65.50cm
- Weight: 23 kg
- Available in black and white

MIRTOON

Mirtoon is a completely aesthetic redesign of the well-known garden hose with reel. It is practical and discrete and thanks to its colour scheme it allows to either blend in or stand out in its surroundings.*

MIRTOON 10M/30M

There have been hose reels on the market for many years, but they are all mainly designed for practical purposes. Our main goal was to manufacture a pretty looking hose reel and we are confident to have pulled it through.

Mirtoon comes in a 10 meter and 30 meter edition. The smaller version fits perfectly any terrace, patio or balcony. The large hose is ideal for gardens and all other practical use.

The unicolour look is the basis of the reels attractive appearance. The material for the production of the casing is ABS/ASA, which gives it a crisp design and a look and feel that is of far higher quality than the one offered by most colleagues on the market.

Mirtoon is ready for use. Each reel includes a hose, fittings and nozzle. The hose has been provided with the necessary connectors to use it worldwide. No fuss. Ready, set and go. For the design of Mirtoon we have teamed up with the Antwerp based award winning Studio Dott.

GARDEN HOSE

* Comment of the Henry van de Velde Label jury.

MIRTOON 10M SPECIFICATIONS

- For terraces, balconies, patzio's...
- High quality ABS/ASA casing with UV stabilizers.
- Includes 10M PVC hose: ½" - 2 layer cross enforcement polyester mesh supports temperature -10°C - 65°C and pressure of 20 bar – UV protected.

- Automatic smooth, slow rewind with stop.
- Already fitted feeder hose with tap connector.
- Wall bracket including screws and plugs.
- 58 x 30,5 x 50,5 cm / 13,5 kg.
- Available in black & white.

LEVANTINE

Where we were looking for new territories in the garden with Mirtoon, with the Levantine we get to a market where we are certainly not alone. Yet we know we can defend ourselves in this competitive market.

LEVANTINE OUTDOOR SHOWER

Alain Gilles, Belgian designer of the year 2012 designed Levantine. Several of his products have been awarded international prizes, such as the Henry Van De Velde Label, the Design for Asia Golden Award, The Red Dot Best of the Best for the Welded table and the Good Design award for the Big Table. In 2012, he was named Designer of the Year by the prestigious Biennale Interieur Kortrijk – Belgium. The sleek yet very elegant and organic design from Alain is not only a beautiful garden shower, but you can also see it as a sculpture that will emphasize your garden.

The Levantine is an all season quality product that survives all weather conditions. The shower is made of galvanized steel. Everything is covered with a thick UV resistant powder coated layer. A chromed brass input for standard garden hose connections tops it all off. Through the repetition of black and white, Levantine can be combined with the Mirtoon.

OUTDOOR SHOWER

LEVANTINE SPECIFICATIONS

- Tubes in powdercoated galvanised steel (diameter 4,2 cm and 0.15 cm thickness) shower height is 210 cm.
- Steel powdercoated base (44 x 3 cm)
- Total shower weight is 18 kg.
- Easy assembly: base tube screws on base, top tube screws on base tube and ready to use.
- Chromed brass standard fitting for easy connection with any garden hose.
- Rounded shower cap in rubber with soft and evenly spread water jet for comfortable rinse.
- Round wide base with stabilizing feet can be put on each terrace, garden, surface.
- Available in black and white.

TASMAN

HOSE TROLLEY

The Mirtoon hose reels are the watering (feed, clean and play...) solution for around the house. The Tasman hose trolley is the work horse with a large range. There are plenty of good quality hose trolleys on the market, but again they are all designed for practical use.

TASMAN HOSE TROLLEY

So, as our tradition demands from us, we wanted to offer a beautifully designed hose trolley.

Because we were so happy with the design of the Levantine shower, we knocked again on Alain Gilles' door. Alain designed an elegant, strong, practical & high quality garden tool.

We put 50m hose on the Tasman to give the user the large range. The galvanised steel frame and parts make it a strong tool. The thick powder coated matt layer on top of that makes it weather proof and beautiful. The sturdy wheels are all terrain. We added the necessary connections, a nozzle and spray gun (5 settings). Just connect the Tasman to the tap and it's in working order, ready to go.

TASMAN SPECIFICATIONS

- For all outdoor watering needs.
- Well-designed high quality construction with optimised balance.
- Durable powder coated galvanised steel. Special profile tubing for ease of handling.
- Robust PU tyres suitable for all ground conditions.
- Rubber Handle for ease of roll up / unroll operation.
- Rubber frame feet to help trolley parking.
- Nylon hose clip to keep hose tidy.
- Includes 50m hose 1/2" Hose. 2 layer cross enforcement polyester mesh supports temperature -10°C > 60°C and pressure of 20 Bar. UV protected.
- Includes all necessary hose fittings. Hose connector with water stop, hose connector (x 3), tap connectors (1/2", 3/4" & 1"), adjustable nozzle and spray gun (5 settings).
- Dimensions 95 x 60 x 50 cm.
- Weight approx. 19 kg.
- Available in black & white.
- Black cover to protect the barbecue from the elements after use.
