

Heart Explosion Card

Instructions:

1. Photocopy pattern onto paper. (Cardstock is too thick.)
2. Cut on all solid lines. Stamp your images before folding, so they stamp well.
3. Mountain Fold all short dashed lines. (Pinch along the line, so it is folded outward.)
4. Valley Fold along the long dashed line. (Fold it away from you.)
5. Fold up so all you have is one heart shape. Put glue on either side, and glue it into the middle of your card.
