

TRIBECA 3660

DESIGN:
MANDELLI PAGLIARULO

Tribeca takes us back in time with a modern reinterpretation of classic Sixties patio chairs made from steel and woven material. Tribeca is an outdoor seating collection that draws inspiration from childhood memories of summer: a sunlit Mediterranean square where children play, while a woven chair throws shadows of its cords onto the cobblestones. A true icon, revisited with new materials: a steel frame, combined with the elasticity of a profile in vertically-woven plastic material that is remarkably durable, easy to clean and colourful. Handcrafted with the highest attention to detail, this chair is incredibly soft and comfortable and puts a contemporary twist on tradition with its cutting-edge design and quality. The cording is arranged to give a fresh and dynamic sense of rhythm and openness to every version, whether it's the chair, armchair or stool in two different heights.
